THIS IS WHAT THE IRISH GOVERNMENT TERMS FREEDOM

Deserving of special place in this issue is the following discussion which took place last week in the Old Boro at a meeting of Waterford Co Country I have here in my pocket a licence to fish for salmon but the senator glanced sideways at well meeting of Waterford Co Country I have here in my pocket a licence to fish for salmon but terest to see how this vexed for all the use it is to me. I question will be ironed at when

for portion of the river and as incleased the cost of our radio one of those residing by the Blackvater he knew the position only too well yet they had not the right to fish the river they thought they had gone far any they had gone far any thought they had gone far any they ha because the fish therein were enough—if it is possible for a finance minister ever to think Mr Quirke concluding stated along such lines? that the time had come when the Government should take an sideration of bread and cir-interest in the matter and do cuses and the realisation that away with dual ownership of after the people have paid the

fishing rights of Irish rivers the hearth on the radio on provided one of the most turning questions at the moment all out first instalment?

Over the country The Govern
Fact of the matter of course Mr Heskin then proposed the following resolution which was unanimously passed —

"That if the Department of Fisheries wish to settle the fishery troubles of the present time the tenants of the fiver be and hereby declared owners of the fishing rights of that portion of the river running by or through their land our finance Minister could have taxed wireless sets directly instead of wireless sets directly instead of going to the trouble of collecting extra fees. He could have differentiated between the man in Connemara with his simple oblong box of three or four valves and battery

I will add my views to this and say that it is high time that all Irishmen who are fond of the piscatorial art should have the right to fish in any part of the rivers of Ireland Trion with his highly-polished gigantic bit of furniture known as the radiogram Lots and lots of people who are not worsted by the weekly are not worsted by the weekly and are not worsted by the weekly are not worsted by the weekly and are not worsted by the weekly and are not worsted by the weekly and say that are not worsted by the weekly and say that it is simple oblong box of three or four valves and battery and the man from Mount Mertin his simple oblong box of three or four valves and battery and the man from Mount Mertin his simple oblong box of three or four valves and battery and the man from Mount Mertin his simple oblong box of the man from Mount Mertin his simple oblong box of three or four valves and battery and the man from Mount Mertin his simple oblong box of three or four valves and battery and the man from Mount Mertin his simple oblong box of three or four valves and battery and the man from Mount Mertin his simple oblong box of the man from Mount Mertin his simple oblong box of the man from Mount Mertin his simple oblong box of the man from Mount Mertin his simple oblong box of the man from Mount Mertin his simple oblong box of the man from Mount Mertin his simple oblong box of the man from Mount Mertin his simple oblong box of the man from Mount Mertin his simple oblong box of the man from Mount Mertin his simple oblong box of the man from Mount Mertin his simple oblong box of the man from Mount Mertin his simple oblong box of the man from Mount Mertin his simple oblong box of the man from Mount Mertin his simple oblong box of the man from Mount Mertin his simple oblong box of the man from Mount Mertin his simple oblong box of the man from Mount Mertin his simple oblong box of the man from Mount Mertin his simple oblong box of the man from Mount Mertin his simple oblong box of the man from Mount Mertin his simple ob Freedom is not much good when are not worlded by the weekly we have to seek and beg permission to be allowed fish in up with the Joneses and buying It is about the super set our own rivers time that the Department-concerned should take this matter afford anything from 30 to 60 very seriously and have this unjust law repealed and thereby lined monsters could afford to give Irishmen what justly and pay an extra five guineas to help rightly is theirs—the freedom to our harassed minister. But fish in their own rivers

THE SENATOR MAKES ENQUIRIES

Senator Butler got some information which he wanted when at the last meeting of the County Council he questioned the County Manager about the Urban District Council s contribution to the salaries paid un-der the Sanitary Services The Senator wanted to know what officials came under this heading and among those mentioned was the Health Inspector The Senator went no further than to state that in view of a recent statement made by the County Manager, the information he required had been provided

Mr N Kelly jumped out of his seat at the meeting and threw out a challenge to Senator

for all the use it is to me I question will be ironed out when might just as well have a pawn our Civic Fathers meet to dis-ticket cuss the matter

This was stated by Mr Jack
Campion when the members
were discussing fishing rights

ment had already refused to is that not even our ministers give the tenants by the river have the temerity required to in-their rights and until such time crease radio licence fees before as they get them the people of Ireland would not be satisfied of programmes Forgotten Taxes

Still with a big gap to bridge our Finance Minister could have

Presumably folks who could

no apparently milk and bread, the tonic stout and the sedative cigarette, now a necessity to the masses are better game The old, old question arises at

this point are listeners obtaining value for their licence fees from the Government?
Undoubtedly they are having good value for money paid for their sets with the whole world at their finger tips on the

mantle-piece
Undoubtedly, too it is a good thing that they have this enter-tainment and education at so small a cost

But that doesn't answer the question Radio Eireann does not give good value

MORE ACRES UNDER WHEAT

The sowing season is speeding away but there is still time to make your contribution to the national food production effort Sow as much Spring wheat as you can and treat it properly so as to reap a bountiful crop

MORE WHEAT PER ACRE

To get a profitable return

(1) Sow good seed of the right variety and dress it with Mercurial powder to prevent 'bunt

(2) Apply a mixture containing 1 cwt of Sulphate of Ammonia 3 cwts of Superphosphate and ½ cwt of Muriate of Potash per acre before sowing if your land is under average in fertility or if the wheat crop follows a cereal crop or grass

If your wheat crop is backward a top-dressing of 1 cwt of a nitrogenous fertiliser per acre at the grass corn stage will work wonders
