Dungarvan U.D.C.
Mr. Casey Replies To Anonymous Letter Writer
£4,000 Loan Approved For House Repairs
Every Precautions In Berthing Beats Must Be Taken

The usual fortnightly meeting of the Dungarvan U.D.C. held at the Town Hall on last Friday night lasted over three hours. Mr. T. Lamen, Chairman presided and Messrs P. A. Casey, M. J. Keane, T. McCarthy, P. O'Dwyer, N. Kelly, Senator Butler, T. Lee and later Mr. T. Kynne, T.D. were present. Messrs S. J. Moynihan, Co. Manager J. Ormond, Chief Assistant Engineer and E. Deery Town Clerk were in attendance.

Mr. Casey's Reply To Letter In The Press
 Mr. Casey said that some time ago a letter appeared in the local Press in which two members of the Council Mr. O'Dwyer and himself had been attacked and the writer had asked them to appear in public to defend themselves. Mr. O'Dwyer had been called a hangar-on and Mr. Casey said that he had been called a big-wig and a rich industrialist.

Mr. Casey said that he was not twice as big an industrialist and that instead of having two factories I haven't four because if I had I could give employment to all those chaps who ask me for jobs and believe me some of them especially those with families have a really bad time. I would take them all off the humiliating blue book and give them well-paid employment and it is my hope that some day we will be able to boast that we have no unemployment in our native town about a few years ago a certain section in Dublin with very well paid jobs in fact the highest offices in the land started a campaign in the publication against Irish industrialists. They favoured the past-time was to spit vituperation at the personnel directing Irish Industry. As a result of these derogatory remarks and their no buy campaign unemployment showed its head in two spots in the county. Shrewd lads they saw this wasn't going to pay dividends in the ballot box so they changed their tactics but they didn't change their hearts because it was really the little green eyed monster called jealousy that was gnawing at their hearts.

There is another side to that picture that I would like to tell the public about. I know a man in this town who away back in 1935 had money invested in an English flour mill at Cardiff to be exact. While he had it there he was getting 10 per cent dividend. Well he brought it home and invested it in the local tannery to give employment to his fellow-workers. What happened? For its first five or six years that factory never paid a brown penny to the people who put up their money to start it. That man lost £20,000 and at the point I want to bring out and this is the point I want to emphasise and this is the point I defy contradiction on. During those five or six years that tannery never paid a cent more than any other employer in this town 5 - more than the best employer and it is more rich industrialists with that mentality we need in this town.

There is another aspect of the matter—it was because of men of that man's calibre and mentality that it was possible to start tanneries in Ireland before the war and only for them you and I gentlemen would be walking the streets of Dungarvan during the war with bare feet as there wasn't an ounce of leather to be got from outside sources. Certain people do not appreciate that any more than they appreciated the almost super-human efforts the farmers made to grow wheat to feed the nation during the war. Since we formed up the Ratepayers Association here in Dungarvan it is truly amazing the amount of local information that we have got. I might say in passing that this information is Mr. Kelly's what's that your own word is—Oh yes segregated 'ed' the rumour from the fact and the fact stored for future reference. Well it is because of this information that I am in a position to say something about the man who wrote that letter. He signed himself a resident in T. J. Murphy Place he is but he forgot to say that he resides in that part of T. J. Murphy Place that the bright boys of the Village have named 'Nob Hill'. Of course, he is entitled to live in 'Nob Hill'. He doesn't do

Manager—I don't know Kearney or the sky over him but his case was presented and he said that he had sent in an application which got mislaid.
 Mr. Casey—Was it through inefficiency in the office that it got lost?
 Manager—Oh, I don't say that—a thing like that might happen to yourself.
 Mr. Casey—I'm not one of those high pressure guys at all. Chairmen, I am just and unfair that the system should be changed for the very last house.

Mr. O'Dwyer commenting on the letters said that a house at 19 had been let to a man with £5 a week while two chaps on the 'blue book' with three in family were offered houses at 19 6 a week. These were unfair lettings he said.
 Manager—I doubt if that happened.
 The Clerk said that he was unable to say off hand.
 Chairman—I have no objection to any man getting a house but I disagree with the system of letting.

The Manager said that the responsibility for making lettings was his.
 Mr. O'Dwyer—It's the M.O. has the letting of the houses.
 Chairman—It took six weeks to let this house and we lost £3 in rent over the delay.
 Mr. Casey said that for the future panels of applicants one for cheap houses and one for dearer houses should be kept so that when a house became vacant the first on the list could move in without delay.
 Mr. Butler is there an obligation to advertise lettings?

Manager—There is that was decided by the Council.
 During further discussion the matter of letting houses should not be left vacant for long periods.
 Manager—I always thought the fairest way was to advertise the houses and let the applicant on the original list should get the next house that became vacant.
 Mr. Casey—What was wrong with him was that he was from Dungarvan.
 Mr. O'Dwyer said that he always thought that people suffering from TB got preference over others.

