# Dungarvan Leader

AND SOUTHERN DEMOCRAT

Vol. 16. No. 825 SATURDAY, OCTOBER 16, 1954 REGISTERED AT THE GENERAL POST OFFICE AS A NEWSPAPER. PRICE—3d.

**BEHIND THE SPOTLIGHT**  
with PENSMAN

**PRESENTATION**  
As a token of their appreciation of his long term as Chairman, during which much progress has been made to improve working conditions and wages, the members of the Dungarvan branch of the Irish Union of Distributive Workers and Clerks recently presented Mr. Jack Murphy, the popular Manager of the Provision Department of Messrs K. Williams & Co. Ltd. Dungarvan, with a beautiful wrist watch which was suitably engraved.

On the same occasion Mr. T. D. Smyth, Vice-Chairman of the Branch, was also presented with a silver mounted cane.

The presentations were made to Messrs Murphy and Smyth on relinquishing their positions after a decade of years.

**ANNUAL COUNTY WATERFORD BALL**  
The following note has come to hand from John P. Creagan, Secretary of the County Waterford Association of New York.

"The Annual Waterford Ball will be held at the Concourse Plaza Hotel, 162nd Street & Grand Concourse, Bronx on Friday evening November 12th 1954.

This notice is to call your attention to the change from Saturday to Friday evening. This change was made for reasons beyond our control. We do hope it will be convenient for you to attend otherwise everything will be the same as in previous years. Music by Jim O'Connor's Orchestra (8 Seats) \$15.00 General Admission Tickets, \$1.50. For reservation call any of the following: New York—Dugan, WA 8-4416. D Flynn, YO 9-6829. Yonkers—F Murphy, YO 9-4366. Robert C. McGrath, President, Denis Flynn, Chairman of this column should note the change mentioned in the letter.

**DUNGARVAN'S OLD TOWER**  
I noted in last week's issue of the Leader, that Mr. J. F. Gibbons drawing attention to the need of doing something to preserve the old Tower attached to the Castle at Dungarvan before it becomes a dangerous ruin. I was glad to see him focussing attention on the tower and if I may, I add my voice to his and call on our Ancient Monuments Committee to take the matter in hands before it becomes too late. It is worth while to preserve these old landmarks which form a visible link with the historic past as they bear witness for the present generation of the life and times of our people in the dim distant ages of the past.

**STIRRING TIMES RECALLED**  
The death last week-end of Mr. John Dee, Mitchell Street, Dungarvan, recalls many of the stirring incidents in the locality during the dreaded Black and Tan era. Although not actively associated with the IRA movement, himself and other members of his family were, John Dee was always sympathetic with the "boys on the run" and whenever the opportunity came his way to help he was not found wanting.

His great moral courage was displayed in particular on one occasion. It was in the month of May in 1921, just a month before the ill-fated Truce was signed. The local IRA column had blocked the road at Ballymacnaghe by firing a barrage across the roadway. When the Tans found it they drove into Dungarvan. It was a Holy-day of Obligation and many of the townsmen were about. The Tans commanded a working party one of which was the late John Dee. Arrived at the road-block the men were ordered to clear the obstruction but John Dee objected strenuously to working for the British Forces. He was beaten unmercifully as a result.

This was not the only occasion on which the late John Dee displayed his National inclinations, at a time when even the

**DEGRADING REMARK**  
(To the Editor)  
Dear Sir—As an ardent reader of your local paper the Leader I wonder if you would allow me a space just to give my view on a recent Dungarvan UDC meeting about new houses with no bathrooms. Surely to goodness the people of the town are not going to stand for the remark. As we all know those are the very people that should be supplied with a bathroom, as those are the people who do the hard dirty jobs. It's about time the working class people in Elre had some one to look after their affairs. As a matter of fact it should be made compulsory by the Health Minister to arrange for the people in their homes as we all know that DIRT is the cause of all diseases, especially TB.

Much obliged,  
J. GANILL

**LATE MR. DAVID POWER, O'CONNELL STREET, DUNGARVAN**  
As briefly recorded in our last issue the regretted death of Mr. David Power, Garage Proprietor O'Connell Street Dungarvan, occurred at an early age at a Dublin Hospital on Thursday, 7th October.

The late Mr. Power had been ailing for a considerable time and although his passing was not altogether unexpected still when the sad news reached Dungarvan it cast a deep gloom over the town where the deceased was so well and popularly known in his business as Garage proprietor, he was held in the highest esteem by his colleagues throughout the country, and his popularity drew a big clientele from all over the county.

In the social and sporting spheres David Power had many friends and was very much interested in car racing and was one of those responsible for bringing the Tipperary Light Car Club's Annual Speed Hill Climb to the town. He was a founder member of the Dungarvan Rugby Club also a founder member of the Dungarvan Gun Club, while he also was keenly interested in the activities of the local Swimming Club.

During the Emergency years he was District Staff Officer No. 1 of the Local Security Force in the Dungarvan area which embraced the districts of Dungarvan, Cappagh, Clashmore, Ardmore, Ring and Leamybrien, a position which he filled with efficiency and distinction up to the disbanding of the Force.

Despite failing health in latter years he displayed great courage and continued to be actively associated with his business practically up to the very end. He was never known to complain and always had a cheerful outlook and this earned for him the unbounded admiration of all who knew him.

His mortal remains were removed to St. Mary's Parish Church, Dungarvan, on Thursday evening, 7th October, where they were received by Rev. Fr. D. O'Byrne, C.C., assisted by Ven. Archdeacon Power, P.P. Rev. Fr. Murphy, C.C., Rev. Fr. Daly, O.S.A., and Rev. Fr. Geary, O.S.A.

On Friday morning Solemn Office and Requiem High Mass was celebrated for the repose of his soul. Ven. Archdeacon Power, presided. The celebrant was Rev. Fr. M. O'Meara, C.C., Cappoquin (brother-in-law), deacon was Rev. Fr. M. Walsh, C.C., Abbeyside, and sub-deacon Rev. Fr. J. Morrissey, C.C., Kilgobnet.

