FINAL INSTALMENT

The Challenge Of Our Time
The great quarrel in Europe and in the world today is not merely a religious and theological one. It is the division between Catholics and unbelievers, or Catholics and atheists. On one side the Catholics consciously and resolutely defending their beliefs and seeking to maintain a society in which these beliefs are to be transmitted to their children and on the other side unbelievers and Godless men seeking to hustle the Christian revelation into an attic for unwanted things and to bring up the next generation as dogmatic unbelievers. And thus is continued the struggle between the Catholic and the materialist or secularist views of human nature and human destiny. Belief in God is something normal and natural as man is a being created for a religious end. Unbelief is a form of imperfection and mutilation. An isolation and imprisonment of the human spirit in a narrower world than that in which men are intended to live.

Belief in God is the foundation of all social order and of responsible action on earth. The godless must often experience in their minds and hearts the feeling of a vacuum or spiritual hunger and a craving to find some substitute for that rest and security anchorage and stay which the thought of God gives to the religious man. The well-known words of St. Augustine come to our minds. Though hast made us for Thyself O Lord and our hearts find no rest until they rest in Thee. (Confessions)

Natural intelligence and ability clear thinking foresight and energy are to be valued highly but separated from obedience to the higher law. God these are the qualities of themselves may bring ruin to State as well as to the individual soul. Clever callous and godless men abounded in the world and brought on the war from the effects of which we are still suffering.

We are most fortunate in the Diocese in that our schools primary secondary and vocational, are in the hands of good teachers. I think them for their persevering application to study and for their devoted and efficient services to the children. These children are the gold of the future and the hope of the future.

A word of special thanks and appreciation is due to the teachers who gave religious instruction and to the other teachers in the school of Christ. I exhort them to reflect sometimes on the sacred character of the Christian doctrine whose original author is the Second Person of the Blessed Trinity. There is nothing merely professional about Christian doctrine. It is intended for every human soul. This doctrine is not only the personal salvation of the children but is the foundation and soul of our civilization. Just as the Church and the family cannot continue to function properly without intimate convictions and devoted love so neither can civil society and government without competent and honest political leaders and an enlightened and patriotic citizenry. Let us all, Priests and Faithful treasure and cherish our Catholic Faith which alone can save the heart of man to good, retain in man belief and fear of God, respect for the law of justice and charity and reverence for the rights of every human being.

And in this crisis of the world's history let us all be united in all our citizens in the bonds of charity and peace.
The Grace of Our Lord Jesus Christ and the Charity of God and the communion of the Holy Ghost be with you always.
* DANIEL COHALAN
PS—We treat the bodies of our departed friends with reverence and respect because these bodies were the organs and channels of their souls in all their thoughts, words and holy works. If the parents garment or ring or beads or any other article is dear to their children owing to the love these children bear their parents much more are the bodies of those parents rightly held in honour and affection.
Our Lord Himself who was to rise on the third day, praises the good work of Mary Magdalen in anointing Him with precious ointment for His burial, and added: "Wherever this gospel shall be preached in the whole world that also which she hath done shall be done for a memory of her." And we read that Joseph of Arimathea having taken Our Lord's Sacred Body from the Cross wrapped it in a clean linen cloth and laid it in his own new sepulchre. This example conveys to us an idea of the reverence and care due to the bodies of the departed.
Our graveyards are sacred places as containing the mortal remains of our dear friends. Some of these ancient graveyards are in a condition which is a reflection on us all. If the living relatives of those who

sleep in the cemeteries were to be taken together in their spare time they could do much to remove at least the more serious defects. I ask the priests of the various parishes to give a lead in this matter of making our graveyards more worthy of our saintly dead.

Dungarvan U.D.C.
Adjourned As Mark Of Respect

Tributes To Late Mr William O'Meara
The usual fortnightly meeting of the Dungarvan Urban District Council was adjourned on last Friday night as a mark of respect to the memory of the late Mr William O'Meara who as Town Clerk of Dungarvan for many years.
Mr T. McCarthy Chairman presided at the meeting which was attended by Messrs J. McGrath J. Butler N. Kelly and L. Veale.
Mr E. Deery Town Clerk attended.

