### STATEMENT BY IRISH BANKERS' JOINT COMMITTEE

The Banks regret that the renewed conferences held with Honourable Mr Justice Cahir Davitt in the chair have failed to reach agreement In deference to An Tao seach the Banks waived their condition of a resumption of work before negotiation In the negotiations the Banks were represented by directors drawn from every Bank with senior ear cutives in attendance

The Banks are anxious that the public should know the

The total remuneration paid in the Republic by all the Banks in the year 1950 was over two and a half million pounds. The demand of the Association for which the lightning strike was called in breach of contract was for claums which would cost more than a further threequarters of a million pounds a year Ine rates of remuneration payable by the Banks at the

date of the strike were just and in excess of those in any in the case of men the scale was fixed by independent arbitration in August 1949 (less than 18 months before the lightning strike) and was accepted by the officials by ballot In the case of women the scale was fixed by independent arbitration in October 1950 and was accepted by ballot of the members barely one month before The strike has now lasted one month. The loss to the

public and to the country is very great and is daily growing.

In the hope of a settlement in the public interest the Banks made an offer to the Association which in the Republic would have cost the Banks a further £315 000 a year approximately (including the increased pension provision)
This offer has now been summarily rejected by the
Executive of the Association without even a ballet of the members of the Association
