Extremists?

CERJEANT A M. SULLIVAN, KC, is an able lawyer and writer He is in no way associated with Clann na Poblachta, he resides in England. He cannot be described as an extremist, a Communist or a Fascist In a letter published recently in the Irish Independent he issued a solemn warning which deserves the closest atten tion of all who are interested in Ireland's future Clann na Poblachta reproduces this letter hereunder-read it

Sir-Do the Irish People appreciate that they are ceasing to own Ireland and that their country is being sold piecemeal to foreigners for scraps of paper?

There have fled from Britain a host of undesirable profiteers Their mass of money cost them nothing and they are helping to make it worth nothing They are allowed to exchange it for the real assets that are the essential resources of the Irish people who seem to be dazzled by the fabulous amount of paper given in substitution

These fellows will never become Irish They will never inter-marry with the native race they will recreate an alien colony whose allegiance is elsewhere and they will rule the Irish by their economic inevitably leading to political control

Already they have created this absurd anomaly Eire is a creditor country with assets and income far exceeding liabilities Britain is an insolvent debtor country yet in their flight from sterling the profiteers have been allowed to inflate and depreciate in Eire the currency that is unfortunately fastened to that of Britain where the Government protect the people against inflation

None but descendants of the nature race should be allowed to own native land or exercise political rights in any country An indigestible foreign colony is a perpetual danger if its members are put upon equal terms with the natives

The Irish people should be rescued and A M SULLIVAN
