## SPOTLIGHT ON THE UNKNOWN

By THOMAS TOBIN

A MEMORABLE OCCASION  
Instructors were the guests of the students at a little ceremony and social held at Egan's Hotel Dungarvan last week.

Guests were the teaching staff and officials of Dungarvan Technical School while playing the host were the students of the recently-ended Diploma Course in Rural and Social Science which had been conducted at Dungarvan Technical School for the past two years. Handsome presents were given to each member of the Vocational Education Committee's staff who had taken an active part in the success of the course. These were Margaret Kelleher and Maureen Malone Domestic Economy Instructors; Messrs Denis Cullinan B Agr Sc Chief Executive Officer; Rev Thomas Fitzgerald C C B A Sociology Lecturer; Donald Lynch Woodwork Instructor; John Kelly Engineering Instructor; Thomas Maher B Sc Rural Science Instructor; Patrick Conroy Agricultural Instructor; Richard Johnson, Clerk; Patrick Lynch, Caretaker.

The members of the course were drawn from Dungarvan and Ballinacorney Branches of Macra na Feirste.

The Chairman Mr Con Dempsey in welcoming the guests referred to the drive and energy which each of the teachers on the course put into his work and referring to the efforts above and beyond the line of duty said that it was due to this all-out drive that the course proved the unqualified success which it was with 100% success in obtaining the Diploma in Rural and Social Science of the University College Cork.

Rev Fr Thomas Fitzgerald complimented the students of the course on their enthusiasm and hard work which had borne fruit in success for all. He paid special tribute to the Herculean work done by Mr Denis Cullinan Chief Executive Officer, who also lectured in Rural and Social Science of the course stating that Mr Cullinan's guiding hand had carefully steered the course through successfully from start to finish.

Referring to the thorough course in Sociology which was part of the Diploma course Mr D Cullinan said that it would be a pity just to let things stay as they are now. He advocated the formation of a discussion group which would meet regularly starting in the autumn and help to continue the good work which the course had started.

Speaking as the oldest member on the course, Mr Thomas Wall said that it was the happiest time of his life the period he spent on the Rural and Social Science course in Dungarvan Technical School.

First speakers from both Dungarvan and Ballinacorney Young Farmers Clubs joined in paying tribute to the success of the course.

Those who obtained the U C Extension Course Diploma in Rural and Social Science were—Messrs Liam Christopher Ballyleone Edmond Cunningham Kinsalebeg Youghal Cornelius Dempsey, Shandon Dungarvan Patrick Fitzgerald Ballyleone Cappagh John Fives Tourin Cappoquin, Thomas Flynn Grange House, Youghal Patrick Lynch Ballinacorney James McGrath, do Patrick Morrissey Ballyleone, Dungarvan John Morrissey do Joseph O'Brien Ballinacorney Peter O'Donnell, Youghal Road Dungarvan Michael O'Sullivan, Sea View Ring, Edmur Pheasant Ballyleone, Dungarvan Joseph Riordan, Gliddaun, do Seamus Shine Cappagh Dermot Twomey Ballinacorney Thomas Wall Cullinan.

VISITING THE HOMETOWN  
On a visit to Dungarvan recently were Mrs J Kieley and her daughter Nancy of Yonkers New York. Mrs Kieley is a native of Kilkenny, but her

husband hails from the Old Bl and of Shannon Street. During her stay in Dungarvan Mrs Kieley travelled to Ring and Helvic areas where she looked up members of the Murphy family to convey special greetings from members of that family in the States.

Miss Nancy Kieley's visit was her first to the Emerald Isle and from all I could gather it will not be her last. No words could she tell me pay a just tribute to the many advantages of Ireland and in particular Dungarvan, as a holiday centre. That my friends is really worth noting.

There will be plenty of interesting discussion in Yonkers when the Kieley family return. Jack as he is well remembered by Dungarvanites told me and before they left, that Dungarvan and Co Waterford would surpass all other holiday centres. They, of course could not really take him seriously. They have since been in many parts of the south of Ireland and before they left here during the week they told me that they would have to admit, 'the man of the house' was right after all.

We wish them the best of luck on their voyage and send with them our best wishes to our many friends in Yonkers.

**SUCCESSFUL EXCURSION**  
The staff and their friends of Messrs Thomas Power & Co Dungarvan spent a very enjoyable day's outing recently on their annual excursion. They toured many of the well known holiday centres of Munster including Kilarney. They visited Blarney Castle where most of the party kissed the world famous Blarney Stone. Many of those who travelled told me that the excursion could not have been more enjoyable and even the weather smiled on them.

Those behind the scenes are to be congratulated on keeping up the excellent name associated with the annual excursion of Power & Co.

