Road Fund Grants

The Secretary stated that the Council had not yet been officially advised as to the amount of grants available for this years scheme

Mr O'Ryan said that it was an extraordinary thing that the Department were so slow in advising the Local Authorities of such grants

The Manager said the Council could act on the assumption that the grants would be the same as last year

Mr O'Ryan—What were they?

IRISH COURSING CLUB'S STATEMENT

The Greyhound Breeding Industry is one of National importance. It directly concerns the breeders of greyhounds who are mainly farmers and workers. It indirectly benefits all the people by bringing in over one milion per annum for exports, with no outlay on the purchase of foreign raw materials machinery etc as in practically all other industries.

Exports are of vital importance to the na ion and the people. The adverse balance of trade in the first nine months of 1947 was £64 593 210. No country could remain solvent for long under such an excessive burden The Minister for Industry and Commerce has stated that the position is very grave and notwithstanding this an export industry is threatened with extinction Examine the official trade returns as from 1st January to 30th September 1947

Total Imports 26 104 610 Adverse balance of trade £64 593 210 Principal Exports Live Stock Cattle Horses of ALL BREEDS 9 620 390

Less amount of imports 2 095 287 Net amount of exports Greyhounds exported 849 394

The figure for greyhounds does not include greyhounds accompanied by the owner or pur-

sale so that the official figure does not represent our actual export trade. One million pounds is considered as a conservative figure for Eire alone and if the North were included the export trade figures would be considerably more The recent restrictions on Greyhound Racing in Great Britain has very adversely affected the export trade Under normal conditions the export value of our stock would be much higher It can be fairly assumed that if the horses of all other breeds exported were separated from bloodstock the actual revenue from thoroughbreds would not be much more than greyhounds That being so may not those concerned with the industry and the sport with good reason ask for fair consideration and a square deal for the people they represent The Irish Coursing Club has established a great national sport and also a great interpretable reputation. Its members are of all shades of political orbits of within

chasers (our most valuable stock) or greynounds brought over the Border to race or for

national reputation. Its members are of all shades of political opinion and religion within the four seas of Ireland. It has never asked for subsidies or grants. It has not cost one penny to the ratepayers or taxpayers of Ireland. It is an example of what self help and combined effort and enterprise can accomplish. That it makes bureaucratic boards or government controls appear failures by comparision is its sole offence On several occasions during the past fifteen years deputations appointed by the Irish Coursing Club have interviewed Ministers of the Government and requested their co-

operation in the following matters -The Preservation of Hares Similar facilities for the protection of hares to those given to the preservation of Feathered Game That the Protection of Hares Order (Game Preservation Act 1930) be put into operation in the vicinity of Coursing Clubs Preserves
Reasonably Safe Transport Facilities for greyhounds and facilities to owners travelling with

All requests were refused although members of the Government and supporters of the Government and supporters of the Party were members of the Standing Committee and on several deputations Several appeals were made to remove the Entertainment Tax and grant a licence for the Totalisator on similar lines to horse racing (which does not debar Bookmakers from betting), so that the profits arising would be available for the sole benefit of owners and the grey-hound breeding industry. The answer to the more recent appeals was to increase the Enter-

tainment Tax 100 per cent in 1947 and to the last and final appeals was to increase in 1948 making the Tax so extortionate as to practically make it impossible for the sport to be carried on.

The following shows the increased Entertainment Tax —

HIDDEN TREASURE-9

The EGYPT Gold

HEP & O Liner Egypt carry ng gold bullion was sunk off Ushant in 1922 The underwriters who had paid the heavy insurance called in an Italian Salvage Company and commissioned them to recover the gold lt was no mall undertaking to reach this treasure. The liner was lying in over 400 feet of water and there were exceptionally strong currents. However the Company sent expert divers and these using specially invented gear using infinite patience and suffering every possible disappointment eventually cut right through to the ship's specie room. They recovered over a million pounds in gold between 1930 and 1938
