PASSING OF MR. MICHAEL FLYNN, SOUTH TERRACE, DUNGARVAN

The members of the cent de Paul Society acted as a body guard at the funeral. Following Solemn Office and Requiem High Mass on Saturday morning, his remains were interred in the shadow of the Parish Church, which he served so nobly and well during his long life.

To questions by Mr King, witness agreed that no effort had been made to hide the drink It did not appear extraordinary to him he said that a woman of Mrs Crotty's age would go trucking about with drink He admitted that one of the men

prayers was some drill, first by the scouts and then the candidates learned their first lessons on that test During Patrol Corners patrols planned out tests to be passed by every tests to be passed by every

LIGHT BUILDS EGG PRODUCTION

on Kilkenny farm

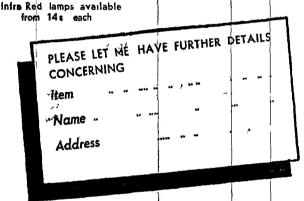

"Mixed Farming" is a term which is often loosely applied, but Tom Brennan who has an 80 acre farm in Kilkenny really is an "mixed farmer"

Since he installed lighting in his deep litter houses, operated by time switches, his egg production has gone up by leaps and bounds. He makes use of infra red lamps both for day old chicks and bonhams and has cut the mortality rate of these down to nothing. In the case of the bonhams he also uses electric floor warming and he says "fattening isn't a problem any longer, that extra heat builds up the weight in no time" He, of course, had electric light installed in the house and outhouses

Tom isn't married, and his mother keeps house for him. She wasn't very keen on the idea of an electric cooker, but after Tom made her a present of a washing machine and she saw the help it was, she soon changed her mind and the electric cooker is now the pride of her kitchen

Tom Brennan has used electricity the sensible way-to build up his income and to reduce his labours Electricity can do the same for you Why not fill in the coupon and get full details of any appliance which can help you?