In the choir were—Very Rev. J. Roche P.P., Abbeyside; Very Rev. Fr. J. Lavin, C.C., St. Mary's, Clonmel; Rev. Fr. P. Farrell, C.C., St. Mary's, Dungarvan; Rev. Fr. D. O'Byrne, C.C., do; Rev. Fr. J. Murphy, C.C., do; Rev. Fr. J. Murphy, C.C., Ballinacorney; Rev. Fr. Leahy, O.S.A., Dungarvan; and Rev. Fr. Curran, O.S.A., do.

Subsequently the interment took place in the adjoining cemetery in the presence of a huge concourse who had come from all parts to pay their last respects to one of Dungarvan's most popular residents.

(Funeral arrangements were carried out by James Kieley & Sons, Undertakers, Dungarvan.)

**AN APPRECIATION**  
To have known the late John Meany was to have known one of nature's gentlemen. He left behind a love of little things, transcending all the little hills of the Waterford he grew to love. All these he left behind, particularly the laughter of little children whom he loved so much. He was a noble soul, loyal kind, and true, with a heart that was ever open to the needs of others. He was a man of many talents, a founder member of the Dungarvan Gun Club, while he also was keenly interested in the activities of the local Swimming Club.

During the Emergency years he was District Staff Officer No. 1 of the Local Security Force in the Dungarvan area which embraced the districts of Dungarvan, Cappagh, Clashmore, Ardmore, Ring and Leamybrien, a position which he filled with efficiency and distinction up to the disbanding of the Force.

Despite failing health in latter years he displayed great courage and continued to be actively associated with his business practically up to the very end. He was never known to complain and always had a cheerful outlook and this earned for him the unbounded admiration of all who knew him.

His mortal remains were removed to St. Mary's Parish Church, Dungarvan, on Thursday evening, 7th October, where they were received by Rev. Fr. D. O'Byrne, C.C., assisted by Ven. Archdeacon Power, P.P. Rev. Fr. Murphy, C.C., Rev. Fr. Daly, O.S.A., and Rev. Fr. Geary, O.S.A.

On Friday morning Solemn Office and Requiem High Mass was celebrated for the repose of his soul. Ven. Archdeacon Power, presided. The celebrant was Rev. Fr. M. O'Meara, C.C., Cappoquin (brother-in-law), deacon was Rev. Fr. M. Walsh, C.C., Abbeyside, and sub-deacon Rev. Fr. J. Morrissey, C.C., Kilgobnet.

In the choir were—Very Rev. J. Roche P.P., Abbeyside; Very Rev. Fr. J. Lavin, C.C., St. Mary's, Clonmel; Rev. Fr. P. Farrell, C.C., St. Mary's, Dungarvan; Rev. Fr. D. O'Byrne, C.C., do; Rev. Fr. J. Murphy, C.C., do; Rev. Fr. J. Murphy, C.C., Ballinacorney; Rev. Fr. Leahy, O.S.A., Dungarvan; and Rev. Fr. Curran, O.S.A., do.

Subsequently the interment took place in the adjoining cemetery in the presence of a huge concourse who had come from all parts to pay their last respects to one of Dungarvan's most popular residents.

(Funeral arrangements were carried out by James Kieley & Sons, Undertakers, Dungarvan.)

**DEATH OF MR. JOHN DEE, MITCHEL ST., DUNGARVAN**  
Deep sympathy has been occasioned by the death after a short illness, of Mr. John Dee, which occurred at the Dispensary, Dungarvan, on Friday last, 11th October. Mr. Dee, of a well-known and highly esteemed family, the deceased was uncle of Rev. Fr. W. J. Dee, C.C.

A long lover of music, the late John Dee was during his lifetime, a member of both the Priory and St. Mary's Parish Choirs. He also acted as Secretary of the Dungarvan Literary Club for many years.

During the War of Independence, in which many of his family were actively engaged, he proved helpful in many ways as a tribute to his work as a volunteer. His coffin was draped with the tricolour when his mortal remains were removed to St. Mary's Parish Church, on Saturday evening, and also as it was being re-moved to its last resting place in the adjoining cemetery on Sunday after last Mass.

Rev. Fr. J. Murphy, C.C. officiated at the obsequies which were attended by very large and representative corteges fully expressing the respect and esteem which the community enjoys amongst the community. The members of the Conra Na Gaelige Pipers Band, of which Mr. Jerry Dee, nephew of deceased is Pipe Major, attended the obsequies in their uniforms.

**LOOK OUT FOR DUNGARVAN DISTRICT GARDA SIOGHANA DANCE**  
TO BE HELD AT C.S.M. BALLROOM, CLONEA  
On Sunday Night November 28th.  
Full Particulars Later

**LATE MR. JOHN MEANEY MITCHEL STREET, DUNGARVAN**  
The late Mr. John Meany, Mitchell Street, Dungarvan, whose regretted death occurred at St. Joseph's Hospital, Dungarvan, after a brief illness on Thursday, 7th October, had served as a faithful outdoor official of the Dungarvan Postal Staff for forty years.

A native of Kilgobnet, Co. Clare where he joined the Postal Service, John Meaney, came to Dungarvan as a young man and during the ensuing years made countless friends. He enjoyed a wide measure of popularity, and his gentle and courteous manner earned him an abiding esteem amongst the townspeople.

After a lifetime of faithful service he retired on pension two years ago. His trim dapper figure will be missed from amongst us.

