BEHIND THE

and the industry it serves

These are matters of serious import not alone for those directly involved but for practically everyone in the town of Dungarvan for the whole economy of the town is built primarily around this industry

The strike is now entering on its third week and Christmas is only around the corner I am sure that the possibility of another approach between the parties who are at present at loggerheads to solve their problems is not expecting too much There is one man I would like to see presiding at such a gat hering and I know he is con-cerned about the position already I hope though that the nex

conference will not be heralded with a lot of ballyhoo and publicity such as last week's onepublicity that has been com-monly agreed did more harm

And I hope too that before the next issue of this paper appears that the wheels of the factory at Cody's Quay will again be turning and that the men will have returned contentedly to their labours

EXHIBITION OF PAINTINGS Keen interest has been displayed in the exhibition of

paintings at the OConnell Street premises of Messrs Thomas Power & Co, Ltd, in Dungarvan The artist respon-sible is Mr M Donai Moloney a member of Dungarvan Urban Council and a son of Mrs Molo-Council and a son of Mrs Moloney and the late Mr Joe Moloney formerly of Duckspool House, Dungarvan. The talent and versalility dis-played by Mr Moloney in his

paintings have been much commented on he displays abou 12 paintings ranging from sea scapes to reproductions—one particularly excellent one of Lismore Castle I join in congratulating this Dungarvanman on his initiative and energy and again wish him a speedy recovery to trill health ery to full health.

LISMORE WATER SUPPLY Readers in the Lismore (and Cappoquin) area will be pleased to learn that the agenda for next Monday s meeting of Waterford County Council carries an item for discussion on the quality of the water being distri-buted through the new Lismore-Cappoquin regional

NEUMANN Stigmatist

WOMAN still living in a village of Northern Bavaria has for the last thirty years been exciting world-wide interest She has the Stigmata, the five wounds of Christ In addition to many other visions, she has on Fridays, while shedding tears of blood, a panoramic vision of the Passion, in about thirty scenes It is as if she went back in time to the Jerusalem of two thousand years

there is what is in some ways a more astounding assertion, well supported by evidence, that this village woman has neither eaten nor drunk for the last thirty years

Controversy has raged round Therese Some have denied the genuineness of the pheno mena, some their supernatural character The two most recent books in English adopt a rather sceptical attitude

Dr Alfred O Rahilly, formerly Professor of Mathematical Physics and President of University College, Cork, has been interested in Therese Neumann for many years He has read the German literature, he has visited Konnersreuth and spoken with Therese