Votes of Sympathy
On the proposal of Mr Kelly seconded by Mr McGrath the following votes of sympathy were passed—
To Guard J. O'Dea on his recent bereavement. Mr D. Begley on the death of his father the relatives of late James Lannan Cathal Brugha Place the relatives of late Mr C. Skuce. Mr J. Flynn on the death of his mother Mrs. Crooke and the Misses Christopher Mrs. M. Casey Main Street Gerald Kiely and family on the death of their mother Michael Greaney ex the death of his wife Mrs. Greaney of the late Patrick Rordan Shandon and the relatives of the late Miss Hackett Church Street.

Late Mr William Lawlor
Proposing a vote of sympathy to the relatives of the late Mr William Lawlor Bridge Street Mr J. Butler said that the late Mr Lawlor had been a member of the Urban Council for a number of years a long time ago and during the period of his tenure of office he did very good work for the people of the town. He was one of the most respected men in the town and he was a very aged man and all now felt very sorry at his death. Mr Veale seconded said that he wished to endorse the remarks of Mr Butler and added that he was very recently the late Mr Lawlor had attended meetings of the Old Age Pensioners Committee which kept him in touch with public life.

Moving a vote of sympathy on the occasion of the death of the late Mr William O'Meara Mr Butler said that he had been connected with the Urban Council for 27 years and also with other Councils but in all that time he had not met a more agreeable or grander public official than the late William O'Meara. He said that the late Mr O'Meara was a man who did everything possible to make things easy for public representatives and his advice was such that it was always followed. He said that he had spared himself in the interests of the people and had a lovable and charitable character.

Continuing Mr Butler said: "He did everything and I know that I was an intimate friend of his in a most unassuming manner without leaving anyone know he was doing good and I sincerely hope that any sympathy which may extend to the family will be in some way their great gift."
Mr McGrath—Mr O'Meara and I were officials on the Council together for many years. He served the town for many years in the early period as Rate Collector and later as Town Clerk and I as Borough Surveyor was associated with him intimately for a long time and I must say that he was most helpful and helpful always and acted as if the business of the Urban Council was his own which is the best tribute I can pay him. He was always ready to help and advise those who came to him. Mr Veale associating himself with the vote said that Mr O'Meara and himself were intimate friends. He was a most competent public official and had a wide knowledge of local Government affairs especially the legal aspects of them and his advice on all matters was readily given and greatly appreciated. His death after such an exemplary life was a great loss.

Mr Kelly said that although Mr O'Meara had retired when he came to the Council he agreed with all the remarks passed and Chairman—I am more than sorry that Mr O'Meara has been called to his eternal rest but I am delighted to hear that all the members here pass expressions of tribute and it is a great thing that everything good can only be said. Mr O'Meara was a great friend of the Council and also of everyone else, and was a fine character. Whenever we wanted advice and guidance he always told us the right way to go and I am now sorry that we must record the death of one of the grandest men who ever lived in the town.

The Clerk on behalf of the County Manager and himself, associated himself with the expression of sympathy.
The former resolution as proposed by Mr Butler and seconded by Mr McGrath calling for the adjournment of the

HIDE PLAYING DEMONSTRATION
On last Tuesday evening, a very interesting demonstration on hide playing was given at the slaughterhouse of Messrs. Morrissey & Sons, Dungarvan, and was largely attended by a big number of local butchers and representatives of the Dickens Leather Co. The demonstration which consisted of the flaying of a sheep and a bullock, was given by Mr. William Fulham of the Elre Hide Improvement Society. The purpose of the demonstration was to show how best to skin slaughtered beasts so as to procure a hide which will be of best possible use to tanners.

Views Of Our Readers
(To The Editor),
GO COUNCIL OF WATERFORD
Re Transport Of Passengers Across Youghal Bridge
A Chas.—I am directed by the County Manager to send you herewith a copy of a letter dated 26th February which he has received from the General Manager, Coras Iompair Eireann, relative to the arrangements for the transport of omnibus passengers across Youghal Bridge.
The County Manager would be obliged if you would be good enough to publish a copy of the company's letter in your next issue for the information of your readers.—Le meas

