In connection with the apscial
meeting of the Co Council te be held on Jan 13th to deal with Vocational Education in the County the CEO submitted the following prepared statement for submission to the Council as re-

In connection with the request of the Waterford County Council for a survey of the existing position with regard to the provision of Vocational Education Schools throughout County Waterford I wish to submit the following statement Permanent Vocational Schools have been provided so far only at Dungarvan and Cappoquin centres At these two centres full-time Day Classes for boys and girls and Night Classes for adults are held in the several subjects under the Programme

The remainder of the County is being catered for by occasional Courses of Instruction by teachers of Woodwork Domestic Economy and Irish

The position with regard to accommodation has not changed over a period of 35 years Old disused schools barns and stores are being rented for classes At many centres even this ramshackle accommodation is not available Irish classes are accommodated at eight cenin existing National Schools

The Technical Instruction Acts which were in force pre-vious to the Vocational Education Act of 1930 made no financial provision whatever for the erection of school buildings Building sites have been pur-
