The Chairman said that Mr Harty did not ask him for a nomination but the reason why he nominated Mr Harty was that he was a member of the Co Council An Fear Mor undoubtedly is a most suitable nominee but he thought that a member of the Council should be the 1epresentative and that Mr Harts was the best suited

Mr Denis Heskin said that he would withdraw in favour of Mr Harty and he agreed that the the representative should be a member of the Council Mr Harty' again intimated

Mr Morrissey strongly objected to Mr Terry's proposal as he thought it was unfair and ille-

Mr Roger Shanahan Ashtown Kilmacthomas farmer and horst dealer claimed £9 from Mr John Folcy Kilossera, Dungarvan for breach of contract being money paid by plaintiff to defendant on foot of a contract for the sale by de-

Mr Shee solr Clonnel was for plaintiff and Messrs Far-rell and Morrissey soirs, Dungarvan was for defendant.

Explaining the case, Mr Shee said that on Sept 2nd his client and Cullinane went to Foley s to see some horses Having seen them he asked Foley for his price for one of the horses but as it was too high there was no deal Cullinane suggested to Mr Shanahan that he buy a mare Shanahan that he buy a mare which was suckling a foal and that she be left with Foley until the foal was weaned They made a deal at £9 which was paid Cullmane was to be well as a friend of mine and he told the carcast of the carcas paid Cullimane was to be told is a iriend or mine and ne told when the mare was ready to be me to send all the carcasses to taken A fortnight later plaintiff met defendant at Dungar- yan fair and asked him about van fair and asked him about the mare Defendant asked have been cut or caught her. The hit we with it When Cullinane went to

take the mare she was badly lamed and in very bad condition and died 3 or 4 days afterwards Mr Shanahan in evidence said "When I saw the mare she was running with a foal We agreed at £9 and the mare was to be left with Foley until the foal was weaned The weaning process is slow and that is why I couldn't take the mare at once I met Foley on Sept 15th (Fair Day at Dungarvan) and we spoke about the mare and I never heard about her after that until I got a wire some time after stating that she was dead

for a week and asking that the carcase be removed at once Mr Morrissey solr —When you went to Foley's didn't you go of your own volition?-How much did Foley ask for the mare first ?—I don t know Didn't he ask for £14 and you said you wouldn't pay that for all the horses?—We had no

deal on the lands

And didn't he make the deal at £9?—Yes And you gave Mr Foley cheque —Yes Didn't Foley say you take the mare '2-I don t remember that but understood that he would tell Cullinane

when the mare was ready Do you deny that it was arranged between Foley and Cullinane that the mare be taken in two days?—Yes

Was it a fact that the foal had been weaned for some time not when you saw the mare? She was running with the foal Yes she was in the same field alright with the rest of the horses but a man of your experience with horses could tell that at a glance ?—I didnt examine the mare

Foley say "why haven't you taken the mare yet?'-No said when will you take the mare remember receiving a °You telegram ?—Yes Isn't Dick Cullinane your

agent in this area?—Yes What did you want the mare for 2—For a knacker Mr Shee—How long would a mare run with a foal before meaning?—Oh from 5 to 7 months

Mr Dick Cullinane, Mapstown Dungarvan, said he "spotted the horses on Foley's land and told Mr Shanahan, and both went to see them Foley asked about it Therefore I don't too high a price for one Withink Mr Shanahan can sucness went on "I then suggested ceed in his claim for damages to Mr Shanahan that he buy

the mare and that she could be the mare and that she could be taken when the foal was weaned Foley agreed with this arrangement. The deal wasn finished in the field and on our way back we met Mr Kiely near the road. He asked what was Miss Joan Nurse Claimed E10 damages from the road. way back we met Mr Kiely near the road. was a difference of £2 in the deal He finally arranged it at £9 All arrangements about the mare had been made before that I met Foley a few da/s later and asked about the mare and he said he wanted to give the foal a chance On Sept 15th I met him again and he told me when I asked him that the foal had been sold but the mare was in very bad condition and was thrown on her side for 2 days I saw her the next day and she was in a very sorry condition She had a bad wound, she was lame and her side was sore She appeared to have been neglected.

