NO MEETING

My information is that there will be no meeting of the Water ford County Council until the last Monday of the month which will leave a lapse of almost two months since the last meeting which was held on the 27th February It is quite a while since so long a period intervened be tween meetings and it was expected that a meeting would be held earlier especially as there was quite a lot of unfinished tread business when the last meeting To strike for Ireland and the adjourned

nong the adjourned items at the February meeting were six notices of motion, three in the name of Councillor H Dowd them he hard Lismore two in the name of Councillor T Lannen Dungar Their Councillor T Lannen Dungar van and one in the name of Councillor R Keane, Dungarvan Councillor Down Days and Dungar Their caoine — the Councillor Dowd's motions deal with a) the treatment and cure of infectious and contagious diseases, b) the provision of a further scheme of houses at Lismore, and c) the appointment But in our hearts a silent vow of an efficiency expert to examine the working of every sec- The prayer our lips tion of the County Council ad-Tis good to think in gloomy

ministration Motions a) and c) alone would form sufficient material for an entire day's meeting with-Of those who walked the blood they were to be fully discussed With a number of reported out breaks of polio in the Dungar-To van area in recent weeks motion a) has taken on a new

Of Councillor Lannen's mo-tions one deals with a proposal that no money be spent on adapting Priory House Dungar-Their tale of noble deeds shall van, for a Health Clinic and Dispensary | The reason for making this proposal states the motion is 'that any money so spent will leave the Council with an unsuitable building for the pur poses of a clinic or dispensary The other motion put down by Mr Lannen calls for the ap pointment of a person living within the county to the position of Examiner on the Board of County Council Examiners for the next Waterford County Council Examinations

The motion of Mr Keane also deals with Examinations and states That Clerical Officers and Typists employed by this Council temporary and who were on the 1953 panel be made permanent as permanent vacancies arise before any new panels are created

Both these motions have gained an added significance since they were first put on the agenda last November as an official announcement has been made since the last meeting that examinations will be held by the County Council in the near future

It is difficult I would say im possible, to state whether these motions will be reached when the Council next sits and ergo whether any discussions will take place on them If they are given preference on the new agenda as the unfinished business at the last meeting then in all probability they will arise and discussions of prime interest should ensure which are the state of the sta est should ensue With a two months respite behind them members of the parent body will undoubtedly provide plenty of interesting comment when next they meet