At the removal of his remains to St. Mary's Parish Church on Friday evening, a most representative cortege attended. Holy Mass was celebrated for the repose of his soul on Saturday morning and later in the day, the interment took place in the adjoining cemetery in the pres-

**DUNGARVAN U.D.C.**  
NEW HOUSES NAMED MARIAN PLACE  
South Wind Bad News For Murphy Place Tenants

In the absence of the Chairman and Vice-Chairman, Deputy T. Kyne was moved to the chair at the fortnightly meeting of the U.D.C. held on last Friday night at the Town Hall, Dungarvan. Present: Messrs T. Lee, M. J. Keane, and later R. Walsh.

Mr. P. Walsh, Borough Surveyor, and Mr. E. Deery, Town Clerk, were in attendance.

In his monthly report on the above, the Engineer stated that all outstanding repairs with the exception of the downpipe had now been attended to, and this had been reported to the Architect. The fact that the same work was being kept in a reasonably good state by the caretaker.

**Winter Relief Scheme.**  
With regard to the annual winter relief scheme grant, the Engineer submitted three schemes for the approval of the Council. These included the erection of a breakwater at the Pond, Abbeyside, (cost £378 5s) the laying of a footpath by the sea-wall at Quann's Strand (cost £449 8s 0d) and the laying of a footpath through the old Churchyard (cost £201).

With reference to the second mentioned, the Engineer said that the reason he had put in was that the sea-wall at Quann's was beginning to show signs of needing repairs. The sea-spray was breaking over the wall at times and the water was washing down being and washing away clay and mortar joints. If a path was built along it it would prevent the water from doing this.

Mr. Keane said that Quann's was a very attractive spot for the townpeople in summer time but when the tide was out it presented an ugly scene due to all the rubbish that was dumped there. He suggested that the money could be used to sink groins there which would keep the sand from being washed back by the tide. He pointed out that such groins proved a successful project at Youghal.

Mr. Walsh said that before sinking the groins he would require a lot of information as regards the tides and currents and as the continuation wall around the Swimming Pool had been envisaged he thought it would be wiser if Mr. Keane's suggestion was deferred to a later date.

Deputy Kyne said that it would be a very good idea if the promenade walk could be widened around to the Youghal Road. He pointed out that this was the idea when it was originally started.

The Engineer asked if it would not be made the subject of a special grant.

Deputy Kyne—I think it might.

Mr. Keane said that all he wanted at Quann's was something to be done before the start with to see if it would be a success. It would not cost more than £25 he thought to find this out.

The Engineer said that he would look into it.

With regard to the breakwater at the Pond, the Engineer said that there had been a request for this from the fishermen and what he had in mind was a wall about 30 feet long which he thought would meet the demand.

In view of the proposal to develop Boreenara as a housing site, the laying of the footpath through the Old Churchyard was also favoured.

Mr. Keane said that in the scheme the cost of £2,400 was concerned and as the meeting was a small one he suggested that the matter be adjourned for the attendance of the other members at next meeting.

Deputy Kyne said that the matter was on the agenda for that meeting and if the members concerned were interested they should be present.

Mr. Keane—Members may not be able to attend for one reason or another.

Deputy Kyne—Oh if there's a reasonable excuse for their absence I'm not against deferring it.

The Clerk stated that the scheme was laid this year and if it was to be sanctioned it would be dealt with without delay. It was then decided to adjourn it to the next meeting, but to deal with it definitely then.

Should Have Transatlantic

Proposing the adoption of a resolution from Bray U.D.C. calling on the Minister for Industry and Commerce to examine the possibility of providing nationally owned ships for the transport of visitors to Dun Laoghaire and Howth, Deputy Kyne said that he agreed strongly with the resolution and he added that instead of providing transatlantic air Liners, the Government should purchase a single liner to bring people from America so that Irish emigrants could travel home on holidays in their own boat.

The resolution was unanimously adopted.

**Public Lighting**  
With reference to a proposal from the E.S.B. concerning the renovation and extension of public lighting at Dungarvan, Mr. Lee said that a light was badly needed at the ball alley. The Clerk stated that no other complaints about lights had been received, and it was agreed that the Engineer consult with Mr. Cassidy, E.S.B. on the matter.

**Wind From The South**  
Messrs Joe Meehan, 60, Murphy Place, and J. Cashman, 20, J. came before the meeting and complained that when the wind, accompanied by rain, blew from the south all the rainwater was blown under their front doors into their hallways. They suggested that the only solution to the problem was the erection of small porches.

The Engineer said that this was a very difficult problem, and while the erection of a porch would solve the difficulty the position was that if porches were erected for two tenants, all would be looking for them. He mentioned a patent draft excluder which he said might prove effective, and he asked for the Council's permission to experiment with it. The cost would not be a lot he added.

It was agreed to leave it to the Engineer.

**Repairs**  
Mr. Walsh referred to repairs to the door of Mr. Langan's house at 42, Murphy Place, repair items in respect of 38, Congress Villas (Mrs. Mallon), and 65, Congress Villas (Mrs. E. Duggan) were also dealt with and all were referred to the Engineer.

**To Be Called Marian Place**  
When an item on the agenda concerning the numbering of houses at Stranmillis North came up, Mr. Walsh considered Deputy Kyne said that in view of the fact that this was the Marian Year he thought that the word Marian should be included in any name which the houses would be called such as Marian Row or Marian Villas.

Mr. Keane then proposed that the houses be called Marian Place and Mr. Walsh seconded. The Clerk told Deputy Kyne that it was the right of the Council to name the houses and the resolution was then unanimously passed.

**At New Road**  
Mr. Keane said that he had been informed that a wire had been strung across the mouth of the New Road at Abbeyside which obstructed people who wanted to go down to the strand there.

The Engineer said that he had been along that way earlier in the day and had not noticed any wire.

Deputy Kyne said that the wire could have been placed there to keep horses in rather than to keep the people out. The Engineer was directed to keep an eye on the place.

**Step On Road**  
Mr. Walsh referring to a recent accident at Youghal Road stated that an old step at the side of the road was more or less responsible for any damage which had been sustained by one of the cars. He suggested that the step should be removed.