Re Transport of Passengers Across Youghal Bridge
A Chas.—With reference to your letter (CS 183) of the 15th February I desire to say that since June 1946, arrangements have been made for the free conveyance by motor car of all passengers and their luggage across the Youghal Bridge to connect with the buses when terminate on each side of the Bridge and in the time schedule an adequate time allowance has been made for this service. No complaints have been received previously from passengers in connection with the matter and as a considerable number use this route regularly and avail of the facilities provided it is difficult to understand what there was any general unawareness of the free facilities provided by the Company to overcome the difficulty created by the Bridge not being safe to permit of the through passage of our buses.
For the benefit of those passengers who may not be aware of the transfer arrangements and to remove any misunderstanding which may have existed our Conductors have been instructed to inform passengers of the free facilities provided on arrival at the Bridge.—Miss le meas
(Sgd) F. LEMASS,
General Manager

WATERFORD HUNT POINT-TO-POINT
The popular Waterford Hunt Point-to-Point Meeting will be held this year on Thursday 27th March at the splendid course at Lisnakkil which provides a natural grand stand for the spectators and is a very safe course for horses to get around. This year further improvements have been made on the course notably the "big" double which has been remodelled. The stakes are highly attractive as the prize money for the four open races is to be £25 for each. The Hunt race will again be run over a special course in which riders have to pick their own line of country. Everything is being done to make this popular event give a greater success than ever and after such a severe winter it was never so welcome.

REDUCTION IN ALLOWANCES OF COAL
The Minister for Industry and Commerce announces that it is necessary to continue the reduction in allowances of coal (including anthracite) obtainable under permit during the month of March, 1947. Particulars are given in our advertising columns. An announcement of the arrangements for April and subsequent months will be made as soon as practicable.

LEMORE ITEMS
The death of Mr William Allen—The death occurred at Lismore District Hospital on Sunday 24th February 1947, of Mr William Allen, 2nd March of Mr Allen's residence, Allen Church Street, Lismore.
The sad event occurred after a comparatively brief illness and at an early age. He was a member of a very popular and highly respected local family and was a man of unimpeachable integrity and of many other very admirable qualities. His death evoked expressions of deepest regret throughout the whole district. Pugnancy was added by the fact that his wife had predeceased him by some years and his only child, who has his two young children parentless—R.I.P.

A very large and representative cortege accompanied the removal of the remains to St. Carthage's Church on Sunday evening. On Monday morning Requiem Mass was offered for the repose of his soul after which the interment took place in the presence of another large gathering of mourners and sympathisers.
Immediate chief mourners—Bernard and William Allen (sons), Tony and Frank Allen (brothers).
Death of Mr James Barry—The death took place rather suddenly at his residence in Connaught Road, Lismore, of Mr James Barry, deceased who was middle-aged had lived alone for many years. An industrious and progressive member of the community he was very popularly known over a wide area.
Some Consolation—Looking back on the weeks of snow which we have had since the 1st of January in many will be surprised to learn that there is actually warmth in snow and many instances are extant of people having been buried in snow for a considerable time and been restored to health. This may be difficult for non-scientific people to understand but is, nevertheless, a well ascertained fact and has been substantiated in several instances. It is a very interesting fact that snow on account of its floucculent nature conducts heat slowly and on that account does not absorb the heat of the body rapidly.

Many instances show that snow really protects substances from cold and farmers and gardeners are well aware of this and appreciate the value of a snow cover in the garden and fields (in winter-time of course). You will say that this principle cannot be applied to the human body but the fact is nevertheless equally undeniable. It is a very interesting fact that a severe snow-storm in the middle of 19th century a woman was overtaken by a snowstorm in the Donegal mountains. She was gradually snowed up and was at length unable to move and being a course of judicious treatment she was perfectly normal again and suffered no ill-effects.
Not so fortunate was the man who was buried in a snowdrift for eight days near Cambridge, England in the winter of 1799. Without food he managed to survive until he was found and rescued but died six months later as a result of the management of frost-bitten legs.

A local instance (but of the dubhairt bhean lóm go ndubhairt bhean leí) is that of a woman named Foley who lived in Ballyduff and who exacted Knockadaw late in the first-half of the last century. She had been visiting a spinster neighbour and while returning home at a snowstorm she sought shelter under a Hawthorn bush but the snow gradually filled up around her and she was imprisoned. The movement of the wings on the bush which she was allowed a plentiful supply of air, however. The following day the woman was reported missing and after three days of searching the worst was feared for the life of the woman whom she had been to visit had a dream and in the dream she saw the missing woman lying under the bush. The neighbours roused by her narration sallied forth and probed with sticks around the place indicated by the dreamer. One of them thought he heard a groan and thrust again in the same spot and heard a voice cry out—"O in alm De don't kill me!" and to the astonishment of all she was taken out alive. She asserted that she had felt very warm and had slept peacefully until the snow was completely covered with snow and was consequently frost-bitten.
My informant tells me that he heard the story from his father who remembered the event from his childhood.