**MAIRE MY GIRL**  
Over the dim blue hills strays a wild river  
Over the dim blue hills rests my heart ever  
Dearer and brighter than jewels  
Dwells she in beauty there  
Maire my girl  
Dwells she in beauty there  
Maire my girl

Down upon Claris heath shines  
On the brown harvest tree  
Droops the red cherry  
Sweeter thy honey lips, softer  
Stray down thy cheeks,  
Maire my girl  
Straying down thy cheeks,  
Maire, my girl

Twas on an April eve that I first met her  
Man and eve shall pass ere I forget her  
Since my young heart has been wrapped in a whirl  
Thinking and dreaming of Maire, my girl  
Thinking and dreaming of Maire my girl

She is too kind and fond ever to grieve me,  
She has too pure a heart 'er to deceive me  
Were I Tyrconnell's chief or Desmond's earl  
Life would be dark, wanting Maire my girl  
Life would be dark wanting Maire, my girl!

### Swimming

**Very Successful Gala And Water Safety Championships Held At Dungarvan**  
A record crowd attended the Tenth Annual Gala of the Dungarvan Swimming Club which was held this year in conjunction with the Munster Championships of Water Safety under the auspices of the Irish Red Cross Society at the Swimming Pool, Dungarvan, on Sunday last.

The day was ideally fine and the large attendance thoroughly enjoyed a grand aquatic sports many voting it one of the best Galas ever held. Highlight of the programme was the swimming of Miss Tess Nagle and Paddy Arrigan of the home club. Both made unofficial attempts on the 100 yards breast-stroke and Men's 100 yards back-stroke.

Miss Nagle paced by Miss Mary Lewis Newport, Sc Wales, and on the last lap by Miss M O'Donnell, clocked 39 seconds over the distance which we understand is faster than the Irish record time and certainly about four seconds faster than the Munster record time for that distance.

Paddy Arrigan making his solo attempt equalled the Irish Backstroke record time as he flashed over the two lengths of the pool in 67 seconds.

Both these swimmers received great ovations from the crowd.

The exhibitions given by the lady members of the Dungarvan S C under their coach Mrs B Hooper Newport, Sc in the principal exhibition of the grace and ease of rhythmic swimming while Mrs Hooper herself and Miss Lewis, gave a marvellous exhibition which thrilled the crowd. On the diving side there were exhibitions by Paddy Arrigan, nine-year old Jocelyn Hooper Newport and young Johnny Butler, Dungarvan which drew great applause from the fans.

The Water Safety Champion ships which drew teams from many Munster Counties were held in two sessions, land drill in the morning, and water drill in the afternoon and were watched with keen interest by everyone and the entire programme was thoroughly appreciated.

**RESULTS**

### WATERFORD COUNTY COUNCIL

**Cappoquin-Lismore Water Supplies**  
Press Reports Distorted  
Says Engineer

**Engineer's Report Not Correct Says Councillor**  
**Itinerant Menace Discussed**

Mr D Leahy Chairman presided at the quarterly meeting of the Waterford County Council held in Dungarvan, on Monday last. Present were Messrs McGraw, Hesklin, MI Hart, J Kirwan, F Roche, J Campion, E Power, T A Kynne, TD Wm Kenneally, TD J Ormonde, TD P Butler, J Quirke, Senator J Butler, J Mansfield, L Moressey, R Barron and T Power.

In attendance were Mr S J Moylan, Co Manager Mr J G Dowling, Co Secretary, the County Engineer Mr D Sheehy and the other engineers.

Mr Ormonde raised a matter regarding the possible development of Kibrien Bogs. A County Engineer reported that this would be possible as the quantity of turf available in the bogs would not justify the expenditure of the £2,000 required to make new roadways.

Mr Ormonde stated that he was not in agreement with this view pointing out that he had been given to understand by many of those in the area that the supply of turf available there was limited. He said the expenditure of the sum mentioned would be justified and the only snag he saw was the short duration of the season. Mr Ormonde suggested that the County Council should consider the matter seriously in view of the fact that the development of the bogs meant a great deal to the lives of the people living in that area.

Finally it was suggested and agreed that the three Dail Deputies on the County Council call on the Minister for Local Government in the hope of getting a grant towards the project.

### BALLYDUFF NEWS

**Attended Mullin Na Tire Rural Week in Si go—Mr Denis McCarthy, Mr William Coleman and Mr Barry the principal officials of Ballyduff.**

Mr Denis McCarthy attended the Rural Week sponsored by Mullin na Tire, which was held at Sligo. They spoke very highly of the very sociable time spent at the present and said that they considered it one of the best Rural Weeks held since the initiation of Mullin na Tire. They were delighted with the way all the arrangements were carried out for the comfort and enjoyment of all and said it was a real pleasure to meet the representatives from Gulls all over Ireland and to exchange views with one another.

We are very pleased that the Ballyduff representatives had such a nice time.