The Manager said that the 1950 regulations and the recommendations of the M.O. were made according to these regulations.
 The discussion ended.
 A further report on the proposed additional public lights at Gauda Barracks, Shandon, Murphy Place, Patrick's Terrace, Sheares Street and Home Rule Street, from Mr. O'Dwyer was read.
 Mr. Casey proposed that as the estimates meeting was only a few weeks off that the matter be deferred until then.
 Mr. Kelly and Mr. McCarthy said the lights at Abbeyside were needed.
 Mr. O'Dwyer said that it is lights were needed at Shandon as this was now the favourite of many people.

Mr. Kelly—You any romance left in your soul Mr. O'Dwyer (laughter).
 Mr. O'Dwyer—Oh there's lots of other places.
 Mr. Casey said that there were no lights left on New Year's Eve and when the foot people came out after midnight Mass they were falling around the place.
 Mr. McCarthy—I certainly agree with Mr. Lee the lights were out after midnight Mass and the streets were pitch dark. It wasn't the Council's fault but the E.S.B. should have had some consideration.
 Mr. Casey—We might expect intelligence from our officials they should have anticipated that lights would be needed that night.
 It was not anticipated that there would be midnight Mass on New Year's Eve.
 Mr. McCarthy—There was a week's notice of it given.

With regard to the request to the Superintendent at last meeting to attend this meeting to discuss further the parking regulations for the town, a letter from Supt. O'Mahony stated that as the matter was now a purely legal one no useful purpose could be served by his attendance at the meeting. With regard to the holding of a letter from the Supt. the letter referred the Council to the powers vested in the Garda Authorities under Road Traffic Act, Section 1 of the Act.
 The Clerk stated that he had not so far read this section and the Council decided to defer the matter to next meeting.

Parking Regulations
 An order by the Supt. 1st Sub Section, 1st Urban District, where a fair or market is held in any public place within the functional area of the Council of a county, a county or other borough or an unincorporated town or village or hamlet shall be the duty of such council or such commissioners to make such by-laws as may be necessary for securing the free passage of vehicular traffic through such place on the occasion of such fair or market.
Application For Wage Increase
 The deferred application of the A.T. & G.W.U. for an increase of 10 per week for members of their Union employed by the Council was next discussed.
 Mr. O'Dwyer proposed that the Council make a strong recommendation to grant the increase due to the high cost of living.

Mr. McCarthy seconded.
 Mr. Casey said that since he had been elected on the Council he had objected to all over-expenditure and the only time he was agreeable to it was when an emergency or a contingency arose. He said that he could not conscientiously oppose an increase as the workers were entitled to it but he had good experience of wage adjustments with the U.D.C. who were very human and like the man with an animal at the fair who always asks a bit more than he'd take. He then suggested that a

sub-committee of the Council be appointed to meet a delegation from the Union to discuss the matter.
 Mr. Kelly said that the men deserved a 10% increase.
 Mr. McCarthy thought the Union very fair in only asking for that.
 Mr. Dwyer said that he was on the Union Committee and he knew that 10% was the minimum they would accept.
 Mr. Casey—We'll let them say that there's no harm in meeting them.
 Finally it was agreed when the Council decided that any increase should be referred to the date of the Council meeting to appoint a delegation to meet the Union on the matter.

The Chairman with Messrs McCarthy, Butler, Kelly, Casey and Kynne were appointed with the Manager and Borough Surveyor and it was decided to meet the Union on tonight (Friday).
 Mr. Kynne arrived at the meeting at this point and apologised for being late.
Loan Of £4,000 For House Repairs Approved
 With regards to repairs to Council houses Mr. McCarthy said that Mr. Lyons house at 47 Loughmore was in a very bad state of repair and nothing had been done since the deputation had been in. Mr. Ormond said that they were going as fast as they could but that the weather was holding up repairs and some of those things were not satisfactory as the frost was interfering with the concrete.
 Mr. Lee—The houses in Loughmore are in an awful state.
 Mr. Ormond said that a lot of the dampness complained of was due to condensation.
 Mr. Lee said that the tilts on the roofs were porous.
 Mr. Ormond said that he appreciated the complaints and was doing his best. If the Council passed the estimate before them for repairs (£4,444) he would carry them out.