QUESTION TIME
By
DR WILLIAM MAGUIRE,
M.A., B.L.
1. What British monarch suggested that for the sake of economy the coronation should be dispensed with?
2. Why is the Kreutzer Sonata so named?
3. What were the first books (with dates) published by the following Authors (a) H. G. Wells (b) William Wordsworth (c) John Galsworthy (d) Robert Louis Stevenson
4. (a) Who were the first explorers to cross the Australian continent from south to north?
(b) When?
5. When last was the immediate heir to the throne of England a Princess?
6. What is the origin of the naval custom of saluting the quarter-deck?

COMPULSORY WHEAT GROWING
The Department of Agriculture has recently received a number of applications for the inspection of their land from occupiers who wish to ascertain the Department's opinion as to the suitability of such land for wheat growing. The Minister for Agriculture wishes to point out that when he recently announced certain concessions in regard to the growing of wheat on unsuitable land he did not contemplate a general re-inspection of holdings in this connection nor does he consider such procedure either practicable or desirable. The Tillage Order imposes no restriction on the Department to inspect lands and the onus of proof that his land is unsuitable for wheat growing lies on each occupier. An occupier who is not relieved of the obligation to grow wheat simply by the fact that he makes an application for inspection of his holding or asks to be excused from growing wheat because he himself thinks his land may not be suitable. Least therefore there should be any misunderstanding the Minister feels constrained in present circumstances to warn occupiers of lands which are subject to the Tillage Order that if it should be found as the season advances that the wheat quota could be complied with but that in fact no reasonable effort is being made to comply he will have no hesitation in taking possession of the lands and arranging for the necessary cropping to be done. Neither will he have any hesitation in proceeding with such occupiers and asking for the imposition of severe penalties. The Minister considers that it is the duty of every occupier of land to grow the largest possible area of wheat without applying for inspection of his land or in any way seeking to avoid doing his share to produce bread for the people in this time of urgent national need.

DAIL QUESTIONS

The following questions were addressed to the various Ministers by Mr. Denis Huskin TD in the Dail:

Question—Asked the Minister for Industry and Commerce if he will state why coal permits to blacksmiths have been cancelled at the present time when much heavy work for those in the repair of farm implements and horse shoeing and if he will restore such permits at once so as to enable spring work on the land to be expedited particularly as this work is now much in arrears owing to bad weather.

Reply—The Deputy is misinformed. Following the recent stoppage of coal imports the cancellation of all current permits authorising the purchase of coal was effected as a necessary part of the arrangements made to conserve the available stocks of this fuel for those in the services essential to the life of the community. Permits held by blacksmiths were however revaluated for the current month and licences for merchants were so informed by circular letter on 15th instant. Arrangements for March and succeeding months will be governed by the supply position and will be announced in due course.

Question—Asked the Minister for Agriculture if he will state when manures will be available in exchange for wheat vouchers and also if you are not accepted in exchange for manures for more than one year's issue of such vouchers.

Reply—It is intended to issue next autumn in exchange for fertilizer credit vouchers held in respect of the 1943 wheat crop vouchers which will be exchangeable for artificial fertilizers in the 1947-48 season. Fertilizer credits in respect of wheat grown in 1944 or subsequent years will not be cashable in the 1947-48 season.

Question—Asked the Minister for Defence if he will state the number of military trucks not required by the Defence Forces if he will arrange to have such trucks placed at the disposal of local authorities who are engaged in the production of turf, or in whose areas turf is being produced so as to enable them to provide shelter at bogs for their employees and also at the disposal of private producers who are carrying out such work and who so engaged are exposed to all weathers.

Reply—There are at present 46 sectional timber vans of the standard type which are not now required by the Defence Forces but which may be offered to other Government Departments before they can be regarded as surplus to requirements. Those not required by other Departments will be sold to those Local Authorities or State Sponsored Concerns who apply for them. The balance will then be offered for sale on a competitive basis to the public generally.

