Cappoquin Badminton Club ANNUAL DANCE At The BOATHOUSE, CAPPOOUIN On SUNDAY, NOVEMBER 14th, Details Later.

The monthly meeting of the Waterford County Committee of Agriculture was held in Dungarvan on Monday last, Mr P by the chair, pointing out that garvan on Monday last, Mr P
R. Power, Chairman, presiding
Also present were Messrs M.
McGrath, D Leahy J. Fahy, D
Dower, J Quirke, L. Morrissey,
N Walsh, D Heskin, P Butler,
M Harry and J Mansfield
Messrs J Connolly, Department Inspector and P Conroy,
L AO, were in attendance,
Finance
Payments for the month of
September amounted to £2145
as 5d.

In connection with the grass
manurial trials being conducted
by the loair, pointing out that
a proposal not to go to the
Council had been passed by a
vote the last day In the
absence of a resolution to rescind that previous motion he
thought the present one was
out of order
The Chairman said that no
vote was taken at the last meeting on the matter
Mr Walsh said that he was
sorry but he would have to contradict the Chairman on that
point
Mr. Connolly referring to the
minutes pointed out that a vote
was taken

Annual Estimates

The adjourned estimates for the annual schemes again came up when Mr k. Maher, and Miss K. Obrien, representing the Dungarvan Show Society came before the meeting to ask the Committee not reduce or

Deliveries from our Ballybeg and Killough plants during September broke al previous records for any month. More farmers are finding that they cannot afford to miss the increased yields and healthier stock produced on lime-enriched land

GROUND LAMESTONE

In the area first supplied by our Ballybeg plant alone, there have now been established 18 other Ground Limestone plants and our deliveries are now limited to a radius of 40 miles But our sales are greater than ever There is every indication that the Spring demand will exceed even our output which is the biggest in Ireland

Our quarries were selected after test and examination of almost every limestone deposit in Cork and many in Limerick, Tipperary and Waterford Our production is tested each day to maintain the best proportion of particles of each size and is analysed for chemical composition in our Laboratories

We deliver anywhere within 40 miles, even over very difficult routes. We spread almost everywhere with robust and efficient mechanical spreaders designed for crosscountry work with front and rear axles driven Most of these spreaders are now equipped with twin rear wheels to reduce further the bearing pressure on the soil Our accredited spreading agents are equipped with efficient tractor spreaders (We are open to consider applications for appointment as spreading agents in a few areas)

Our Ballybeg plant will supply, during winter and spring only, a mixture of Ground Limestone, Gafsa and Potash or Ground Limestone, Fertiphos and Potash mixed in 30-ton lots in correct proportions to suit your land

Because of the support of the farmers, our price is the lowest we know of In any country in the world While other prices and costs have increased, Irish farmers can lime their land cheaper to-day than their ancestors could when wages were