The matter was referred to the County Council.

**Houses at Shandon**  
Arising from a letter from Patrick O'Brien a tenant of one of the reconstructed houses at Shandon concerning a door, Mr. Lee raised a number of complaints.

It was agreed to discuss them if Mr. Lee got a list of the complaints from the tenants concerned for the next meeting.

**Votes of Sympathy**  
Deputy Kyne referring to the regretted death of Mr. David Power, O'Connell Street, said that this prominent citizen of the town had died early in life. He had been a very prominent go ahead businessman, who had made an excellent name for himself in his business and as he and his good wife were distinguished members of the community, it was in only right that the sympathy of the Council should be extended to the Power family in their great loss.

Mr. Walsh seconding said that Mr. Power's death was a great loss to the town. He also referred to the great work done by the deceased in the L.S.F. during the Emergency. Mr. Lee and the Town Clerk associated themselves with the resolution of sympathy which was passed in silence.

Votes of sympathy were also passed with the relatives of the late John Meaney, Mitchell Street and with the family of the late Mrs. Ellen Buckley, Mitchell Street.

**Fire Brigade**  
A letter from Mr. Roddy McGrath, Fire Officer Dungarvan thanked the Council for their recent congratulatory remarks about the work of the Brigade.

**HARBOUR MEETING**  
The Harbour Master, Mr. J. Curran, reported that for the month of September the total of harbour dues collected was £67 8s 0d.

It was agreed to apply for sanction for the raising of a loan of £200 (to be repaid in 10 years) to defray the cost of repairing the Quay Walls in connection with the harbour improvement scheme.

A letter from Mr. Saunders, Cork Harbour Engineer, in connection with the preparation of an estimate for the survey of the Western Bay stated that he would visit Dungarvan at the end of the month.

**SWEEP DRAW ON CAMBRIDGESHIRE**  
The mixing of counterfoils in connection with the Irish Sweepstakes Draw on the Cambridgeshire will commence in the Sweepstakes Hall, Ballsbridge, Dublin on Monday next October 18th, and will continue over the following two days. The draw will be held on Thursday and Friday, 21st and 22nd inst., beginning each day at 9.30 a.m.

It has been decided to revert to the old procedure in the Cambridgeshire Draw and that only the race prizes will be drawn on the first day (Thursday). All other prizes to be drawn on the second day.

**G.A.A. NOTES**  
 (From Our Special Gaelic Correspondent)  
**CORK SPARKLE IN HIGH-SCORING GAME**  
 Waterford opened their League campaign on Sunday last when in glorious weather they lined out against the All-Ireland champions at the Cork Athletic Grounds. The pitch was in excellent condition and a crowd of about 5,000 were treated to a good exhibition of hurling by both teams. While Cork deserved to win they were rather battered by the final score, the exchanges through the whole hour being very even and it was only in the last quarter that two 'soft' goals rather against the general run of play clinched the issue in favour of the champions.  
 The first half served up some delightful hurling. The ball was whipped about with abandon and scores alternated with lightning rapidity as a result of fast open movements and deft catches by the respective forward lines. The loss of J. Kiely at centre-field (who was forced to retire through injury) gave Cork a slight pull in this important sector and even scored a goal. Waterford, however, a slight superiority due to the assistance of the wind in this half, the better understanding and deadly accuracy of the Cork forwards whose every move seemed to be anticipated by the Waterford defence. Half-time saw the teams level on the score—  
**Waterford 3-6**  
**Cork 2-9**  
 On the resumption Cork were away for two neat points but Waterford were quickly back and flashed in a goal to put them in the lead. The play now rose to great heights—two magnificent saves by Sheamus Murphy the new Waterford custodian being loudly cheered. S. Power was seen to advantage in the defence, his accuracy however, Waterford's hope of victory received a great blow when S. Hayden who was playing an outstanding game at left half back was forced to retire through injury. A short punt out was snapped up by Cork forward to send in a rather soft goal. This score coming at a vital stage when the issue was still very much in doubt had an upsetting effect on the Waterford defence and taking advantage of the temporary confusion the opportunity Cork forwards had the ball again in the net to give them a lead. Waterford, however, fought back strongly but could not overcome the disadvantage of these shock goals. After two Waterford attacks had been narrowly saved S. Power closed the scoring with a well-taken point to leave the final score—  
**Cork 5-15 Waterford 4-11**  
 Waterford who fielded a very experimental team, have every reason to be pleased with their display particularly when one considers that they were opposed on the home ground by an almost full strength Cork fifteen. The performance of their new goalkeeper was very promising. Austin Flynn too as full-back, gave a creditable display.  
 While it is difficult to be critical of any line when opposed by such opposition as Ring Barry, and Daly, I think that had our half-backs got rid of the ball more readily several Cork scores might have been averted. However taken all round our team gave a much improved display on their Munster Championship form, and there is every reason to feel hopeful for the future.  
 Last Sunday's fixture was brought forward to facilitate the Cork players who are due to sail for U.S.A. shortly on their American tour. Waterford will meet Wexford on Sunday next, Sunday at 3 p.m.  
 S. Hayden M. Morrissey, M. Flannelly, S. Power, W. Mulcahy, P. Grimes, and J. Conlon, (Mt Sion) J. Murphy A. Walsh (Dungarvan), W. McGrath, and C. Ware (Ering In Town) and F. Cunniff (Abbeyside) T. **County Board Meeting Tonight**  
 The County Board will meet tonight (Thursday) in Dungarvan to consider developments arising out of the County Board decision on the Stradbally-Western Board appeal, and also to consider the referee's report on the abandoned senior football final at Dungarvan.  
 Keen interest will be displayed in the decisions arrived at by the Board in view of recent happenings.

