Demoktion of Dangerous Cor-

ner.—At long last the Water-ford County Council have de-cided to widen the near corner of Parks Road This corner consists of a very high wall and has a 90 degrees angle It is touching on the street leading to the Convent School, and we are very happy to report that there was never an accident there, though many a cyclist got plenty of bad frights when coming round it. It is next to a miracle how the children coming and going to school escaped without injury, as it certainly was a death trap Now at any rate this corner is being very much widened and the salety of all pedestrians and is a much-needed improvement of Liston wild daisies press definition of the people of Liston of the banks of my own lovely thankful.