Question—Asked the Minister for Industry and Commerce if in view of the amount of moisture in turf arising to a great extent from the system of sale by weight he will consider requiring turf to be sold by measure thereby discouraging hasty harvesting of turf fuel.

Reply—I refer the Deputy to my reply on the 9th May 1944 to a similar question then asked.

Question—To ask the Minister for Industry and Commerce if he will grant an increased bread ration for children attending school who are sent home to their mid-day meal and to children living more than half a mile away from the school they are attending.

Reply—Additional allowances of bread are being given to a number of schools providing meals to the children. I am prepared to consider applications for similar allowances from other schools but I do not intend to undertake to consider individual cases of the kind referred to by the Deputy.

Question—Asked the Minister for Agriculture if he will state the quantities of butter exported in the years 1944 1945 and 1946 and also the amount sent to Europe by way of gift during the same period.

Reply—Exports in 1944 amounted to 27 tons of butter and in 1945 to 1,000 tons. There were no exports of butter in 1946. The whole of the 1945 export was sent by way of gift for the relief of distress in Europe.

Question—Asked the Minister for Agriculture how many applications for imported seed wheat oats and barley were received by his Department from farmers in the season 1945-46 and how many applications were allocated imported seed and in what quantities.

Reply—During the 1945-46 season 330 tons of seed wheat, 15 1/2 tons of seed oats and one ton of seed barley were imported. The subsequent allocation of the wheat and oats was made by the importing firms without reference to my Department.

Question—During the question 26 applications were received from farmers for licences to import seed wheat. Licences were granted in respect of approx-

imately 74 barrels of seed to three farmers whose suppliers in Great Britain were in a position to secure export licences. Licences for the importation of seed oats were granted in all cases in which the suppliers in Great Britain succeeded in obtaining export licences from the British Authorities. Twenty-six import licences were granted to farmers in respect of 265 cwt. of seed oats of which only 60 cwt. were actually imported. No applications were received for licences to import seed barley. Twenty cwt. of barley were imported for experimental purposes.

Question—Asked the Minister for Agriculture if his Department has taken steps to import any quantities of seed wheat, oats and barley this season and if so with what results.

Reply—It has not been found possible to arrange for importation of seed wheat with the exception of a relatively small quantity of the variety 'Progress' from Sweden. Portions of these imports will be reserved for propagation purposes and the balance will be distributed to the seed trade.

Question—The authorities have agreed to authorise the export to this country from Scotland of a limited quantity of seed oats and arrangements are being made for its importation. Apart from a small quantity required for experimental purposes it has not been found possible to arrange for the importation of seed barley.

ECHOES FROM YOUGHAL

Irish Ex-Servicemen Youghal

A largely attended meeting of Irish Ex-Servicemen was held in Youghal during the week for the purpose of forming a branch of the National Federation of Irish Ex-Servicemen. The chief object of the meeting was to see that Irish ex-servicemen got their fair share of any work that was going and in this connection some members presented a recent appointment card for a caretaker at the Youghal Vocational Schools who did not happen to have been one of their members notwithstanding the fact that different Government Departments issued appeals to the effect that ex-servicemen should get preference in all such cases. Several ex-servicemen did actually apply for the position when the notice inviting applications was placed in the paper. The following officers and committee were appointed: Chairman—Capt Sean Butler; Vice-Chairman—Lieut. Dooley; Hon. Treasurer—Mr. J. J. O'Connell; Hon. Secretary—Mr. W. M. Dowling; Committee—Messrs P. Ring, J. Kelleher, T. O'Brien and D. Coakley. After the formation of the Committee it was unanimously agreed that the Department of Defence and Education would be communicated with and all the facts of the appointment above referred to placed before both Ministers. The Committee made it quite clear that they had nothing against the person appointed but that they believed that one of their members should get first preference.