**Waterford Minor Hurling Final**  
**Ballygunner Defeat Cappoquin**  
 Ballygunner won their first county hurling title at the Gaelic Field, Waterford, on Sunday last, when they defeated Cappoquin by 6 goals and 13 points to 1 point in the final of the County Waterford minor hurling championship.  
 Cappoquin got their only score of the game—a point—following the breakaway, but after that it was all Ballygunner. The Ballygunner victory is all the more meritorious when it is realised that this is the first year in the long history of the club that they fielded a team in the minor hurling championship.  
 Last year they won the rural schools championship. Joe Conway Co. Board Treasurer who trains the Cappoquin team made several speeches during the game, but it was to no avail as Cappoquin found it well-nigh impossible to penetrate a stonewall Ballygunner defence. The Ballygunner victory reflects great credit on their trainer, Mr. Jimmy McEneaney, who is a teacher in Ballygunner School, and after their victory on Sunday last he was chaired around the pitch by enthusiastic supporters.  
 A cup was presented to the winners by the Chairman of the Waterford Eastern Board, Mr. Paddy Kenneally.  
 In the semi-final of the East Waterford minor football championship, Mount Sion defeated Cappoquin by one point at the same venue.  
 The teams are keen rivals. They had already drawn, and Sunday's game was a replay and a final score of 1 goal and 4 points in favour of Mt Sion. De La Salle's 6 points gave an idea of how close the game was.

**CAPPOQUIN NEWS**  
**Death Of Mrs K. Mullins.**  
 Passing Of Esteemed Resident—It is with much regret that we record the death of one of the town's most respected residents in the person of Mrs Katherine Mullins, which sad event occurred after a long illness at her residence, South Mall St., Cappoquin, early on Friday morning, October 8th. The deceased lady who was relict of the late Mr. Patrick Mullins was a member of the Gillan family which had for many years been closely associated with the town. She was mother of Miss E. Mullins A.L.C.M. and of the late Sergeant George Mullins of the Garda Siochana. A quiet, retiring disposition she had many friends who mourn her passing. Her daughter has been the recipient of many expressions of sympathy in her bereavement. There was a very large attendance when the remains were taken to St. Mary's Church on Friday evening, October 8th, and on Saturday, when, following Requiem Masses the burial took place in Lismore Rev. D. McGrath, C.C., Lismore, officiated at the graveside.  
 The chief mourners included—Miss E. Mullins (daughter), Mrs. Frances Nagle Mallow (niece), John Gillan, Lismore, (nephew), Peter Gillan, Lismore, (nephew), Thomas and David Nagle Mallow (grand-nephews), Mrs. M. Walsh, Lismore (Francis and Mary Nagle, Mallow (grand-nieces).  
 Very many Mass cards letters and telegrams of sympathy were received.  
 (The funeral arrangements were carried out by R. A. Fraher, Undertaker, Cappoquin.)

# NEW CORK POWER STATION ON LOAD 240 Million Extra Units Now Available

This month, the giant turbines of the Marina Power Station turned over and tuned up to a steady roar, as they commenced to feed electricity into the national network for use in the homes and factories throughout the south of Ireland.

This station the seventh to go into operation since the end of the war, is not yet completed officially, but the machinery is running on standard tests and at the same time adding to the amount of electricity which must be made available to meet the ever growing demand.

The increase in generating capacity in the south has been rendered essential by the tremendous increase in the use of electricity in the area. Up to now, this power came from Ardara, Pigeon House, Liffey, Allenwood or Fortingally but in the event of Ardara not operating for any reason power had to be transmitted over long distances—always an unsatisfactory arrangement. Before the war this possible difficulty was foreseen, and a Cork Station was planned by the E.S.B. Owing to materials shortage, the station was not commenced until 1950, and its near completion in such a short time is a notable achievement.

The site for the new station

lbs of steam per hour, should the occasion demand. A novel feature of these boilers is the automatic controls in the "load"—that is the demand for electricity from a particular set—should increase the intake of fuel—whether coal or oil—automatically increases as does the output of steam to the generators thereby providing them with the power to provide the additional load.

Care has been taken to avoid the dissemination of undesirable matter from the 250 ft high chimney which serves the station. Incorporated in the system is a grit collector where the grit in the gases is removed. Ash particles which fall to the bottom of the boiler are collected in a water filled hopper and are hauled out daily to a piece of adjoining waste land.

This waste land set aside for ash disposal takes in an area of 18 acres and if the station were to operate on coal all the time, it would fill up in 9 years. A special testing station was established on the hill at Montserrat across the river Lee, to check the deposits of dirt particles. This station measured such deposits before the station was in operation and continues to measure it now to ensure that no nuisance is caused to residents in the area from dust or ash particles dis-

seminating from the chimney. Cooling water for condensing the steam is drawn from the River Lee and four pumps capable of handling 54 million gallons of water a minute circulate the cooling water. It is of course, essential that the tubes carrying the cooling water be maintained absolutely free and unobscured and a special screening and chlorination plant has been installed to remove trash impurities from the water before it enters the tubes. Water for the boilers is provided from the Cork City water supply and a 21,000 gallon storage tank is used to maintain supply.

Steam is delivered to the two steam turbines at 850° F. Rated at 30,000 kW each, these sets will produce an estimated 240 million units a year. These turbines are the biggest at present in use in Ireland. They are of the latest two-cylinder type and generate the electricity at 10.5 kV. Transformers step up this figure to 110 kV for easier transmission with minimum losses and a series of step-down transformers assist in its ultimate delivery to the consumer at 220 V.

The output from the sets is regulated from the station control room and from here also, the 110 kV outdoor switchgear, the main transformers and the

smaller transformers for supplying the station load are operated. Visual audible warning signals are given to the engineer in charge of the control room in the event of any fault developing in the plant. The station is, of course, linked to the central Load Despatch Office in Dublin.

The Marina Station is remarkably self contained. Its amenities include its own sewage disposal plant, its own fire-fighting system, and its own laboratory staffed by a Chief Chemist and two assistants whose duty it is to check the calorific value of the fuel used the suitability of the town water and the cooling water and the general efficiency of the thermal plants.