**Visitors**—At the moment a large number of visitors from Dublin and cross-channel are enjoying their holidays in the lovely and peaceful Village of Ballyduff. We take this opportunity of extending to one and all a hearty welcome and express the hope that all will enjoy their stay amongst us.

**Ballyduff Branch P.T.A.A.**—The members of the Ballyduff Pioneer Total Abstinence Association are already making plans for their winter work and functions to be held such as socials, meetings, concerts, etc. The Committee will leave nothing undone to make the work of this active Association a big success in the Ballyduff district. Be on the look out for announcements concerning the work of the P.T.A.A. in later issues.

**Delegates Appointed**  
Two delegates were appointed to attend a conference in Limerick in connection with the charges levied by Messrs D Hesklin and MI Hart.

**Youghal Bridge**  
In reply to a question raised the County Secretary stated that so far there was no news of the proposed bridge over the River Government regarding the proposed public inquiry re Youghal Bridge.

**Reports Not Exaggerated**  
Following the publication of two special articles in the SPOTLIGHT COLUMN of the Dungarvan Leader, recently dealing with the present position as it affects the water and sewerage concerns in Cappoquin and Lismore, a report from the Water Engineer Mr P Walsh, which stated that the articles were highly coloured and rather distorted was the cause of a much-heated discussion.

Mr N Walsh, stated that he took grave exception to the references made by the Water Engineer to these newspaper articles. I want to state here for the record, he added, that they were brilliant articles from the able pen of Mr Tom Tobin who put the naked facts, which were in no way exaggerated or distorted before the eyes of the public. He gave the facts of the present scandalous position regarding the urgent needs of Cappoquin and Lismore and in so doing rendered a very valuable service to the county which is very much appreciated.

Mr Campion spoke in agreement and pointed out that there was no exaggeration whatever about the articles. What appeared in print was all too true and really showed up the position. Mr Campion added that he could take Mr Tobin along and show him much worse than he had seen on his previous visit to Lis-

more  
The Water Engineer in his report stated that in order to dispel any doubts which may have arisen in connection with the scheme, due to highly coloured and distorted reports which appeared in the Press recently he wished to place the following facts before the meeting—(1) In order to supplement the existing supply water is pumped constantly from the Spout into the distribution system of the town from 8 a.m. to 9 p.m. (2)—From 8 a.m. to 10.30 a.m. all valves in the town are open. (3)—From 10.30 a.m. to 12 noon all water is diverted up Chapel Street through Fenville and down the Mall (4)—From 12 noon to 1.30 p.m. water is again fed all over the town (5)—From 1.30 p.m. to 4 p.m. all water is fed through Main Street to Conington Hill and Parks (6)—From 4 p.m. to 5 p.m. all water is fed to the area around the CBS and Upper New Street (7)—From 5 to 7 p.m. all valves are open and all water is fed all over the town (8)—From 7 p.m. to 11 p.m. the water fed to the area around the CBS and Upper New Street (9)—From 9 p.m. to 8 a.m. all valves are open and water is fed all over the town.

Mr Walsh in his report further stated that in this way water was distributed as fairly as possible and although every one has not been getting as much as would be desired they are nevertheless sufficient for necessities. He added that there was an excellent sewerage scheme in Lismore town already the Council did not contemplate replacing it.

Mr Walsh in his report further stated that in this way water was distributed as fairly as possible and although every one has not been getting as much as would be desired they are nevertheless sufficient for necessities. He added that there was an excellent sewerage scheme in Lismore town already the Council did not contemplate replacing it.

Mr Walsh in his report further stated that in this way water was distributed as fairly as possible and although every one has not been getting as much as would be desired they are nevertheless sufficient for necessities. He added that there was an excellent sewerage scheme in Lismore town already the Council did not contemplate replacing it.

**Tenant Purchase Scheme**  
Referring to the proposed Harbour Development Scheme for Ardmore the County Secretary stated that he had been in touch with the Department and was told that they would be entitled to a grant of 50 per cent towards the scheme. As they (the County Council) had made no offer as to what their contribution towards the job would be, Mr Hesklin said that development since the last meeting.

Mr Kynne said that the Department will not make any offer until they hear from the Council to the effect that they suggested that they should make an offer of putting up 25 per cent of the estimated cost, ie £2,500. The full scheme had been estimated to cost £10,000.

Mr Mansfield spoke in agreement pointing out that the scheme was an urgent one as far as the fishermen of the area were concerned and he would like to see something done as soon as possible. He proposed that they put up 25 per cent of the estimated cost not to exceed £2,500.

Mr Kynne seconded the proposition which was passed unanimously.

**Housing**  
Mr Morrissey, Council's Architect told Mr N Walsh, that the Cappoquin houses would be dealt with again on Monday week and it was hoped to have them completed in seven or eight weeks.

With regard to the Bonmahon scheme these houses are in actual fact ready for occupation, he stated.

Mr Morrissey stated that the matter was a matter of the Council's Architect and the matter was deferred.