Mr. Lee—Oh Mr. Casey won't pass nothing he's trying to keep down the rates.
 Mr. Casey—They're paying 1/7 in rates up in Loughmore already.
 Mr. Lee—Put in baths and bathrooms and then we'll pay more.
 Mr. Casey—Fair enough that's a fair offer.
 Mr. Lee—It's the working man that wants the bath. It's a hard day's work Mr. Casey can't wash himself in anything (laughter).
 Mr. O'Dwyer (to Mr. Lee)—Are you speaking as an individual or for all the people of Loughmore when you say they'll pay more rent?
 Mr. Lee—I'm speaking for all Mr. Kynne—You all know that it was in Loughmore Mr. Lee got most of the votes that elected him and he is entitled to speak for the people there.
 Mr. Casey—There's no doubt but Mr. Lee is the hon member for Loughmore.
 Mr. Kelly—I don't doubt that at all.
 Mr. Lee—Mr. Casey is only putting up stumbling blocks he has the estimate of his engineer and he won't pass it.
 Mr. Kelly—He's only one member of the Council.
 Mr. Lee—But you instruct others.

Mr. Kelly and Mr. Dwyer objected to this statement.
 Mr. Lee said that Mr. O'Dwyer was the member of some instrument but would not come out in the open.
 Mr. O'Dwyer said that he was not a mouthpiece for any instructions from Mr. Casey and he asked for the withdrawal of Mr. Lee's statement.
 Mr. Lee said that he would not withdraw and added that Mr. O'Dwyer had gone against the workman in this matter the last night.
 Mr. O'Dwyer said that this was not so and made reference to the charge he made at the meeting that Mr. Lee had purchased Diesel that in this respect that Mr. Lee was not the only culprit.
 Mr. Lee said that when he came to the meetings he came in with facts and did not go against the workers and was not like Mr. O'Dwyer who tried to run with the hare and hunt with the hounds.

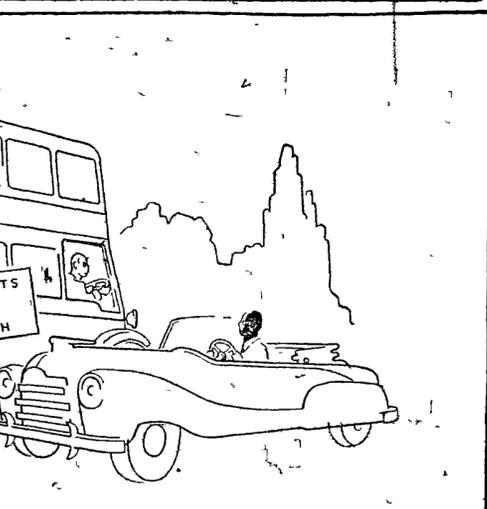

The estimate of the Chief Assistant Engineer was then presented. This amounted to £4,444 with items of £360 for concrete paths £480 for back-doors £800 for general repairs and the balance for external painting etc.
 An order by the County Manager recommending the Council to ask the Department for roads to pay special attention to the items other than painting etc.
 Mr. O'Dwyer said that he was convinced that big repairs would have to be done. He thought the suggestion of the Co. Manager to raise a loan was a good one and it was not a new principle as the County Council did it to repair cottages. He thought it wise to keep their own property in a proper state of repair and the Council should agree to the loan.
 Mr. Dwyer said that now that they had the Manager's advice he agreed to the loan and that's all he wanted the last night and did not oppose the repairs as Mr. Lee said.

Mr. Casey said that Mr. Lee was wrong in 1949 when he had proposed the repairs the last night as they only referred the matter to the Manager for his observations.
 Mr. Kelly—Mr. Lee was right in so far as what I proposed the last night is what is now recommended by the Manager.
 Mr. Casey—What I proposed was that it be referred to the Manager and thought that was more business-like.
 In reply to Mr. Butler the Clerk said that the annual repayment of capital and interest on a 10 year loan of £4,444 would be £222 about 1/7 in the £.
 Mr. Casey—And if we are to be good landlords we would have to spend half of that in painting again in two years.

Mr. Casey continued that he was opposed to a 10 year loan for this seeing that half of it would be required every two years, and said that the position was that at the end of 10 years they would have five 10-year loans going. He termed this "cock-eyed finance".
 In reply to further questions Mr. Ormond said that if the present estimate was passed nothing further would be required for the coming year. Last year the amount passed for housing repairs was £2,750.
 The Clerk pointed out that there would therefore be a saving this year of the difference between £622 and £750.
 Mr. Casey disagreed and said that over £2,000 would be required for painting after two years again.
 Mr. Ormond agreed that painting would be needed every two or three years.
 Finally on Mr. Butler's suggestion it was agreed that the estimate be pared to £4,000 and Mr. Kynne proposed that the Council request sanction to a ten year loan of £4,000 Mr. Lee seconded.

