VELVET CAP **AGRICULTURAL** COMMITTEE HAVE £3,000

BALANCE

At the monthly meeting of the County Waterford Commit-tee of Agriculture held in Dunbeen replaced by younger men Mr Walsh-Is it due to overestimation that we have this

CAO -Oh no You cut your estimates and the balance is not such a big sum

Wr Walsh—Indeed it is Mr J Flynn proposed in view of this credit balance that the cut of £50 in subsidy to Water-ford Show be restored Mr W Dower said that the

Dungarvan Show subsidy had also been cut and if it was to be restored in one case they would have to give it back to

Mr Walsh opposed these suggestions stating that he did not believe in doing one thing one day and coming along another day and changing it
Mr Dower said that it was
not the Committee's function to

save but to spend the money they had on agriculture Mr J Quirke said that when the Committee struck a rate of 7d in the £ it was their inten-

tion to spend the full amount realised from it Mr Foran—Suppose we decided to economise and to spend only 6d in the £ Chairman (Mr M Harty) We wouldn't be a Committee of

Agriculture at all then as we would be only cutting our own Mr Foran-If we have money to save and are trying to find a place to spend it it would be a fine gesture to the ratepayers if we contributed towards pay-

ing off the big County Council overdraft The Chairman said that this suggestion of Mr Foran was

out of order as half of the money saved had come from the De partment Mr Flynn again proposed re storing the cuts of £50 in the subsidies to Waterford and Dun-

garvan Shows and Mr Dower seconded On a vote the proposition was cairied by 7 votes to 4

PROPOSED CUT

IN VOCATIONAL **EDUCATION** GRANTS

Strong Protest From Vocational Education Association

At the meeting of the Stand-ing Council of the Irish Vocaters like this before us tional Education Association CAO—I must look after the held in Dublin recently strong Waterford Committee of Agri- and if I didn't bring it what proposal to enforce for the culture in Dungarvan on Satur- other way could it come before second year in succession, a cut surplus of protectes at a great surplus and a great surplus of protectes at a great surplus and with no market for them A resolution proposed by him calling on the Department to take immediate steps to obtain a letter tees Members of the Council which represents Vocational had a grievance it would then be the CAOs duty to put it out the country, stated that the efore us CAO Young Instructors are ductions in the money available

stressed that of all Educational services Vocational Education was undoubtedly the one which other newly ordained ing effect on national produchad the most directly stimulat tion through its close links with Agriculture Industry and Commerce as well as its numerous ties with Macra na Feirme the ICA Muintir na Tire Apprenticeship Committees and other organisations

The Council pointed out that ed by short-term measures In such circumstances a public service which exerted the stimulating influence on stimulating influence on national production which Voca-tional Education admittedly did should surely have had expenditure on it increased rather than decreased

It was also pointed out that the cuts would have a very bad effect on the work of the voluntary Rural Organisations as Vocational teachers did a great quested to send in their deal of work providing lectures names and addresses to the ties with these Associations

Read At Meeting The above was read at the last meeting of the Co Voca-tional Education Committee in Dungarvan and it was decided to request the local papers to give the matter publicity.

NOTICE TO ALL FARMERS

On entering the closing weeks for BEET contracting the Mallow Board of the Irish Sugar Beet Growers' Association earnestly appeals to farmers to increase still further the acreage under BEET and thereby spear head the fight for increased production which is so vital in the present economic crisis

There is a guaranteed Market and a guaranteed Price for all the BEET you produce There is, in addition, an incentive bonus of 5/ per ton should production reach a certain level. This production target is well within the capacity of our farmers and to reach it should be the objective of each Help yourself and your neighbours by putting a greater acreage under BEET There is still time to take out new Contracts, there is still time to increase existing Contracts

VIEWS OF OUR READERS

Recent General Election

To The Editor Dungarian Leader Dear Sir -During the recent

pear on the Register of Electors Since then my inquiries led me to believe that the numbers so omitted could run into hundreds There are only three reasons that I can think of to account for those omissions 1 Carelessness on the part of

those responsible for compiling 2 Inability for some reason or another to compile and print a true and complete Register 3 Deliberate omission of certain names by those responsible for compiling Register
If the reason be either 1 or 2 If the reason be either 1 or 2 or a combination of both the matter can be remedied but if able of producing a good crop

serious position exists It can be easily seen that a crop from which deliberate series of omissions could deprive a party or candidate of hundreds of votes

I intend to attempt to investigate the cases of omissions of seed are available to growers which I have knowledge
I would accordingly ask of any
citizen who was aged 21 years or
over and who resided in either
the City or County of Waterford
the City of County of Waterford
the City or County of Waterford
the City of County of Waterford
the City on 5th September 1955 and whose name did not appear on send me their names and ad-dresses as soon as possible to justify an inquiry I intend to

Yours sincerely

> Certified Seed Potatoes Are Safest

The selection of the best possible seed is of vital importance to successful potato growing It is impossible to tell from the reason is 3 then a very as so much depends on the serious position exists purity health and vigour of the crcp from which the seed has The Department of Agricul-

crop
It should be remembered that

the purity and quality of the potato begins to deteriorate if the same variety is grown on a farm in successive seasons When introducing new seed the farmer serves his own interests best by buying certified seed pototoes, and at present there are plentiful supplies of these at prices considerably more attractive than last season's