We Mexically arranged it at tained when on Oct 4th she was assaulted by James Foley a servant of defendant who injured her by striking her on the head and forehead with a saw and cutting her leg and hands and striking her with his hands and fists and by taking hold of her by the body and pulling her and staking her and by pulling and tearing her clothing

Messrs Farrell & Morrissey Solrs were for plaintiff and Mr T C Williams, solr, was for defendant

Mrs Conway in evidence said that on Thursday Oct 4th she went to the wood at Clonconskraine to gather wood Thurs-

lected Mr Morrissey—Were you the only person who mentioned leaving the foal there until waned?—About a week before we made the deal I made the arrangement with Foley to take at the mare after weaping.

And no mention of this ar-rangement was made?—It was it was hers and he said he was understood taking it up to the lady at the

Folcy and he told you that he had seen Shanahan and asked out she said Foley was right as No witness must have provoked

He told you the mare was lame since that morning?—He told me she was lame for some days Do you remember saying when you heard she was lame 'I hope you didn't tell Shanahan this ?

Did you say you were sorry you didn't come for the mare

treatment '

and she probably would have lived John Foley in evidence said On Sept 2nd I sold the mare to Shanahan There were 5 horses together in the field at the time After seeing the horses and the mare we were coming back towards the road when we met Mr Klely and he made the deal at £9 for which Shanahan handed me a cheque I met Cullinane several Sunday s after that and asked him to take mare but he said he could not for the present as he was too busy at the harvest On fair day I met Shanahan and asked him again to take the mare away and he said that he thought Cullinane had already taken her The next day Cullinane came to take her but said leave her there Jack for another week she s too lame now I said her leg is getting septic and you better get a vet and he replied Like hell I will she isn't worth that" Later the mare died and was there for over a

week I had to get a man to remove the carcass and paid Further witness said that the foal had been weaned the day of the deal and that all mares are barren on Sept 1st -

Mr Shee-How long do foals run with mares 9-About 3 months? You would disagree with Mr Shanahan on that?—Yes
Did you tell Mr Shanahan

that the mare was lame on fair day?—Yes Mr Shanahan says you did On the following Wednesday you sent a wire to say the mare was dead for a week?—Yes

When did she died?-On Monday . Therefore the wire was not true?-I put that down to hasten them to take the carcass

Mr B Kiely said On the date in question I met the parties coming up from the fields and asked what was between them was told £2 and made a deal at £9 Foley said to Cullinane "come and take the mare in a day or two" and Dick said 'alright Jack" or something to that

Justice—I think Shanahan depended too much on Cullinane I hold that the property passed on the day of the deal and Foley was not grossly negligent as he reported the damage to the mare as soon as he found it out and the plaintiff did nothing I allow Foley's claim of £1 10s. and will give a decree for that

the ground

Did you enter the wood over
the wall?—No
What happened when Foley
came along?—He took the saw
and I asked him to give it back Do you know that Miss Nugent's instructions are that all saws are to be collected and sent into the Garda Barracks where they can be claimed?

He hit we with it How old is Foley?—I/don't

know You would be surprised hear that he is 75?-I dont You used abusive and offen-

sive language to Miss Nugent? What did you say?-The saw was belong to my brother who is missing and that the hand that would use it might mortify Do you know what that means was it supposed to be a curse of some kind?—I just said

You said you would summon Foley?—Yes
And you threatened to take

an action against Miss Nugent? You thought Miss Nugent was soft thing and that you would get plenty of money from her-After speaking with her did you go to the wood and cut more timber?—We only collected what we had already

I put it to you that you only

got a slight bump on the fore-

head?—No

Had you to stay in bed?-No You had no ill-effects?-I have had headaches since To Mr Morrissey witness said that she purchased timber regularly from Miss Nugent. Dr McCarthy said that he examined Mrs Conway about a week after the assault and found an abrasion on the right

forehead and a healed scar on

the wrist and also on the heel

The abrasion in his opinion was

propably caused by the handle of the saw Mrs Hicks corroborated Mrs Conway's evidence Mr Williams—You deny you entered by the wall?—Yes Were you cutting growing tim-

Did you see Foley take the And you saw Mrs Conway spring at Foley to get it back?— She went to him and asked him,

he refused and hit her James Foley was next witness Mr Williams-You're a woodranger at Cloncoskraine?—Yes, I signed my name for it in the Guards Barracks.

