Ardmore In The Limelight

A Review Of Its Organising Progress

Not many years ago Ardmore was just a small ordinary seaside village with no amenities no organisations, in fact it lay off the beaten track in every

But today the visitor or any other interested person who comes for a holiday or pays a return visit will experience the great awakening to a modern atmosphere. The organisation in this village today, no longer a mere simple seaside village has grown and is rapidly in every year At the present time it has the proud previlege of possessing many of the great national organisations that are a unit in the progressive trend of an Irish modern seaside re-

Presently growing stronger and stronger, and more enthusiastic every year is the GAA Club Its Committee and members including the late lamented Martin Hurley—RIP have fought battles against great obstacles to keep the unquenchable flows hurring in the able flame burning in the hearts of the teams past and present and for this great perseverance a special word of credit is due to Mr. Michael Cul-len and his Committee mem-

bers, as well as the team Then we have the village band which is just in its foun dation stage (started only a few months ago) Of course as this band is just starting it needs monetary assistance which means a lot on the road to success At the moment the band has a number of musical instruments but still more are needed In order to raise the necessary funds a raffle is presently being run and anyone interested will get full particulars horn cow the property of Wm from Mr Michael Mansfield Ardmore the young man who is well known to all both far and wide and who is leaving no events as this are forbodings of high standard and position are not seven and light expressed light standard and position are constant.

and wide and who is leaving no stone unturned to make the Ardmore Accordeon Band a success

Then there is that grand and noble organisation which only a few villages in Ireland can boast of and that is the District Nursing Association This organisation was started here some years ago by a number of charitable ladies (including our esteemed and ever-popular friend Lady Anson) to look after the poor the sick and infirm Surely of all societies or organisations we think that this one is indeed the most deserving In the past true to say the responses have been exceedingly generous and it is to be hoped the future responses will be equally or even more generous

The older generation said such ligh standard and position weens this are forbodings of ligh standard and position among juveniles and adults (3) Re-organised the St Patricks Day Parade and Celebrations (4) Formed a Geal Band (5) Formed a Geal Band (5) Formed a Geal Band (6) Have brought such personalities as Leo Rowsome Michael O Duffy and Delia Murphy and Delia Murphy and Delia Murphy as usual both large and representing you with your own Pipers Band Greatest credit is due to be hoped the future responses will be equally or even more generous

**POTATOES PIGS POULTRY** 

If the farmer with a limited acreage is to make a decent living for himself and his family he must grow crops that give a high production of stockfeeding per acre

An acre of potatoes, if well treated, will produce feeding equivalent to 3 tons or more of maize

Potatoes or potato silige and home-grown grain used in balanced rations will lower production costs and ensure bigger profits from pigs and poultry

# To get the hest results from your potato crop:

- (1) Plant certified seed of a high yielding variety such as Arran Banner.
- (2) Manure generously
- (3) Spray early, spray thoroughly and spray at least twice.
- (4) Make potato silage

Ask your Agricultural Instructor for advice on the growing and feeding of potatoes
