"The Gold Bug

NCLUDED in Edgar Allan Poe's Tales of Mystery and Imagination is "The Gold Bug a remarkable story describing a search for hidden treasure and its eventual discovery. An entomologist living with a negro servant on a lonely island in South Carolina finds an unknown beetle—as brilliant and as heavy indirectly this insect leads to the discovery of a vast treasure buried on the South Atlantic coast by the famous Captain Kidd The story, written in the early nineteenth century with its amazing deductions from abstruse cryptographs is a forerunner of all that is best in modern scientific detective fiction
