### IRISH SUGAR BEET GROWERS' ASSOCIATION

The new price of £5 per ton for sugar beet of 151/2 sugar fixed for the 1951 crop after negotiations between the ibove Association and the Irish Sugar Company represents an increase of 12/-d per ton over last years price. It is the opinion of the Association that this is a fair and economic price under present conditions.

It strongly recommends its members to grow sufficient beet to earn the special bonus of 4/-d per ton offered by the Company if the total production reaches, 700 000 tons

That this tonnage can be produced without any reduction in the stock carrying capacity of farms is evident to the Association from the experience of Carlow and South Kildare growers who have substituted sugar beet for almost the entire mangel and turnip acreage previously grown Moreover, this change in the farming system need not entail any substantial increase in labour

The Association wishes to impress on members that costings have shown that there is no profit an low yielding crops and that the higher the vield the higher the profit per ton. Growers are therefore, advised to ensure that the crop is adequately manured and that lime is applied

The Factories can handle 100,000 tons of sugar beet more than was grown last year This means that there is available a guaranteed market for \$4,000,000 worth of sugar beet this season.

> By Order A M FAHY,

Secretary, Irish Sugar Beet Growers' Association. 3/2/51

A Chara-My attention has been drawn to some statements about the postponing of the Cross-country race arranged for Tallow on Jan 21st I would like

to state the facts of the case Shortly after Christmas wrote to the Secretary of the Tallow AC fixing the race for Tallow. When on the 11th Jan I had received no acknowledgment from the Tallow Club wrote confirming the fixture and asking about the arrangements On Jan 18th—only three days before the race-I still had received no confirmation from the Tallow Club that they were proceeding with the arrangements for the holding of the race Neither had I received any officentrus although Jan 15th the closing date for entries I therefore had no alternative

have a lurking fear that the allowed have a lurking fear that the allowed has successfully organised many functions in its area. Why then do the successful organisers of the Tallow club not devote a part—however small—of this by his writings and his speeches helped very materially to lay the foundations of trades Unionism on a christian basis of social