The Dying Soldier

Mother Ireland I have loved thee
With a love that knew not fear
I have drawn the sword to free thee
At the flowering of the year
But a hand was raised to smite me
As I stopped to kiss thy brow
And the arm that would have
By my side hangs helpless now
I have lived and loved and laboured
With a patriot's heart and will
That the dawning years might find thee
Fearless and unfettered still
I am vanquished and my comrades
In the glorious fight have bled
And the dauntless hearts that loved thee
Rest among the silent dead
They are gone and I must follow
To the golden fields above
Where the mighty God of Justice
Shall reward a patriot's love
Sweet it were to live and love thee
Sweeter far for thee to die
With the flower-clad hills
around me
Echoing back my last goodbye
(Dedicated to Padraig Pearse
It will be sung by the Claisceadaid Choir in the Broadcast
Institute Waterford on Thursday
March 13th at 7 p.m.)

Our Small Adds Bring BIG RESULTS

Tallow & Moorehill Notes

'The West's Awake'—The announcement of the return of Tallow to the Gaelic world has been welcomed all over the Devles, and from all sides a hearty welcome has been extended to them. For the past 5 years the name of Tallow has been a household word in Gaelic activities, and over twenty years ago they brought the first junior hurling County Championship to the Brideside town which latter feat they repeated in 1930. Older Gaels will remember that when Waterford won the 1931 Junior All-Ireland Championship the Tallow Club as champions were the selectors in the years that passed since then the wearers of the Blue and Gold have taken a prominent part in the various championship and their battle royals with Erin's Own and Mount Zion in county finals, are classes all Gaels will forever remember as outstanding ones.

Members of the Tallow Club have been ever to the fore in the county representation where they have worthily upheld the honour of their native county on many a hard-fought field. It is certainly a source of pride to the future of hurling in Waterford to see the old club again up and doing for the honour of the Brideside town and its club colours of Blue and Gold. It is hoped in the near future to start a junior hurling tournament for a very valuable set of medals which should provide all Gaelic supporters with a commencement of the championships.

Tallow Athletic Club—The members of the Tallow Athletic Club are leaving no stone unturned to make the Athletic Club one of the best in the county and already many plans are being perfected for the holding of a number of sporting events during the season. Athletics will be pleased to learn that a cross-country race will be held towards the end of the month. Full particulars of which will be in the future issues of the paper and for which a record number of entries is anticipated. A drawing of prizes in aid of the club will be held on March 23rd and an appeal is made to all supporters.

Residential and Farming Property Sold—On February 20th last Messrs John Condon and Geraldine Auctioneers, Youghal, offered for sale the residence and farm known as 'Woodview' Curraglass Tallow for Mrs. James Kelleher. The holding comprises slated villa residence of 38 acres of land, which includes walled-in garden and outbuildings. There was rather keen competition until the figure of £700 was reached, which was the highest offer and the auctioneer announced that the property had not been reached and that private offers would be considered. Eventually it was announced that the property was sold to Mr. C. McQuinn of Curraglass Tallow at £800.

Cattle, horses, farming implements, farm produce and household furniture were then offered for sale and remunerative prices realised for same. Messrs J. Hodnett and Son, Solicitors had carriage of sale.

Attractive Programmes—As can be seen from the advert in this issue a very attractive programme will be presented at the Regal Cinema Tallow during the coming week. On Sunday 'The Scarlet Claw' featuring that great actor Basil Rathbone will be shown on Monday and Tuesday nights. On Wednesday night 'The Velvet Foot' featuring Mickey Rooney and Jackie Jenkins will be screened. This is a picture that should be seen by all patrons it has been acclaimed in America as one of the best pictures of 1946. On Thursday and Friday nights Charles Boyer will be seen in 'Cluney Brown'. This is another grand and amusing picture and will prove tip-top entertainment for all picture-goers.

Fine Sport At Ballynoe—The officials and committee of the Ballynoe Point-to-Point Races which were held on February 26th are to be congratulated on their very successful meet and on the favourable weather which attracted a large crowd. The well-known Tallow owner Mr. John Condon followed up his Lismore success when his horse 'Gondolier' ably piloted by Mr. F. McCarthy won the Open Farmers Race by four lengths from Mr. Barry's 'Joe Soap'. Mr. Condon's other horse 'Call' being third. His many friends heartily congratulate Mr. Condon on his success. The popular Cork rider Mr. H. Scannell who rode two winners at Lismore, carried over his success to his outstanding jockeyship at Ballynoe where he rode three winners—'The Open Lightweight' with his own horse 'Hottonea', 'The Open Maiden' with Mr. T. Russell's 'Round Drowed' and the Confined Farmers' Race with Mr. J. Flynn's 'Brown Crust'. The Open Heavyweight Race was won by Dr. J. T. Barry's 'Peter's Lace' ridden by Mr. D. Barry.