Built to the design and specifications prepared by the Electricity Supply Board's own engineering staff the Marina Station is one of the most up-to-date of its kind in Europe. This station is another link in the E.S.B. plan to double the present output of electricity by 1961. The everyday demands for electricity in every sphere of our national life show such a tremendous increase that this programme is essential if electrical self sufficiency is to be maintained.

The increase of 47% in the number of units used by consumers connected under Rural

## Tallow and Round About

Committee's showing of the film "The Song of Bernadette" must have set up a new record. The showing was billed to commence at 8 p.m., and at 7 p.m. a very long queue awaited the opening of the doors.

Very Rev. Canon Flynn, P.P., expressed his gratitude to Mr Sean Hyde, who gave the Regal Cinema hall free of charge. He also thanked those who were present and all who assisted in the successful erection of the Grotto.

The picture was enjoyed by the huge audience, and members of the Committee acted as ushers. From a financial standpoint the exhibition was a huge success. The vast stream of people who were present and all who assisted in the successful erection of the Grotto.

large and representative cortege.

Fatal Accident at Curraglass. A very sad and tragic accident occurred at Curraglass on Monday evening Oct 11th, which has cast a great gloom of sadness over the whole Tallow district.

A little girl, the daughter of Mr and Mrs Wm Carr, well-known exporters, was killed in an accident when a van driven by one of Mr Carr's employees was being taken out of the yard after having returned from a delivery. The child Theresa Carr, aged about 2 years, killing her almost instantly.

The driver unaware that anything untoward had happened continued on his rounds. Medical aid was immediately summoned but examination of the child was found to have died instantly.

We extend our very deep sympathy to the parents on this very sad and painful tragedy.

Thank You. We are very paragon of modesty but we must admit that we are human enough to feel a slight glow of pleasure and appreciation at the compliment paid to us by the Editor of the Leader, who recently sang our praises at an Irish gathering in Great Britain.

Feast of the Solemnity of the Most Holy Rosary. The Feast of the Solemnity of the Holy Rosary, was marked at the Church of the Immaculate Conception by special prayers and devotion.

The Marina Power Station, Cork, as it will look when completed. It is already in operation and will have an estimated output of 240,000,000 units per year.

is on the Marina Industrial Estate adjoining the Ford and Dunlop factories. Reasons for the selection of this site included the excellent road access to the site and the availability of deep water wharfage for the unloading of coal and oil directly from vessels.

240 Million Units. For the preliminary development of the station two 30,000 kW steam turbo generating sets have been installed. These sets will give an annual estimated output of 240 million units a year and station fuel consumption will be in the neighbourhood of 120,000 tons of coal or 80,000 tons of oil.

The fact that either coal or oil may be used to provide the necessary steam power makes for operating economy, as these two fuels are competitive and the station will of course operate on whichever is the cheaper at any given time.

The three huge boilers used in the station score several notable "firsts". They are the largest ever to be installed in Ireland; they are of the very latest pattern and they are the first of their type to be used here for the generation of electricity. Capable of producing 600,000 lbs of steam per hour under normal operating conditions, they can rise to 660,000

seminated from the chimney. Cooling water for condensing the steam is drawn from the River Lee and four pumps capable of handling 54 million gallons of water a minute circulate the cooling water. It is of course, essential that the tubes carrying the cooling water be maintained absolutely free and unobscured and a special screening and chlorination plant has been installed to remove trash impurities from the water before it enters the tubes. Water for the boilers is provided from the Cork City water supply and a 21,000 gallon storage tank is used to maintain supply.

Steam is delivered to the two steam turbines at 850° F. Rated at 30,000 kW each, these sets will produce an estimated 240 million units a year. These turbines are the biggest at present in use in Ireland. They are of the latest two-cylinder type and generate the electricity at 10.5 kV. Transformers step up this figure to 110 kV for easier transmission with minimum losses and a series of step-down transformers assist in its ultimate delivery to the consumer at 220 V.

The output from the sets is regulated from the station control room and from here also, the 110 kV outdoor switchgear, the main transformers and the

Electrication in the year ended March 1954 as compared with the previous year, demonstrates the necessity for such extra power. Every day more and more farmers are making use of electricity for such everyday tasks as milking, churning, root pulping, grinding, and so on. The farmer's wife has a big welcome for such amenities as a cooker, washing machine, kettle, an iron, or a refrigerator, formerly available only to her city sister.

The huge demand for electricity for industrial motive power last year showed an increase of over 49 million units or this purpose—also necessitates such a programme. New applications of electricity for industry are being discovered and the use of existing applications is being constantly expanded. Irish industry has always shown an overwhelming preference for electric power because of its availability, economy and convenience.

Domestic consumers in the urban areas show a steady and increasing preference for electricity in the home. Sales of domestic appliances are rising higher than ever before and 44 million extra units demanded by such consumers indicate a trend which renders imperative an immediate increase in electrical output.

## ARDMORE GOSSIP

The Wedding Bells which rang out their joyful peals at Grange Chapel one morning in recent weeks were for the happy union of two very popular and highly esteemed young people of the area. Mr Patrick Allen, son of Mr and Mrs Michael Allen, Ballygunn, Ardmore, and Miss Mary (Mrs) Hartigan, daughter of the late Mr and Mrs Hartigan, Ballymote Tallow. The wedding ceremony with Nuptial Mass and Papal Blessing was performed by Very Rev. Wm Cahill, P.P. The best man was Mr Michael Allen (uncle of the groom) and Mrs J Conway (sister of the bride) acted as matron of honour. The bride was attended in a navy costume with white accessories and carried a bouquet of Lily of the

Valley whilst the matron of honour was dressed in grey with navy accessories. At the reception held at the Esplanade Hotel, Youghal, there were over 40 guests present, including the bridesmaids and many friends of the bride. After the reading during the reception of the large number of congratulatory messages, the happy couple left on their honeymoon to Killarney and the south coast. With all our readers we join in wishing Mr and Mrs. Allen many years of health and happiness.

