THE NATIONAL LANGUAGE

(By P J O'BRIEN, Youghal)

'To lose your native language' said Thomas Davis "and learn that of an alien is the worst badge of conquest—it is the chain on the soul To lose entirely the national language is death These words coming from such a source from the fount of wisdom in an Irish national sense are of great and solemn import and should well make every genuine Irishman reflect as to what the future of his country man be if the national tongue should be allowed to perish No truer political philosopher ever lived than Davis no more profound mind ever planned for our country s good no more inspired voice was ever heard to plead the justice of her cause and therefore it is that the words above quoted should be taken as a solemn word of warning addressed to every Irishman bidding him to save the national language from the decay and neglect which are fast eating its life away

The Irishman who would willingly see the historic language of his country sink into the without making every effort to save it and restore it cannot boast of an excess of national sentiment and cannot be classified as other than a foreigner in feeling though an Irishman by birth the sat best but a specimen of the anti-Irish Irishman tribe that prototype of modern slaves and though he may profess to be all that an Irishman ought to be and may be
quite sincere in his professions
yet while he remains unpossessyet while he remains unpossessyet of a love for the old tongue of ed of a love for the old tongue of his country or of a desire to of his country or of a desire to safeguard it from danger he is devoid of an essential part of national sentiment and of him it may be said that the iron-

old games old buildings old music old paintings and everything else old are honoured and made much of the old language of our forefathers should be venerated and should be guarded with a sacred and unremit-ting care. It was the language spoken in the land when our ancestors were free as the winds that fanned their native hills or the streams that bounded down their slopes and when they themselves were not only the masters in their own lands but the conquerors of others and as the one heritage left of the days of Irish freedom and nationhood it should be fostered and maintained by every Irishman who looks back with pride to those grand old days when his country was free and his country happy

Who but a slave would say that the language in which laid down his laws in which Columbkille vented his grief at parting with his native land in which Ossian chanted his deathless songs in which the great Brian gave his commands on the red plain of played in the district covered Clontarf in which Sarsfield urby him—Ed DL] ged many a kerne and gallowd FIVES, (Hon Sec.) Water Shortage In The Dis trict—At a recent meeting of the Committee formed to promote a proper Water Scheme for the people of Fourmilewater the following resolution was unanimously adopted -

As the Waterford County Pipers Band Council (Board of Health Section) in their recent letter on the subject to this Committee has acknowledged the claim of the people of this district for a proper water supply, we consider that even though an Emergency exists at present, the length of time this claim has been before the Board now justifies us in asking the Board to give some tangible proof that this urgent matter will not be further postponed perhaps for an indefinite period as we see no reason why the construction of a reservoir should not now be To his bereaved widow daughproceeded with This would en ter and other relatives deep able the entire work to be start- sympathy is extended. Facil ties For Cutting Turf—
The extensive Turf Bogs in the Nire mountain some nine miles from Ballymacarbery are now providing considerable supplies of fuel for the people in the Four-Mile-Water Parish due to

posal of the public on Sundays and Church Holydays when it would be otherwise idle for the purpose of providing transport for those wishing to go to the bogs and cut turf for their own use a concession which is being largely availed of by the people in the district all of whom feel deeply grateful to Mr J Bowen Co Surveyor for his great kindness in the matter
