Importers Should

Establish Turf Dump Arising out of the minutes Mr Kyne again referred to the turf position as far as Dungaryan wished to repeat again the inless a turf dump was established in town the people would the biggest way in Dungarvan This man told me said Mr Lyne that when the wheat and beet season starts there will be no transport available for turf and the danger period will around Christmas There was one firm in town who had stored up a stock of 3 000 tons last year and with what they managed to pick up it just did until Febru-This year all he has is 15 25 tons but has been waiting almost a fortnight for delivery When it is like this now what will the position be when every truck is taken up with wheat exists in this respect and I can produce facts for them to prove that unless a dump is opened we will have no turf later on If we do that then our hands will be clean and no blame can be attached to us I know of one merchant who supplied 98 customers today with amounts from 3cwt to 5 cwts so that it can be seen that 15 tons is very little good Now is the time to have something done not later on and I suggest that we get in touch Fuel Importers and point out these facts to them M Butler-It is a very serious Heretofore the mer-

chants had to find and store turf themselves for urban and rural people but now Fuel Importers have to provide the merchants with turf for the urban area and they should provide a dump to get over this period we cannot now address our protest to the local merchants as trouble was due to a chokage. Senator Butler said that he we did in the past but we should point out to Fuel Importers that main sewer in O Connell Street, which was very creditable to the To his knowledge this place has We cannot now address our prothe people They should open a dump to ensure that the people of the town will have an ample supply for the winter. The Chairman agreed with the remarks of Mr Kyne and that told me that it could never the new Clerk will be taking up

It was stated by a member ration of 1-ton per month would only wait and see exist during the winter as well Finally it was agreed to point out the facts as raised to Fuel