Irish Classes—We are pleased to say that on every Tuesday night one of Ireland's foremost Irish teachers, Mr Seosamh O'Fathaigh, will have Irish classes and also there will be instruction in cultural subjects. The hours are from 7.30 p.m. to 9.30 p.m.

Mr John Hallahan, M.P.S.I., who recently opened a spacious and modern Chemist shop at Timoleague, Co. Cork, is son of Mrs and the late Mr John Hallahan, of Ardmore and brother of Rev Brother John Hallahan, of Doneraile Christian Brothers Schools.

John was for a number of years on the staff of Mr James Burke's, Chemist, Youghal. He is married to a charming young lady, formerly Miss Crowley of Timoleague. We all unite in congratulating him in his new enterprise.

Rapid But Sound, would be perhaps the proper adjectives to use in speaking of the erection of the new dispensary and surgery here. The job is being done under contract by our popular and experienced building contractor Mr. James Quain. Both the contractor and the workmen are deserving of our highest compliments, in the

rapidity of the work especially when fighting against ever worsening odds—bad weather and short days.

The Best of Friends Must Part—and such were the actual parting words of a young lady who was a adopted child of the old hometown for over two years, and who during that brief space of time endeared herself to everybody, not only to the customers of the business premises in which she held the responsible post of Chief Assistant, but to the friends and friends she made. We refer of course to Miss M. Ryan, who has returned to her native Co. Limerick. On behalf of all we wish through this issue of the Leader, to assure Miss Ryan that her name will ever find a treasured spot in the hearts and minds of the people of dear old Ardmore, and especially those whose hearts she broke.

News Seems To Be Some Craze or for a better word some enchantment in this Village for the longling exiles. At the present time another exile is in our midst. Owing to family changes and arrangements in her old hometown of Ring, the young lady exile, Miss M. Maher, is spending her holiday, after some years in the U.S.A., with her sister Mrs Maura O'Donnell, of Ring. Miss Maher naturally has her sister as a native Irish speaker, a fact of which she is justly proud. As this is the young exile's first stay in the town of St. Declan we hope that it will be a happy and enjoyable one.

South of the Border—Yes but we must change the tune from a joyful note to one of sorrow, and indeed 'twas with such a note this week that many of our native-growers in this Ardmore

Michael Henley's team emerged victors by a fairly comfortable margin, but the score was somewhat flattering to them as they had to light every inch of the way.

These schoolboy matches are becoming a regular feature and extra power. Every day more and more farmers are making use of electricity for such everyday tasks as milking, churning, root pulping, grinding, and so on. The farmer's wife has a big welcome for such amenities as a cooker, washing machine, kettle, an iron, or a refrigerator, formerly available only to her city sister.

The huge demand for electricity for industrial motive power last year showed an increase of over 49 million units or this purpose—also necessitates such a programme. New applications of electricity for industry are being discovered and the use of existing applications is being constantly expanded. Irish industry has always shown an overwhelming preference for electric power because of its availability, economy and convenience.

Domestic consumers in the urban areas show a steady and increasing preference for electricity in the home. Sales of domestic appliances are rising higher than ever before and 44 million extra units demanded by such consumers indicate a trend which renders imperative an immediate increase in electrical output.

Well Known Irish Dancing Teacher Weds.

The Church of St. Mary, Ballygunner Waterford was the scene of a very pretty and picturesque wedding on Monday, Oct 4th last when the marriage was solemnized there by the Rev. Raphael Power, Adm. St. John's Waterford (assisted by the Rev. Joseph Carey S.M., Waterford).

Numerous members of well known and highly respected families, in the persons of Mr George Parker (only son of Mr Wm J Parker Manor Street, Waterford) and the late Mrs Florence Parker, and Miss Nancy Troy, T.C.R.G. (elder daughter of Mr and Mrs Patrick Troy College Green, Waterford) the best man was Mr James Troy (brother of the bride) and the bridesmaid was Miss Phyllis Phelan (cousin of the bride). The bride's young sister Phyllis was child attendant.

After the ceremony, over 60 relatives and friends of the happy couple adjourned to the Marrian Park, Waterford to the future home of Mr and Mrs Parker, where a reception was held and during which Rev. Fr. Carey blessed the cake and proposed the health of the bride and bridegroom.

Numerous telegrams and letters of congratulation received from all parts of the country, were read.

The bridal pair left later for London and France on their honeymoon.

The presents received were numerous and costly, and included one each from the staffs of Messrs Henry Denny & Sons, Ltd., Waterford, (where Mr Parker holds an executive position) and Waterford Branch of the I.T. & G.W.U. (where Miss Troy was typist for the past 8 years).

For her wedding the bride was attired in primrose brocade anglaise with tulle and flower head-dress and gold accessories. She carried a bouquet of mixed flowers. Her going-away outfit consisted of a Donegal tweed 3-piece with accessories to tone with the dress. Her new blue brocade anglaise with silver accessories and had a bouquet of mixed sweet pea. The child attendant was attired in lavender georgette with silver slippers and accessories and carried lavender and white flowers.

Mrs Parker conducts the well-known Troy School of Irish step-dancing Waterford, and is herself a brilliant exponent of the traditional art, for which she holds several trophies and medals.

We take this opportunity of wishing the newly-weds all the very best for their future happiness.

and Curragh area heard of the dumping with the Cork merchants of large quantities of foreign onions which were brought across the Border. The onion tale was told by an "Onion Buyer" from the "Dunlavin Market." If this smuggling is allowed to go on there, as one large onion grower stated to me, "we can throw our hats at it."

It is possible, of course, that the officials concerned may be unassisting, but to the extent there is investigation into the matter at once for the sake of the growers livelihood.

