### THE TOLL OF SUMMER

The Summer sunshine has not been shining for very long but already it has contributed to quite a number of tragedies. The warm weather invariably turns the mind towards the cooling waters of the sea, the river, the lake and waterfalls which can provide most refreshing bathe in them can also prove the source of needless and very often very dreadful tragedies. All round the world we have on record the deaths by drowning of two little brothers in Cobh, a 13-year-old boy in Waterford, and of three boys in Cork. In the last fifteen years up to Strabane. These are just a few that come to mind without a check, but there have been many more, particularly children from the locality have been provided with every facility and help to make them proficient in the water. Sign of drawing tragedians think God has been kind to us all and I trust that their energy and initiative will not be smothered by too much red tape or by a lack of financial support.

### THE CAUSEWAY BRIDGE

The Abbeybridge bridge linking Village and Dungarvan over the Currabinny was originally mentioned at last Monday's meeting of Waterford County Council. Councillor Michael Hart, Chairman, said that it was the busiest bridge in the county and with the new car ferry service at the mouth of the river, it was certain to increase greatly.

The fact that it was out of alignment made it a great hazard to drivers.

Councillor Hart, who has consistently opposed the bridge, said that all he would agree to was that the "bump" on the bridge be removed by raising either side of the roadway.

These offices will be providing additional local information in connection re trains, buses and local directions.

An important feature of the offices, said Mr. Brian Pearce, is the provision of a Road Information Service. This is the first time that this service will be operated on a national scale and your Company will be responsible for the operation of the Regional Companies to do this.

The value of the service will not only to the visitors, but also to the hotel, guest-house or other registered premises cannot be over-emphasised.

Many meetings of local Associations and Development Groups were attended and a working party established.

Setting up of these initial contacts are most important in the establishment of the Local Regional National Chain.

Discussions with the County Tourist Council have been most valuable in this connection.

The introduction of the new drive-on-drive-off Car Ferry on the Fethard-Dungarvan route in the South East, and the importance of the mobile tourist is becoming increasingly apparent.

The Chairman said that the Council's decision to abandon the Modeligo and Clonmel Schemes had been fully understood and appreciated.

Mr. Brian Pearce, Secretary of N.F.A. Co. Executive, who was also on the delegation, said that the survey showed that where a well was adapted to provide water on tap in a house, the consumption increased about ten times.

It was mentioned by the Chairman that in West Waterford many Council premises had shown that tests carried out

on these delivered a satisfactory quantity of water.

He bravely toiled for those he loved.

And left us to remember.

He died a quiet death when at Cappon last they went under in the score 4-2 to the game produced very little and was disappointed for the small fare for the small.

A game in which the team's lack of fitness was evident and the main feature of the game was a very sporting game, ratulans to Colligan and victory.
