UP, UP, UP

In 1962 the estimate passed was £1,313,000. £200,000 went into paying salaries, fees and expenses. It drew up the county rate that was to be in the £.

UP, UP, UP

In 1963 the estimate passed provided for a gross expenditure of £2,964,413 when drawn up by the County rate by another £26,000 to the £.

UP, UP, UP

In 1964 the estimate started at £1,137,000. The first billion pound budget to be passed and of the total, £400,000 of about £200,000 will go to salaries and wages. Again the County rate must go up by another £200,000 to cover the cost.

UP, UP, UP

As the County Health Services in the County and City as administered by the Waterford Health Authority. You may say what an appalling cost. Of the total County rate, the health services cost up to £400,000 to the £.

UP, UP, UP

When this fact was referred to by one member of the Authority meeting of the Authority last week, the Secretary replied that it was his own satisfaction, so stating that the Health Authority was not a charity and that it was not a charity and that it was not a charity.

UP, UP, UP

While this is the case, the expenditure of the County Health Services is a very heavy burden on the County rate. However, there is a big number of people who are not registered with the County Health Services and who are not registered with the County Health Services.

UP, UP, UP

As their monthly meeting members of the County Council agreed in principle to a new regional water supply scheme for the County, it is estimated that the cost of this scheme would be £2,200,000. Had this decision been taken in June 1961, the County rate would have been £1,100,000. It is of as mere mid summer madness to scrap the entire Health Services and to scrap the entire Health Services and to scrap the entire Health Services.