**Itinerant Tormenting Farmers**  
Arising out of a letter from the Clonmel Corporation the Council spent a very considerable period discussing the possibility of replying to the letter of the roads of County Waterford.

The matter arose when Mr P Magee, Town Clerk, Clonmel, stated in a letter that the Borough Boundary runs parallel to Colville Road and for a considerable distance, the road is in the Waterford area. The Corporation have prohibited itinerants under the Sanitary Services Act 1948 and they have directed me to enquire if Waterford County Council would be prepared to apply the provisions of the Act to this area.

Commenting on the letter Mr John Fahey stated that if there was anything that could be done in the matter, they should do it without the slightest delay. He went on to state that for some six or seven weeks past, a large number of itinerants have been using the roadside outside Clonmel as a depot. They had some twelve horse vans and six motor vans and over twenty horses. They were using Colville Road as a convenient depot to come much to the annoyance of everyone in the area. Mr Fahey went on to allege that the itinerants were tormenting the farmers of the district by putting their horses into the farmers' land and

midnight and removing them about six o'clock in the morning. He further alleged that they were also stealing hay and doing various other forms of damage to the people in the area. He was not inclined to use the road in question at night-time all because of these itinerants and several reports have been made to the Garda, but without avail.

Mr Fahey stated that he had been given to understand that as far as their removal was concerned the Garda were powerless unless they were caught in the act of doing something wrong. He added that in that area the itinerants were always found troublesome.

Mr Hesklin stated that he could not say that about them in his experience. He had a number of cases of trespass but whenever he spoke to them about it they always co-operated and kept their horses out of the area. He stated that last Thursday Friday and Saturday night, the itinerants had put twenty-two horses in his land in the South Tipperary side. They did so at night and took them off the land in the early morning.

There was a considerable amount of discussion on the matter and eventually the Chairman asked the members what they were going to do about it.

Mr Hesklin—What should we do? After all, Mr Chairman it's a free country, you know.

Mr L Morrissey said that it was a serious matter. To the Chairman he said that if the farmer should catch the itinerant doing damage to his property and should he bring him into Court the compensation he would be awarded would not cover the amount of damages done.

Mr Hart asked what would happen if the farmer found the animals in his land at night and turned them loose onto the road.

The Chairman replied that was one of the situations that could prove very awkward for all concerned.

Mr Morrissey stated that it was a well known fact that the itinerants put their animals in the farmer's land at night and leave gates open so as to make it almost impossible for the farmer to prove that the animals were in his land at night and turned them loose onto the road.

Finally the Manager suggested that before taking any action in the matter they would get the opinion of the Garda Superintendent of the Garda Síochána. He added that whatever they decide to do later they could for the present rest assured in the knowledge that the Council had every power necessary to put a stop to the itinerant menace.

**"Paper" Schemes No Good**  
When the Council were considering the Government's White Paper outlining the proposals for the improvement of health services Mr J Quirke, stated that it was all very fine to see such very fine arrangements on paper but he would like to know when they could be put into effect. The implementation of both old and new services Mr Quirke went on to state that for a good many years past he had been raising the question of having a resident doctor in the area of Ballyduff. A short while ago a man in the area was injured on the roadside and died a few hours later in a Dungarvan hospital. A doctor was not available in Ballyduff and but for the brilliant services rendered by the local nurse the position would have been even worse. Mr Quirke paid high tribute to this lady, stating that she did everything possible going to a very great extent at the death of night to aid the dying man and did so practically unaided.

Mr Quirke continuing stated that he had been given to understand that when the family in question was removed to Dungarvan District Hospital he was not seen by a doctor there until he was dead and then it was too late. These were the kind of things, they in this part of the county in these times of such very fine services on paper had to endure, said Mr Quirke and then we are asked for our comments.

Mr D Hesklin stated that he had heard the same story as related by Mr Quirke and it was correct then there was a good deal to be answered for. He suggested that if the Doctor appointed to a particular area was not available when he should be, then he should be

SCOTT ALLEN, LISMORE

made pay the expenses incurred by bringing in a doctor was not available. Ballyduff on the night in question. He said that it should not be a question of lodgings for this would not present a problem. He said that this had been put forward in respect of the same time there was a house available which would not be occupied.

The question of commenting further on the White Paper was then adjourned to give members a better opportunity of studying it more closely.

