Young Farmers' Clubs — Reports to hand on the working of the Young Farmers' Clubs in the county indicate that the books supplied have been much appreciated and in one case certain books on pig-breeding and poul-try science were in such demand that they are being retained for another season in order that every member of the Club may have an opportunity of studying

On Irish farming life, conditions and problems very few books have been written Let us hope that in due course, some members of the Young Farmers Clubs having overcome their initial shyness in the matter of reading agricultural books will go one step further and grasping a brand new Biro in their plough-hand will furrow virgin sheets of paper with their com-ments observations, remini-scences plans and future hopes and ambitions

Step Up That Circulation !-At the request of some readers I should like this week to talk about the blood circulation its purposes how it becomes in-efficient and how you can restore it to its proper efficiency again In physical training the first exercises to be undertaken are respiration exercises that is exercises to give proper breathing and increase the respiratory

system but this I will deal with at a future date
The heart is as you should all Libraries Committee

RESUME OF 18th ANNUAL REPORT

RESUME Taken ANNUAL REPORT

RESUME OF 18th AN

You know now that to maintain the circulation the first thing is to justify the bloodpressure There are three fac-

tors concerned in maintaining the blood pressure viz (1) The pumping power and frequency of the heart beat The Elasticity Of The Walls Of The Arteries

When the heart pumps a spurt of blood into the artery it expands Like clastic however it rebounds again thus pushing the blood onwards in the artery 3. The Peripheral neological That is the Total Resistance Set up by the Walls of the Blood Vessels The Peripheral Resistance From the heart to the smallest
