ab'e to put much towards it Mr Heskin stated that the alterations to the County Home might prove as costly to them as their share of the cost of electing a new hospital and they should raise all these points with the Minister when they meet him this week

The Chairman stated that when he was recently coming down from Dublin he saw a fine new hospital in Kilkenny and he was given to understand that it was started 10 years ago Other places had got new hospitals as well and no difficulties were put

and they should do all they

could for them in this way was glad to see the reports as were but the point would like the members of the visiting committee to remember is that if things were not all they should be in the hospitals then they should be very honest in their report and have no hesitation in stating that everything was not flowery as he believed that where these institutions were concerned they needed

strict supervision. Dealing with the Portlaw Dispensary residence the Secretary read a report on the progress being made on the improvement work there and stated that up to date £904 had been spent and it was expected to have the work completed in about a month A number of the members remarked that this figure show-

Control of Bog Rents

The Government has made an Order which limits the rent that may be charged for bog lettings

The Order provides that the rent to be charged may not in any circumstances exceed that charged in 1947 If no letting was made in 1947 the rent charged cannot exceed that which the owner might reasonably have expected in 1947

The Order also provides that any payment made in excess of the legally chargeable rent may be recovered as a simple contract debt

The Order further prohibits the letting of turf banks by public auction

FARMERS.

Farmers are earnestly requested to consider the prospects for animal feeding stuffs

The whole livestock industry depends on the supply of feeding stuffs, and the only certain source of supply

The continued expansion of the livestock industry depends entirely on whether the farmers of Ireland produce the food necessary on their own land.

If the farmers want to do their part, they can per

If they don't do their part, either our livestock (cattle, sheep, pigs and fowl) must be cut down in numbers or the whole system of letting farmers run their own business be ended

Compulsory tillage and all other forms of arbitrary interference with the freedom of farmers were abolished by your Government

The Government depends on farmers to do in their own interest all that is necessary, without compulsion or

To produce feed for our own Irvestock we require this spring AT LEAST the following -

Ymer Barley Oats Potatoes Hay and Silage

200,000 acres 800,000 400,000 2,000,000 ,,

Preparation for these crops must be undertaken NOW, in addition to such other crops as farmers may intend to sow, such as wheat, industrial barley, beet

Unless each farmer produces on his own land all the animal feed he requires, he cannot hope to maintain

It is for the farmers to decide whether freedom or compulsion is the better policy

In a statement early in 1950 the Minister for Agriculture directed the attention of farmers to the prospect of supplies of feeding grains from abroad becoming scarce and dear

The prospect of supplies of feeding grain from abroad is worse since the Korean war and this makes it all the more necessary that we should produce all the oats, barley, potatoes and silage that our land can be made to yield in 1951, over and above such other crops as farmers have planned to grow
