Mrs K, Newrath, writes —
"I have a cow that had 2 calves, on the eighth day after calving I had no hopes of her living, she was lying stretched out dying with her head on the ground I was recommended Curud and gave her three doses, when she was up looking for food and regaining strength. After a couple of days the was giving 9 pints of milk and tooking for her calves. I can truly say Curud brought a dead cow to life."

Views Of Our Readers To the Editor

Dear Sir-Will you kindly give me space in your valuable paper the following —

I have been approached by several Licensed Traders (Publicans), town and country, sugcans), town and country, suggesting that a meeting of Traders should be called at an early date with the view to placing before the Candidates for the forthcoming General Election the serious plight of the trade as a result of the recent Budget imposition of taxes on Stout Tobacco etc

It is felt that some drastic demonstrations must be made to bring home to the Powers that Be that these Taxes have caused

Be that these Taxes have caused widespread discontent and unrest not alone in the trade, but also amongst the workers who can ill afford to have their pint of beer and their plug of tobacco made so cruelly prohibitive

I accordingly agree to arrange for a Public Meeting to be called at an early date to discuss ways and means of meeting the situation Personally I am situation Personally I am largely interested in the matter and suggest that all Publicans and Tobacconists who are interested send me a Post Card approving of such a meeting when I shall be pleased to notify a date for same

At such a meeting we should invite \_ representatives of the various Parties of the Waterford Constituency
Yours truly

posal to erect public baths at a cost of £30 000 was agreed to and it was decided to leave over for future consideration the construction of a swimming pool. To meet the acute local housing problem the architect was asked to report on the feasibility of erecting 'dual-purpose' houses with accommodation for supply the retailers if there was the milk at 2/6 per gallon which they cannot be said of steel. As there is a general election in the officieng perhaps the time chosen by the correction of a swimming pool in the construction of places looking for milk at a few pence a gallon cheaper to deputation has been most appropriate there are nearly 100 gallons per action in the construction of places looking for milk at a few pence a gallon cheaper to deputation has been most appropriate the cork Co Council to send the cork of prices.