Link With The Past—On last Wednesday March 6th we celebrated the 80th anniversary of the Fenian Rising of 1867. Over the week-end the writer had the pleasure of meeting an old Fenian in his nineties. He was a boy of ten at the time he vividly and clearly (despite his years) recalls the night snow, rain and storm that fell from all over the country, young men and old went unfortunately for the most part they had no arms, but they did their part.

It failed. I said to this old Fenian. He looked at me and said 'Young man' he said 'I never say that again. It did not fail for though we were outnumbered and beaten the Irish spirit remained unbroken. It was rekindled in Easter Week and I can now enjoy the fruits of the seed sown in dark '67. Thank God I have lived to see the day when over Dublin Castle floats the Irish Tricolour. I can now be happy and tell the younger generation

—lest they forget—that the Rising of 1867 was not a failure. I reluctantly bade him goodbye and as he went he held in the highest esteem by all who had the pleasure of knowing him. Of a quiet genial and retiring disposition the late Mr. Barry made numberless friends who one of all now regret his passing. To his dear relatives deep sympathy is extended in their great sorrow.

On Wednesday the remains were removed to St. Catherine's Church and were accompanied by a large and representative cortege. Fr. O'Donnell, C.C. met the remains at the church gates. On Thursday morning Requiem Masses were offered up for the happy repose of his soul and in the afternoon the funeral took place to Clonmult cemetery where interment took place in the family burial plot. The deceased was aged 75 very large and bore ample testimony to the respect and esteem in which he was held. Rev. Fr. O'Donnell C.C. officiated.

We noticed a Bridesider sporting two Colleenas from Sweet Ballyduff at the Regal on Sunday night—now any night two Colleenas are a bit of a handful—but apart from that—black eyes aren't nice—so look out.

So one of the local Colleenas was playing gooseberry the other night—but we wonder did 'Dad' believe her we wouldn't—and anyway 'gooseberries' are out of season.

OUR WATERFORD LETTER

Broadcast by Claisceadaid Choir On March 13th at 7 p.m. There will be a Radio Eireann Broadcast of Irish songs and ballads by our Claisceadaid Choir from the Central Technical Institute on Thursday March 13th at 7 p.m. The Claisceadaid Choir includes eight beautiful choral items. I have listened to a rehearsal of the programme and I think that listeners-in on the 13th inst will be thrilled with the singing of these Irish melodies. What I like most about the Claisceadaid Choir is the freshness and variety of the programme. The singers are making great progress under the capable tuition of Mr. Sean O'Hobain who will be the conductor in the forthcoming broadcast. The piano accompaniments will be played by a talented musician Miss A. Twomey.

'Treasa Na dTonnta'—By special arrangement the last Claisceadaid Broadcast on November 20th 1946, there were congratulatory messages to the sturtheoir from many parts of Ireland with requests for the Claisceadaid Choir to sing several songs 'Treasa Na dTonnta' appeared to be a first favourite as a number of Gaels wrote for the music and the words of that lovely song. Kilmallick N.S. Aran Islands. The song has been included in the Clar for the next broadcast by special request from Donegal, Galway and Aran Islands.

The Dying Soldier—The Dying Soldier is the title of another song that will be broadcast by the Claisceadaid Choir on the 13th inst. There is a wonderful death of feeling in that splendid ballad. It is dedicated to Padraig Pearse by the author An tAthair Mac Thomais and as sung to that haunting air 'She Laid' inside the inner word are published in this issue of the LEADER. Listeners-in should keep them and note the excellent manner in which the Claisceadaid Choir will render the song doing full justice to the sentiments expressed in the theme.

Blocks that are Badly Needed—As the result of a conference convened by the Mayor, County Officer Coffey with the City Fuel Merchants on the 26th inst. arrangements were made for the felling of a number of trees for use in the vicinity of the city last week. A number of men were engaged as a result cutting down trees at Maypark. The logs have been converted into blocks. The fire wood is being used by the Council and allowed a half cwt. of blocks per week. It will be a boon to the people who have been in a bad way for the past few weeks trying to get turf. I am informed that the turf that was selling recently was under the rain for the past three years.

