The meeting was rather long as some of the lads were in no the following is what I find the following is w meeting was rather long as some of the lads were in no hurry taking out the tents

Most of the Patrol Meetings ast Sunday were outdoor due to the fine weather One PL told his patrol to go down to the strand and that he d soon bo after them but they were wait ing a time according to Dabo Brenny and Bruce

The Worf Patrol is in a funny position lately having only three members Of course Micileen keeps them well under contro but that wouldn't be hard Thotents for camp have been ordered and it was suggested by one chap that the old members of the Wolf Patrol should join that patrol in camp I wonder does Micileen think it a good idea like Gerry and Paddy

great athlete This can be easily proved if we go back 20 or 30 years to the days when weights were lifted by the professional st.ong men These men lifted astonishing weights through sheer scrength and though they themselves weighed as much as 19 stone body weight only very few succeeded in putling his own weight overhead What is the case today?

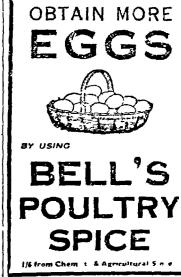

From a body-weight of nine stone onwards weightlifters all over are jerking over-To support the old walls now head well over then own body-dismant ed and bare weight and an amazing number have succeeded in jerking twice their weight overhead present day World champion John Davis has jerked well over 400 lbs overhead a feat never performed by any old time proing has been turned scientific sport to be indulged in by any man with an athletic

There are 52 different lifts and These are the three lifes which will probably be used in Dublin next November to decide the National Championships The first thing to be learned by any ifter is how to handle a weight that is the proper gip and posi-tion of the body. The import ance of this can be when you understand that the whole body must be brought into play in the lifting of any weight from the ground

When the proper position and grip has been mastered the next step is to learn how to ' clean a weight To clean' a weight you lift it from the ground on to your chest In the olden times strong men just bent down grip bends his kness over the har