Mr. Casey moved an amendment that the tenants do the painting and that the Council do the repairs and that they raise a 10 year loan for that.
 After further discussion during which Mr. Casey held that if the Department were to be asked to sanction a ten year loan for £4,000 that the items making up the total be set out it was decided to give the details only if requested but not before and it was finally agreed to ask for sanction for the £4,000 loan.
Housing Grants
 The consideration of making grants for the erection and purchase of houses was deferred to next meeting.
Differential Rents
 Mr. Casey moved the adoption of the differential rents scheme said that it had worked satisfactorily in Cork and the Labour Council in Waterford had congratulated the City Manager.
 The Harbour Master (Mr. J. Curran) said that the present Minister for Local Government held that it was the fairest and most equitable way of fixing rents. It was completely wrong he said that a man on the 'blue book' should be paying more for a house than a man with a good salary.
 Mr. McCarthy said that he did not think that the rents of people in Council houses for the past 30 or 40 years should be raised as they had already the houses bought. Beyond that he did not object to the scheme but said that tenants should be made aware of it.
 Mr. Casey said that the Manager should be instructed to instruct their senior Rate Collector to investigate the position and report back to the Council as it was all very vague at present.
 Mr. Kynne said that the matter was an executive function and that it was in actual fact already being carried out.
 Mr. Casey did not agree that Mr. Kynne said that the Manager had brought in a pay according to means system for all new lettings.
 Mr. Casey said that this was not the system as he visualised it and asked if the deputy was opposed to it.
 Mr. Kynne—No but maybe it won't pay as 90% of the people who will be affected have a low standard of living.
 Chairman—If a wealthy man is living in a house it is only fair that he should pay a reasonable rent.
 Mr. Lee—if he was in it for 30 years it should be his own.
 Mr. Casey—If you were the landlord would you give it to him?
 Mr. Lee—But I'm not a landlord every body hit Mr. Casey a hare doesn't come out of it.

Chairman—Get a report on the matter from the Manager.
 Manager—What class of report as far as I remember this scheme has already been turned down by the Council.
 Finally it was decided to defer further consideration of the matter to the next meeting.
Demand For Road Repairs
 A list from the County Engineer of repairs to be done in the Urban Area totaling £1,670 (£120 for maintenance £100 for relief grants £300 to tar road from Square to Merry's corner £120 for paths at Cathal Brugha Place and £250 for tarring at Shandon) to the E.S.B. station) was next considered.
 After discussion it was agreed to pass £1200 the same figure as last year and to do the footpaths at Cathal Brugha Place out of next winter's relief scheme grant.
Boundary Wall
 The recommendation of the Engineer to continue the new wall along the boundary wall to Gallowishill was agreed at a cost of £150 was approved.
 The Engineer told Mr. McCarthy that the ball-alley would be finished in about ten days.
 In reply to the Town Hall the Clerk told Mr. McCarthy that the Manager had referred the matter to Council and the opinion had not yet been received.
Resolutions
 A resolution from Bray U.D.C. and from Tralee U.D.C. requesting the Government to extend retiring gratuities to all teachers who retired before Jan 1st 1950 was adopted.
 A resolution from Birr U.D.C. requesting the Minister to introduce legislation whereby tenants of Council houses may be enabled to purchase their houses was also passed.
Letter From Small Traders
 A letter from the small traders of the town thanked the Council for their interest in trying to have the Shop (Hours of Trading) Act modified and stated that they wished to have the Act abolished so that they could open and shut their shops as they wished. If this could not be done then they would like if the Act could be modified to allow opening until 9 p.m. in winter and 11 p.m. in summer.
 It was decided to send a copy of the letter to the Minister for Industry and Commerce and

Chairman—We don't want Mr. Curran to give instructions to have any boat shifted every precaution must be taken. Another point is that it appears to be the case to load a boat as cheap as you can by shifting her—employ more men to bring the timber to the berth and left there.
 The Harbour Master (Mr. J. Curran) said that the berths were safe now and a certain figure was agreed on with the Union for loading and only 72 hours allowed.
 The Chairman said that a boat appeared to be in danger while loading recently.
 The Harbour Master said that this was the captain's own fault.
 Chairman—I know but it might mean another case.
 Mr. Lee—If she broke her back the Urban Council might be paying the grain.
 Harbour Master—It was the Captain's fault.
 Chairman—Don't shift the boats bring the timber to the berth instead of the boat to the timber.
 Mr. O'Dwyer—I wouldn't agree with that Mr. Chairman it would take four days to load a boat that way.
 Harbour Master—A captain can do what he likes with his own boat.
 Mr. Lee—Was it on your instructions the boat was shifted?
 Harbour Master—No.
 Mr. Butler—I agree with you Mr. Chairman that all possible precautions should be taken not to have another accident.
 Chairman—It's wrong to be shifting boats at the quay, anything could happen.
 Harbour Master—Every care is taken.
 Chairman—It was proved beyond all question of doubt that it was not taken.
 Harbour Master—When? Chairman—You know as well as I do.
 Harbour Master—What happened the other day was the Captain's fault.