**Houses At Ballygunner**  
On the proposal of Ald Wm Kenneally TD seconded by Mr J Ormonde TD it was agreed that the new houses under the Non-Municipal Towns and Villages Housing scheme at Ballygunner Waterford. This was a sequel to a letter which was submitted by the Co Medical Officer Dr M. O'Farrell when he dealt with the problem of upholding a demolition order following condemnation of houses by the authorities. The need for new houses in the area was caused by the existing houses were condemned as being unfit for human habitation. In his letter Dr O'Farrell stated that presumably the intention of the Council would be to re-occupy the houses of the Ballygunner houses but some time ago when a tenant of one of the condemned houses obtained the tenancy of a Co Council cottage a demolition order was served on the landlord in respect of the vacant house. The landlord took the case to Court and the Judge refused to authorise the enforcement of the order. Dr O'Farrell stated that in the event of a demolition order should proceed there was no reason to suppose that further demolition orders issued in respect of the condemned houses in Ballygunner would be sustainable. It was Dr O'Farrell's opinion that the new houses should be reached the stage where some standard would have to be recognised by someone in determining whether or not a house was fit for human habitation in the eyes of the law. In the Waterford city case concerning the Ballygunner houses the Council engineers and other officials, including a doctor had given evidence that the house in question was not fit for habitation but the Judge held that this was not so even though he had not even seen the house. Dr O'Farrell in view of all of this suggested that the question of the demolition of houses there should be deferred.

Ald Kenneally TD, went back to Waterford and during the past week called on the tenants of the Ballygunner houses to let out if they wished to move into new homes. Of the seventeen tenants fifteen of them wanted to move as soon as possible.

When it was stated by the Architect Mr Morrissey that they had a site available Ald Kenneally replied that there was no reason why the houses should not be built and accordingly made the proposal which was seconded as stated and unanimously passed.

No reference was made to the future of the existing Ballygunner houses. Whether they will be re-occupied on the completion of the new scheme or demolished remains to be seen.

**Tramore Housing Scheme**  
On the proposition of Mr E Power seconded by Mr R Barron the Council members protested in the strongest possible manner at the unwarranted delay in the commencement of the Tramore Housing scheme. They pointed out in their resolution that with rising costs the long delay in the implementation of the scheme will have the effect of steeply increasing the cost and as a result the ultimate rent to the tenants. The resolution called on the Minister and the Department of

ACKNOWLEDGMENTS The widow and relatives of the late John Power Ballinamona Dist. Parish desire to thank most sincerely all those who sent Mass cards and messages of sympathy in their bereavement especially the Priests of the Parish and particularly all the kind neighbours who were so helpful in their sorrow and they trust this will be accepted by all in grateful

RYAN-Mollie Egan and relatives of the late Patrick Ryan 13 Main Street, Dungarvan, wish to thank all those who sympathized with them in their recent bereavement those who sent Mass cards, telegrams and letters of sympathy also those who were present at the re-remains and burial. Trusting this will be accepted by all in grateful acknowledgment

IN MEMORIAM

FLYNN-(Sixth Anniversary)-Pray for the soul of Thomas Flynn Coolinagour House, Dungarvan, who died August 15th, 1946 (Masses offered) (Inserted by his son Thomas and family, Knockaun House Grange)

Our 'Phone No.-Dungarvan 55

Dungarvan Leader

SATURDAY AUGUST 16 1952

News Of The Town

And Round About

NIGHT AFTER NIGHT-

There is consistent demand for Mitchell Crispy Chips - simply because they're good. Best quality Table Potatoes, quick drying, plus a special cooking process has made them firm public favourites. Never oily or re-heated but always freshly cooked and served piping hot at 3d, 4d and 6d per packet at DOHERTY'S DUNGARVAN.

GO WATERFORD SHEEP-BREEDERS ASSOCIATION

A general meeting of above will be held at the courthouse, Dungarvan on Wednesday evening next, 20th inst. (Fair Day) at 4 pm (ST) in connection with the Annual Show and Sale of Black Faced Mountain ewe packets. (Aug 17th).

COLLECTION OF THE PARISH CLERK

The Annual Collection for Clerk of the Church will be taken up at all the Masses on next Sunday (Aug 17th).

GOLF NOTES

The Open Day at Ballinacourt proved a great success. Apart from a somewhat troublesome wind the weather was very good and the general standard of play was excellent. The Greens particularly showed the results of the rain the week before and the fertilizer which had been applied.

The entries have been treated with the utmost care and over one hundred competing in the two competitions. Over 40 went out in the P I Power Cup and the morning and about 60 in the afternoon. The competition against Bogey the following clubs were represented - Cork Youghal, Fermoy, Mitchelstown, Carrick-on-Suir, New Ross, Ascot, Newlands, Dublin and Clonmel.

Dungarvan Club was well represented in the results which are given hereunder. C J Murphy was beaten by one stroke for the P I Power Cup, and a very hotly contested one was that of the Captain (P I Power) Rev Fr Jordan, O.S.A. in the Revival v Bogey.

P I Power Cup - 1 James Kennedy (18) Carrick-on-Suir 69 2 J Murphy (13) Dungarvan 70 3 Best 78 - Dr R Ahearne

Fourball v Bogey - P I Power and Rev Fr Jordan O.S.A. won the second nine from Rev Fr O'Mahoney and M Holton, both of Mitchelstown with a score of six up.

