Bus Service At Dungarvan
Arising out of the minutes reference was again made to the great inadequacy of the bus service at Dungarvan and it was stated that on the Saturday previous to the meeting there were about forty people waiting for the mid-day bus to Waterford When a telephone call was put through to the bus depot at Waterford they stated first that they had a bus and no driver and later that they had got a driver but that the bus had broken down

Mr Kyne said that was the statutory right of all applicants to appear before the court. It was alright for those who were called by the Government to appear but if the referees think they do not want a man he has to go and pay his own expenses which is unfair. He thought that a court of referees should be held in Dungarvan for those in West of County and it was decided to refer the letter back for reconsideration.

Endowment Assurances

HIS form of Life Assurance enables parents or guardians to make adequate provision for the education of children by making comparatively small payments during the early years of a child a life.

The Policy is an Endowment Assurance on the life of the parent or guardian and provides for the payment of an agreed sum annually for an arranged term of years when the child attains a certain age

Should the child die, the Policy could be continued for the benefit of another child or for any other purpose desired. In the event of the death of the parent or guardian, the payment of premiums would cease and his Representatives would begin to receive the benefits immediately and if the cash was not required for immediate use it could be invested until the educational expenses are incurred.
