Congratulations—We wish to
extend our heartiest congratulations to Miss G Murray c/o
Miss Greehy East Main Street
Lismore, on winning £150 in a
competition in a Cross-Channel
Sunday's newspaper Miss Murray, who has only been doing
this competition for a short
time did not receive the glad
news until late in the day, when
glancing at the list of winners, she saw her name with two
others who had divided the top
prize of £450 between them
Whist Results—The following

You'll be happy little sweetheart in the spring heart in the spring the

mal After much examination be aware of the recent expenses and discussion, we are of the which were placed on this Hunt opinion that these are the horns of an elk or other prehistoric animal. It may be of know that the dance will be well interest to state that this is supported and we wish the Imoprobably the first time that the killy Harrier Club every suc-

tunity of completing full time training will report for this coming period. At the moment the patrons with many and the stage one of the most upstable at the Abbey, will be played training will report for this Mr Michael Barry delighted the patrons with many and the patrons wit ee on their very successful and njoyable function

Gaelic League—Irish Classes Are Caesars," will be staged A

GAT A —On Stunday post Nov

It can be a more than the case of the large with t

In the area first supplied by our Ballybeg plant alone, there have now been established 18 other Ground Limestone plants and our deliveries are now limited to a radius of 40 miles But our sales are greater than ever There is every indication that the Spring demand will exceed even our output which is the biggest in Ireland

to miss the increased yields and healthier stock produced on lime-enriched land -

Deliveries from our Ballybeg and Killough plants during September broke all previous records for any month. More farmers are finding that they cannot afford

GROUND

Our quarries were selected after test and examination of almost every limestone deposit in Cork and many in Limerick, Tipperary and Waterford Our production is tested each day to maintain the best proportion of particles of each size and is analysed for chemical composition in our Laboratories

We deliver anywhere within 40 miles, even over very difficult routes. We spread almost everywhere with robust and efficient mechanical spreaders designed for crosscountry work with front and rear axles driven. Most of these spreaders are now equipped with twin rear wheels to reduce further the bearing pressure on the soil Our accredited spreading agents are equipped with efficient tractor spreaders (We are open to consider applications for appointment as spreading agents in a few areas).

Our Ballybeg plant will supply, during winter and spring only a mixture of Ground Limestone, Gafsa and Potash or Ground Limestone, Fertiphos and Potash mixed in 30-ton lots in correct proportions to suit your land

Because of the support of the farmers, our price is the lowest we know of in any country in the world While other prices and costs have increased, Irish farmers can lime their land cheaper to-day than their ancestors could when wages were 6d a day.