Putting Competition was won by M O'Leary, Fermoy.

Next week there will be another big day. Given first prize in the Open Mixed Foursomes which will be played throughout the day should provide a very pleasant competition.

The recital given by the Erin's Hope Band, Waterford in the Square, Dungarvan, on Sunday last when they played a very fine selection of music in perfect harmony was much appreciated by those who were fortunate enough to hear them. A much bigger audience would have been present had the band been visited before.

Dungarvan has an unusually large number of visitors at present more so than any other previous year. Many are natives from home, from England and on holiday while others are making the acquaintance of the Old Boro and the beauties of the surrounding districts for the first time. We hope all will enjoy a happy time.

DUNGARVAN & ABBEYSIDE PIGEON CLUB

The following is the result of the first "Young Bird Race" August 10th - 41, Michael A Brennan 43 mins 31 sec, Daniel Lennhan 43 mins 33 sec, 3 Patrick Noonan 44 mins 51 sec, 4 George Tutty, 46 mins, 2 sec.

Next week Ballybrophy, Sunday August 17th.

ANTI-TUBERCULOSIS SURVEY - EVIDENT PUBLIC POWER

Great progress is being made by the National Tuberculosis Survey in its anti-TB drive in Dungarvan. To date 1250 people have been first tested. Loughmore-Cathal Brugha area the mobile unit has moved in turn to Wolfe Tone Road, Mitchell Street, Keating Street, Stephen Street and Western Terrace.

The Justice said that as the defendant had come back voluntarily from England to answer the charge it was very much in his favour and he was prepared to deal with the case by imposing a fine of £1.

HIS TRADE

Judge "What is your trade, my good man?"

Accused (caught in raid) "I am a mechanic and a first-class mechanic at that your honour."

Judge "What were you doing in the pub after hours when the police entered?"

Mechanic "I was making a bolt for the door."

It isn't the high cost of living as much as the cost of people living too high.

WHITE PAPER ON HEALTH SERVICES

New And Extended Services To Be Provided.

The Government's proposals for new and extended Health Services as disclosed in a White Paper published last week will benefit in particular two sections of the community the lower and the middle income groups in broad terms the lower income group will be provided with full medical, hospital and specialist services while a full hospital and specialist service other than general practitioner care will be made available for the middle income group. The farming community within these groups is included in the scheme. In addition persons outside these groups may be eligible for specialist care. Under the proposals for a Mother and Child Service medical care will be available for all mothers and for children up to the age of 6 weeks.

The new services will be provided by local authorities and they will in general be free of charge. There will be no charge for anyone to use any of the services, such as dental, infectious diseases and tuberculosis services will be continued and in some cases eg the Public Assistance Service expanded to improve the services.

Lower and Middle Income Groups - The lower income group as defined in the Paper corresponds to the present Public Assistance class while the middle income group consists of (a) persons compulsorily insurable under the Social Welfare Act 1952 or dependants of such persons or (b) persons whose main income is derived from farming and the rateable value of whose holdings (land and buildings) does not exceed £50 or dependants of such persons or (c) persons whose family income does not exceed £200 a year or dependants of such persons.

Hospital and Specialist Services - These services will include maintenance and treatment in local authority hospitals (including mental hospitals and mental defective institutions) and in other hospitals participating in the Scheme. Specialized diagnosis and treatment in specialist level in such hospitals and in authority clinics together with X-ray laboratory tests and essential medical and surgical services. They will be available for (a) Persons in the lower and middle income groups including farmers in these groups (b) Women in respect of whom it is stated that it will be necessary to give priority in admission to hospital maternity to cases requiring hospital attention on medical grounds or on grounds of social need (c) All children under the age of 6 weeks (d) Pupils of national schools for defects discovered at school examinations (e) Persons outside the lower income group whose family income exceeds £200 a year but who would suffer severe hardship if not regarded as eligible.

Medical Care in respect of Motherhood - Medical care will be available for all women in respect of motherhood. A woman may make arrangements at her choice with any doctor participating in the Scheme who is willing to act as a patient. All doctors will be eligible to participate by a capity will be remunerated.

Maternity Cash Grants - A cash grant of £4, additional to any grant or allowance payable under the Social Welfare Act, 1952, will be paid in respect of every confined person in the lower income group. Child Welfare Clinics similar to those already in existence in Dublin are being established generally. They will be available to pre-school children. Medical care and advice will be provided without charge at these clinics for all children.

Child Medical Service - The existing system of school medical service reorganised on adequate basis will be continued. Additional staff will be recruited and school medical examinations will be carried out much more frequently than at present. The medical examinations will be available to all school children and as indicated to hospital and specialist services will be available without charge for pupils of national schools in respect of defects discovered at school examinations.

