Estimated Cost of Agricultural Schemes

Mr Connolly Department In-spector, who was present at this months meeting of the Committee to submit details and estimated cost of Agricultural Scheme 1950-51 (Finance) said that he wished to thank the members for facilitating him by putting back the meeting to Thursday instead of Saturday
Reading out the detailed list
of schemes etc. he stated that

their income for the year was £16,391 (£8,126 out of rates £6 602 from Department of Agriculture and £3,663 out of balance £13 453 which left them with a Mrs Condon O'Connell Street credit of £2.923-Mr. O'Ryan proposed they issue

Walsh A vote of thanks was also ex-tended to Mr Connolly for the excellent manner in which the scheme was explained to them and the fine manner in which it was presented
Mr Connolly in returning

the estimated scheme was seconded by Mr

thanks stated that no committee was giving the ratepayers such outstanding satisfaction as was being given by this Committee as every penny was being spent wisely and they were get-ting an excellent return for it most important in the county Correspondence

A letter from Mrs Clinch Thornicroft complaining about the destruction being done to fowl was read and it was stated that there was nothing the Committee could do about it
A letter from the Department

You Know Yourself?

Written for the LEADER by the Herbal Specially DUNGARVAN the Doctor The proper study of mankind is man! Then assuredly the

first step in such a study would be to study oneself. Then the first study would be to obtain some little knowledge of the most marvellous piece of mechanism in the world the body nature has given us to keep and most of us do know about our-selves in this direction Doctors of course make a lifelong study of it and are always finding more to learn but those who are THE PIRAL

Technicolour
With Gladys Cooper, Reginald
Owen
Songs by Cole Porter in the biggest spectacular musical in lignorant of its working, and this lignorance is not confined to the lignorance is not confin Thurs Fri, Oct 13th and 14th at 8.30 pm
Paul Kelly De Forest Kelley in Kelly De Forest Kelley De Forest Kelley in Kelly De Forest Kelley De Forest an illness or even save a life

You then should study your self and learn something about yourself for your own personal interest Remember the proverb that at 40 a man is either a fool or physician!" To this end I propose in as brief a compass as possible and the simplest way to keep it in good order So to some athletes make the top in make a start I will give my spite of and not because of ex-

£ 10 REWARD which circulates in every part of the body within the blood vessels who made the top and are now and which is a vivid scarlet in the arteries and a dark purple in the veins but what is its use? What does it do? It has only one function but it is an important one It is the medium of exchange between all other tisexchange between all other tissues and organs. It is the current coin of the system it's competing athlete Do YOU liquid currency It circulates like money It fetches and carries money It fetches and carries
It carries ozygen from the lungs,
which you breathe in from the
air to the other parts of the
body, and in doing so it changes
colour losing its scarlet and accolour losing its scarlet and acThen

Smoking is a leak and is narmful to the athlete who needs
wind stamina and every ounce
of his pep and energy Take good
advice then and if you are an
athlete who wishes to excel, re quiring its purple hue Then back again it goes to the lungs for another supply of oxygen That is one function Its other

poverished state of the blood Hampily it is easy to achiev You can get back on the "gold standard again instead of having your pound of blood worth only fifteen shillings

didates should procure a copy of Glanville Eagle Hill John another and then thirdly rethese regulations before sending Walsh Tinalira Jimmie Contine their applications Walsh Tinalira Jimmie Contine that exists in the little red cells

Besides being too watery the blood may suffer from impurities diet may not contain the nec-Candidates must attend at the County Hospital Waterford for examination and interview at 11 o c'ock (a m) on Wednesday the 26th October 1949 anane James Tobin-Croughna- To relieve this you need an alter-To relieve this you need an alteration of the diet Less ric food more fruit and vegetables Care your health it is one of the greatest of God's gifts

T. NOTES

The Smoking Question Last week I told you what W McCormick a famous MD said about smoking In a few words he told how smoking not only fails to produce the blood nature has given us to keep and sugar which the body needs but care for it is strange how little it also quickly uses up the quantity in this direction. Doctors tity of blood sugar the body has already stored away This causes weakness and even collapse I am sure that it is not yet quite clear to you so here's a finer ex-

When a muscle contracts it uses fuel in the form of glucose or sugar This is combined with oxygen and the combination produces energy heat and waste

matter The athlete needing stamina requires a great amount of fuel Smoking helps to use up this fuel and so although he may not be aware of it the athlete who smokes is depriving himself of much needed energy

One of the chief causes for the increase in smoking amongst athletes is the fact that some of our champions (mostly professionals) have allowed the use of their names for of cigarettes some athletes make the top in readers a hint on one organ and begin with the blood (though this is a fluid rather than an organ)

You all know the vital fluid excess while training

excess while training ducive to the best results in the competing athlete Do YOU doubt the medical profession?
Smoking is a leak and IS harmful to the athlete who needs fiain from smoking Next week I will answer a com-

mon little question Tobacco Shorten Lives?