Revival of the St. Patrick's Day Procession—St. Patrick's Day 1947 will be like a day of mourning as we have experienced in Waterford for the past six years with no public procession in honour of our Patron Saint. The National Festival will be fittingly celebrated this year by the holding of a procession on March 17th. This was the decision of a meeting of Muintir Na Tíre held in the City Hall on the 28th ult. when the Mayor, Councillor McInerney proposed and was seconded that a procession consisting of the City bands, schools, G.A.A. clubs, public bodies, etc. be held on St. Patrick's Day. A meeting of the organising committee will be held in the City Hall on Tuesday March 4th at 8 p.m.

Lecture by Captain H. Freyne on 'Sea Shanties'—In the untimely absence of the Venerable Archdeacon Kelleher, P.P. S.T.L.V.F. (chairman Vocational Education Committee) Mr. T. D. Connolly P.C. presided at the lecture on Sea Shanties delivered in the Central Technical Institute on Thursday February 27th by Captain H. Freyne, FRAS, Royal Dublin Society Lecturer. The lecture was most interesting and entertaining and was listened to by a very large representation and appreciative audience. A vote of thanks to the lecturer was passed with acclamation on the proposition by Mr. J. J. O'Connell, P.C., seconded by Alderman Maurice Browne. The lecture was illustrated with Lantern Slides.

day Show in September 1947. Spacious grounds for the purpose have been secured for the purpose at Christendom in the vicinity of the city. An ambitious programme of events is being drawn up for the occasion and many promises of support have been given by leading business people and prominent farmers in the County. Mr. Arthur G. Doyle Auctioneer and Valuer has been appointed as Organising Secretary and Mr. F. Halley T.C., Chartered Accountant and Hon. Treasurer. Judging by the enthusiasm shown by the members of the Organising Committee the project should prove to be a great success.

ST. PATRICK (Specially written for the 'Dungarvan Leader' by The Herbal Doctor)

I dedicate this poem to the Patron Saint of our beloved land whom all Irishmen and women the world over honour and respect on the 17th March

St. Patrick for our country pray
Our ever faithful land
Whose martyred hosts so gloriously stand
Before God's Great Throne
Look down upon thy children here
Four forth a blessing on our race
And bless, dear Saint this little Isle
As well as each one's native place
Oh! hear us Patrick while we pray
Thou art our own dear saint
Uphold the weak protect the young
Give strength to souls that are faint
You know how we are tempted still
And so often we are tried
Still we are faithful each and all
No matter what badills be-tide

AT STUD The Best of a Record-Breaking Litter "COOLAGH GIFT"

(Bk Dog 7 lbs. 28" 1941) By Reigning Gentle-Whirlaround

As a Puppy won Trial Stake and All-Age beating the £2,000 'Monarch' of The Glen in final installed favourite for the Derby at Clonmel but was unable to compete as he pulled a muscle a few days previously. During a short career on the Irish Tracks he won numerous races at Tralee, Cork, Clonmel and Shelbourne where he did 30/4 first time.

Sold for a big price and during 3 years raced in Glasgow and Plymouth won over £2,000 in prize-money and held records over five distances beaking his own record for 740 yards three times. At Plymouth Stadium he won seven open races in eight outings.

This outstanding dog will be let to approved bitches (Vets Certificate required)

FEE—12 Gns.

IMPORTATION OF SEED OATS FROM SCOTLAND

The Minister for Agriculture wishes to announce that arrangements are being made to import from Scotland a limited quantity of commercial seed oats of the Potato and Victory types. In order to secure as uniform distribution as possible of these oats the Minister has decided that importation of the total quantity made available shall be undertaken by Messrs Pedigree Seed Growers Limited, 151, Thomas Street, Dublin. Portions of the imports will be reserved for distribution in the Congested Districts under a special scheme operated by the Department of Agriculture and the balance will be distributed by the importing Company to seed merchants throughout the country in proportion to the acreage of oats grown in each County in 1946. County Committees of Agriculture are accordingly being requested to nominate a limited number of seed merchants who will handle the allocations made to each county.

Revival of the Waterford Agricultural Show—After a lapse of many years the Waterford Agricultural Show is to be revived. The local 'Gull' of the Waterford Tire has decided to hold a one-