Nursing Services - Nurses will be available to assist at the clinics conducted in connection with the Public Assistance and Child Welfare School Medical Services and to carry out follow-up work in connection with the services. They will also be available ultimately to provide, when required a general advisory service in connection with the home nursing of persons in the lower and middle income groups.

Dental and Ophthalmic Services - Improved dental and ophthalmic services will be made available free of charge for (a) the lower income group, (b) children attending Child Welfare Clinics (in respect of defects discovered at school examinations) (c) pupils of National Schools (in respect of defects discovered at school medical inspections).

It is intended at a later date to extend by stages the scope of the dental and ophthalmic services and to make them available to all persons in the middle income group. A charge not normally exceeding half the cost of the service will be on a voluntary basis. Encouraged and assisted instead of providing a service local authorities may in certain circumstances make arrangements for its provision by a voluntary agency. Payments to the voluntary hospitals at an agreed rate will be made in respect of hospital and specialist services provided by them. Such services will be on a contract basis and the autonomy of the hospitals will not be affected.

Dungarvan U. D. C.

Town Hall Improvements Scheme

Reference To Absence Of Ratepayers Members

"Moresby Stone" To Be Cleaned.

Mr N Kelly, Vice-Chairman presided at the usual meeting of the Dungarvan U.D.C on last Friday night and despite the fact that there were twelve items on the agenda the meeting had concluded its business in an hour.

Present were Messrs T Lee, T McCarthy, T Kyne, T D Walsh, Mr E Deery Town Clerk was in attendance.

The Vice-Chairman stated at the outset that as the Chairman Mr T Lannen was away in England he would be unable to attend the meeting and wished to apologise on his behalf for his absence.

Mr Lee complained that despite his previous complaints people were still dumping refuse at the Springs and no notice had been erected there today.

Mr McCarthy said that the notice at the end of the lane at the back of the Church should also be painted.

"Moresby Stone" Mr McCarthy referred to the memorial plaque in the factory wall at the Look-Out commemorating the rescue attempts of the crew that went out to the Moresby and said that the inscription on it could hardly be read now.

As long as Dungarvan is a town the Moresby Stone should be looked after as the men who went out so bravely to the Moresby should be remembered.

Mr Kyne said that the letters on the stone needed to be cleaned and all the members agreed that this be done and the matter was referred to the Engineer.

Rents At Caseyville The Clerk referred the members to the order made by the Manager following the Council's recent decision to reduce the rents at Dr Caseyville by a sum equivalent to 1/- in the £ on the rates.

The order was as follows: "That the U.D.C. be informed that a scale of rents which had been submitted to the Council has now been submitted to the Department for approval and that no further action on the matter can be taken pending the Department's decision."

Mr Kyne well I suppose it is his function to do as he thinks fit but the Council can also have their views on it.

Mr Lee - The rents there are very high for workmen and some of them will have to get out before long.

Mr McCarthy - I know many tenants who left their old homes to go up there under the impression that the rents were going to be reduced by 4/- a week but we can't reduce the rents by that, then were going to lose those tenants.

Mr Kyne - There's provision made under the 1942 Act that provided a resolution signed by five members of the Council a special meeting can be held at which this resolution can again be passed which will make it mandatory on the Manager to carry it out.

Mr McCarthy - Then let us hold such a meeting.

Chairman - I agree with the remarks of Mr McCarthy and I say there's no use giving houses to people and having to evict them again in a few months because they can't pay their rents. Our job is to look after the workmen.

Mr McCarthy - What's badly wanted is a Town Tenants League like they had here in Cork and with the proper men at the head of it.

Finally the five members present signed the resolution to hold a special meeting which was fixed for Thursday night, August 14th.

Town Hall Improvements Scheme

A letter from the Department approved the full contract of £6,340 originally submitted by Messrs John McGrath Contractors Dungarvan.

The letter added that the substantial savings suggested by the Architects to reduce the contract by approximately £560 should now be accepted as the Department were in favour of the original suggestions included in the full contract price. The letter also said that the necessary financial bond should be entered into by the Contractors.

Mr Kyne - Now this is one of the items which those who say they represent the ratepayers were supposed to look after but there's none of them here at night. However there is enough of us here now to guard the interests of the ratepayers and I think it's the duty of the Department say we should carry out what the Architects have suggested as the substitutes suggested by them are reasonable and good and will not mean that a good job will be done. The saving of £560 is a good one.

Mr Walsh - Yes we're here to look after the ratepayers' money.

Mr McCarthy - Is there any idea when the work on the hall will start?

Mr Deery - I understand the work will start next week on the reduced estimate. The all-in cost of the work including fees, contract, etc. will be £6,320.

On the proposal of Mr McCarthy a resolution was passed approving the raising of a loan of £6,320 from Council's treasurer to be repaid over a period of fifteen years.

Medical View of Health Proposals

Statement By I.M.A.