Justice—That lends an air of sanctity to it (laughter). Mr Williams-How did these people come into the wood?-Over the wall

What timber were they cut-ting?—Young growing laure! What did you do?—I took the saw and she came at me and tackled on to me and kept at me for near twenty minutes (laughter). I said that I would bring the saw to Miss Nugent and she caught me by the waistcoat and I shouted 'let loose there" (laughter) I got away and brought the saw to Miss Nugent.

THE XMAS TURKEY MARKET

We are glad to see that are

We are glad to see that owners of turkeys which are already fit for the market are sending them in much earlier than in former years which is the wisest thing to do as it would be foolish to entail the heavy cost of extra feeding when there is no prospect of the present market price being increased this year Very large consignments of heavy birds are reaching the market of Messrs J O Connor and Sons Egg and Poultry Exporters every day, while the huge supplies of rabbits being daily purchased far exceed previous years supplies Messrs O Connor have reputable and solvent agents all over the Counties of Tipperary and Waterford and have recently appointed Mr M Russell as their agent for Moorehill and Knockanor districts who is new burning anore districts who is now buy-

Dail Debates **Employment And Emer**gency Schemes -

Mr Heskin—I agree that this improvement Scheme will meet the requirements of many people who are in very remote areas and will facilitate them in carrying on their business especially in view of the new tillage Order I would suggest that under this Ruial Improvement Scheme in dealing with link roads the County Council should be a ked to garry out the should be asked to carry out the repairs of such roads provided of course that in their case also such work was being carried out by the County Council I am forthcoming from people on the particular connecting road or link road by supplying horses stones etc In the case of roads. in order to facilitate the rural community I would suggest that the contribution demanded from the people who are interested be reduced to one-eighth instead of one fourth of total amount involved. I think that would make the position much easier for those people and would help to alleviate the trying conditions under which people in ruial areas labour There is no doubt that in very remote areas farmers have no roads In many cases they have to travel through fields I have no doubt that this scheme will help them considerably We all appreciate it fully and realise that it is very necessary

In connection with the minor relief schemes for a few years past there has been general distunate men who are called on such relief schemes get only 3 or 4 days a week employment I think that is very unfair and when such schemes are intro duced the men should be kept in constant employment until the work is finished

Furthermore I would suggest to the Minister that the wages workers every week In all such schemes there is a system of fortnightly payments which involves great hardship to those employed Men employed on such schemes are not known as permanent county council workers and cannot get the credit from shop keepers that permanent county council workers would get I suggest that the Minister should instruct county council and local authorities to make weekly pay ments to such men I think it is unfair to them and to their families to expect them to work for a period of two weeks before being paid Very often before these men were called to that particular employment they were half starved depending in many cases on a few shillings relief or dole I think the Department should make weekly payments available under such schemes in future

As regards the turf roads, certain cases have been brought to my notice where grants would required I am sure under this improvement scheme moneys will be available but I doubt if people in isolated turf areas where relief schemes are not in operation will be able to avail of this scheme because there is so much money involv-ed Where there is a number of bog owners in a certain area I would suggest that the County Council be asked to put up the money required and to carry out the work of making roads to such turf bogs Many people make their living out of turf and in some areas they find it very difficult to cart it to suitable places where the lorries can places where the formes can take it In part of County Waterford this year I know thousands of tons of turf were left on the mountain-side appropriate the lorries could take it The people have not the facilities to cart it to a suitable road I suggest that where an application is made by a number of people engaged in turf production such roads should be made available so that they could carry their so that they could carry their turf to a place from which they can dispose of it