The Hole at the Bottom of the Road seems funny but we are not going to make a song about it like the "Bill Bally" one. The road in question—with the hole with a capital H is the one which we have referred to, time and again in the "Leader," and rather now the track leading from Curragh Cross to Ardmore by the "Bill Bally" one, the powers that be put at least four lorry loads of gravel or small stones in the hole in the road on the top of the bench.

The Memory of A Brave Soldier. A man, who was brought to light this week by the news of his only daughter's receiving one of the highest English nursing awards. The young nurse, Miss Margaret Hunter, S.R.N., only daughter of the famous Tom Hunter, Castletownroche, Co. Cork, who received diploma and medals from Lady Hermione Cobbold, who presided at the Graduation ceremony at Whipps Cross Hospital School of Nursing, London. Nurse Hunter is first cousin of Mrs Frances Ballahan (nee Hunter), wife of Mr. William Hallahan of Ardmore.

## TRIED TO ELOPE—But Girl Married Another

John Luby a farmer's son was indicted for having attempted to elope with the daughter of a farmer named Quirk. The girl's mother finding there were strange men in the house, succeeded in getting her daughter out through the window and hiding her in the prisoner's house a few fields off. The prisoner and a party searched the house and not finding her fired several shots, and upon being asked by the girl's father why he came there he said "I came to get a wife and a living".

The young woman, who is very prepossessing has been recently married to another farmer Mr Crean defended the accused who was convicted and sentenced to 12 months imprisonment.

Although this report appeared in 1978 was reliably conjectured at the time that the main reason for the girl's popularity was her ability to make and serve a really fragrant cup of tea. Even when Musgrave Tea was available but of course in the meantime housewives have learned that there's no trouble with tea when it's Musgrave's. The real secret is in the careful blending a fact which has been proved by the consistency of Musgrave Tea over the last century.

## MUSGRAVE TEA

Famous for almost a century

## NEWS FROM YOUGHAL

The Public Library is the ordinary man's University. This very true statement was made by the Chairman of the Town's Branch of the County Library—Professor Eamonn Keane, M.Sc. U.D.C., at a recent committee meeting of the branch. The Chairman also stated that the service they were getting was very good. Senator J. O'Connell U.D.C. was also present at the meeting. The meeting dealt chiefly with the oncoming repairs to the Library and estimates etc were under discussion.

The Parish Church, Carrigrohilly, was on last Saturday week the scene of a very pretty wedding when a young townsman very popular and widely known for his sporting enthusiasm in various spheres, was married to a young lady at one time very well known here when she was manageress of Messrs Ryans Stores. The bride was Miss Kathleen O'Sullivan, daughter of Mr and Mrs O'Sullivan of Carrigrohilly. The groom was Mr John Coyne (brother of the groom) and Miss Mary (May) O'Sullivan, was bridesmaid. The wedding was solemnized with Nuptial Mass and Papal Blessing by Rev. Father O'Connor, C.C., assisted by Rev. Father Roche. At the subsequent reception at the Hotel Metropole, Cork, over 30 guests were entertained, and which a large number of congratulatory messages were read. The newly weds were the recipients of many useful and valuable presents. The honeymoon is being spent in Dublin and a tour of the eastern coast. Through this issue of the Leader we extend to Ned as he is so well known to us all and Mrs Coyne, many years of wedded bliss.

Amongst the large number of bereaved family members were his widow Mrs Margaret Buttiner, his sons Messrs Patrick, Michael, John and Maurice, and his daughters Mrs Delaney and Miss Susan Buttiner and a large number of other relatives. We wish to convey to Mrs Buttiner her sons and daughters and the other relatives the heartfelt sympathy of all our readers. Home was that of our widely known young lady Miss Hannah Bulman daughter of Mr and Mrs William Bulman of 1, O'Reilly's Terrace, Youghal. Hannah is the complete suite of diningroom furniture in the draw promoted by the Youghal Greyhound Welfare Club. We congratulate her on her great luck. Hannah is niece of Mrs Mamie Curran of Sun View Ardmore.

Quarant Ore—The artistic work of decoration, on the high altar of the Parish Church here during the Quarantine devotions last week was much spoken of. The intermingling of lights and flowers around and before the Most Holy Sacrament presented indeed a scene of celestial splendour. This grand work was carried out by the members of the Altar Society. The Forty Hours Adoration which began on the previous Sunday, concluded on the following Tuesday with a procession of the Most Blessed Sacrament round the Church. The celebrant of Monday's High Mass was Rev. P. de Barra, C.C. deacon, Rev. Fr. O'Dwyer and sub-deacon Rev. Fr. Buckley. Rev. Fr. Thornhill was Master of Ceremonies. The organist was Miss M. Crowley, A.L.C.M.

What May Be Called An "Irish Stew" of dancing will take place tonight (Friday 15th and Saturday 16th) at the Strand, Falaise. It is called the Grand Stew but it will include modern dancing old-time waltzes and also Irish dances. The music will be supplied by Jimmy Wiley and his orchestra.

Complaints Please—If there are and if our local T.D.'s can remedy them you are all invited to the League of the Cross Hall on Wednesday Oct 20th when Mr Martin Corry, T.D. will be in attendance from 2 to 6.30 p.m. He will deal personally with all grievances and complaints, irrespective of political opinions.

The Decision to erect a Grotto in the Council Chamber, Town Hall, was indeed a splendid gesture on the part of our Town Councillors in non-our of the Marian Year.

The Name Of Lucky House, applied by Mr and Mrs Michael Gould, Drapers of North Main Street some years ago as the result of winning several crossword prizes, including the full £200 prize. Practically each week the name of one or other of the lucky and courteous family, appear among the winners of Irish Sunday Crossword prizes. When made inquiries from Mr and Mrs Gould if there was a special system, the answer was, "—just a bit of luck."