The following statement was issued yesterday by the Irish Medical Association -

The Irish Medical Association has received from the Department of Health copies of the White Paper containing the Government's proposals for improved and extended health services together with a letter from the Minister for Health stating that the Association may wish to put forward regarding the implementation of the proposals.

The Association by virtue of its constitution must await the views of the members of this body in the meantime it would appear that the sketchy proposals contained in the White Paper indicate a further step in the direction of State control of medicine.

The proposals outlined in the White Paper do not compare with the scope or merit of the voluntary insurance scheme which has been submitted by the Association and rejected by the Minister for Health.

The White Paper published at the end of last month in its proposals benefited two main sections of the community the lower and the middle income groups. The first it proposed would be provided with full medical hospital and specialist services. Other than general practitioner care would be available for middle income groups. The scheme included the farming community. Under mother and child service medical care would be available for mothers and children up to six weeks.

The new services it was stated would be provided by local authorities and generally they will be free of charge.

A financier is a man who lends an umbrella when the sun is shining and wants it returned when it starts to rain.

WATERFORD COUNTY COUNCIL

(Continued from Page One)

Local Government to expedite the acceptance of the recommended tender so that the work can be commenced forthwith. Mr Doyle, Housing Engineer in reply to a question stated that he would be prepared to tackle the job.

It was agreed to await the Department's reply to their resolution before taking any further action in the matter. Export of Store and Bacon Pigs.

Mr Hartly proposed a resolution calling on the Department of Agriculture to allow the export of store and bacon pigs to Northern Ireland owing to the present glut of them in the Twenty-six counties. Mr Hartly pointed out that it was the general feeling that the Minister would allow this there would be a big relief in the present serious position.

Mr M McGrath seconded the proposal which was passed unanimously.

The matter was raised at the meeting due to the fact that there will be no meeting of the Waterford Co. Committee of Agriculture this month.

Agricultural Shows Successes A resolution congratulating Mr Larry O'Byrne Ashtown Kilmacthomas on his outstanding successes at Agricultural Shows in the provinces and in Dublin was passed unanimously on the proposition of Mr Hartly, seconded by Mr Ormonde.

Water Supply Mr E Power raised a matter dealing with the erection of a number of houses in Tramore by a private company stating that when the builder applied for a supply of water for use on the job he was promised it without delay. It was some time ago and the man was still waiting for it. Mr Power stressed the urgency of the matter and asked to have it attended to immediately.

The County Engineer agreed to look into it at once.

Miscellaneous Mr Kyne proposed that a barking pan be provided at Hellick for the local fishermen and Mr Hartly seconded the resolution which was passed unanimously.

On the proposition of Mr Kyne seconded by the Chairman a resolution was passed as follows - That the Council scheme of Supplementary Housing grants be amended so as to allow payment of grants to persons otherwise qualified who commenced construction of a house prior to April 29th 1952 notwithstanding that the house was not completed prior to the date of April 1952.

Resolved - That the employment of local labour on Co Council schemes were made by Mr Kyne and Mr D Heskin when a long discussion took place dealing with the position on the Tallow. Mr Hartly proposed that every step should be taken to see to it that all contractors doing work for the Council should be held to the same standard as those who employ local labour. It would then be violating the contract and there was some reason for complaints at present.

Mr Kyne pointed out that this was not a political complaint and did not point to one contractor but to many.

It was agreed that steps be taken to ensure that the contractor complies with his contract in the future.

Notes of sympathy Sympathy was extended to the family of the late Mrs Murphy and the late Mr P Ryan Dungarvan on the proposal of Mr Mansfield seconded by Mr M Hartly.

Late Mr John Power, Ballinamona, Old Parish

It is with the deepest regret that we record the death of Mr John Power Ballinamona Old Parish which occurred after a protracted illness and at an advanced age on July 11th last.

The late Mr Power was a noted blacksmith and was credited with being the best man at his trade in the south of Ireland and Power's forge Ballinamona was a well-known rendezvous with all the farming community who rely so much on a blacksmith's art. Their many requirements. His constant aim was to turn out nothing but perfect jobs and his great ability will continue to be evidenced in the work of Mr P J Cahill Old Parish who learned the blacksmith's art from such a master as the deceased. His passing will prove a great loss to the farming community and we hope he served so faithfully and well for so many years.

A very large and most representative cortege attended the removal of the remains to Old Parish Church on July 12th, consisting in no uncertain fashion of the most distinguished gentlemen in which deceased was held and also at the interment in the family plot in the adjoining cemetery after Mass on July 13th.

Rev Fr J Corbett, P.P. and Rev Fr J Wall, C.C. officiated at the obsequies.

Chief mourners were - Mrs Power (widow) Miss Bridget Power and Mrs Ryan, Yonkers (sisters) and the nephews, nieces and other relatives of the deceased and in America.

The man who understands women is qualified to understand everything and is a bachelor.
