

KENNELLY'S LATE POINTS ROBBED MOUNT SION OF VICTORY IN SENIOR FOOTBALL SEMI-FINAL

Mt. Sion 4-6 Geraldines 0-8
In the dying minutes of this very mediocre senior football semi-final played at the Paddy Kennedy Field, Dungarvan, on Sunday last Paddy Kennedy robbed Mount Sion of victory when their passage to the final seemed safe and gave Geraldines the fight to fight again on another day for a place in the County decider.

Only two and a half minutes remained in the game and Mount Sion led by a brace of points and even though Geraldines were pressing hard few could visualise them pulling the game out of the fire at this late stage. But when Paddy Kennedy forced a free and sent over for a point from the kick the score was 4-1 to Mount Sion and the game was over.

GOOD CONDITIONS
Played before a fair sized attendance and a good standard of football was played. The weather was good and the pitch was in excellent condition. The referee was Mr. J. Kelly.

Mount Sion had a good defence which held them back. Paddy Kennedy scored a point from the kick. Mount Sion had a good defence which held them back. Paddy Kennedy scored a point from the kick.

Geraldines were the best of the defence. Duffin played himself to a standstill at midfield. The referee was Mr. J. Kelly. Mount Sion had a good defence which held them back.

NO WINTER FARM CLASS
The annual meeting of the committee of the Waterford Health Authority at their meeting in Dungarvan last Monday approved a resolution proposed by Mr. J. O'Riain and seconded by Mr. G. Curran recommending the setting up of a joint committee to examine any complaints made against doctors.

The committee will consist of three members of the Health Authority and two doctors. Mr. G. Curran explained that the recommendation had come from the Consultative Health Committee following the investigation of a complaint in which he himself had been involved.

WILL INVESTIGATE ANY COMPLAINTS AGAINST DOCTORS

By 10 votes to 4, the members of the Waterford Health Authority at their meeting in Dungarvan last Monday approved a resolution proposed by Mr. J. O'Riain and seconded by Mr. G. Curran recommending the setting up of a joint committee to examine any complaints made against doctors.

The committee will consist of three members of the Health Authority and two doctors. Mr. G. Curran explained that the recommendation had come from the Consultative Health Committee following the investigation of a complaint in which he himself had been involved.

HELICOPTER SERVICE
It was unanimously agreed to participate in the scheme offered by the Minister for Health under which a Department of Defence Helicopter would be available to convey patients to hospitals in Dublin for emergency operations.

The Secretary, Mr. J. A. J. McManis, said that the helicopter service would cost 127 an hour flying time plus 25 an hour for an officer and 15 for each mile. The County Manager, Mr. S. J. Meenan, said that any application for the use of the helicopter would be made when the helicopter was used and this would only be in cases where it was absolutely vital. A token sum of £200 to cover any such emergency call was also approved.

More Limestone Being Spread
In the year ended March, 1965, well over 1 million tons of limestone were spread in the county. This was the highest annual figure for the past seven years. From early 1965 to the middle of September, a total of 607,000 tons was delivered—an increase of 25 per cent on the same period in the previous year. Irish farmers are obviously on the right path to the middle of the year. Each year the land loses an estimated 1½ million tons through natural action. We must not just buy limestone but also more limestone must be spread.

There is a belief among some farmers that grass does not need lime to the same extent as tillage crops. In fact, where the soil is not too acid, it is impossible to get the full potential production from pasture. There is a need for adequate amounts of fertilisers and lime. These fertilisers must be spread in a way which will avoid plant food if the lime status of the soil is too low. In fact, when phosphatic and potash are used on pastures, if the lime needs are not being met, there is a serious danger of a phosphate loss to the farmer.

AT ANY TIME
Farmers who have increased their stockings and especially in need of getting full value from pastures, but this can be done by spreading adequate use of ground limestone. Limestone can be spread in granular or pellet form. It can provide quick delivery during the next two months before the next wet period. Farmers can, with benefit, take advantage of this lime by spreading it on their pastures. Good weather now is an excellent time for spreading it.

The local agricultural adviser is available to spread the lime on your land. The Department of Agriculture and Fisheries and the maximum price remains at the level of 10s per ton. The farmer can buy limestone at this price no matter how far it has to come from the quarry.

LETTERS TO THE EDITOR

Letter From Bishop's House
The following letter has been addressed to all Priests in the Diocese by Rt. Rev. Dean Barron, Vicar General. Very Rev. and dear Father. No doubt you will have noted that a nationwide ROAD SAFETY CAMPAIGN is being organised under the auspices of the Minister for Local Government from 1st to 11th December next. I have been asked to invoke the co-operation of the clergy in furthering this campaign, and very warmly I do so.

Road Safety involves many factors. It demands charity, courtesy, unselfishness and consideration for others from all road-users. In fact, in view of the seriousness of the problem and of the great tragedies of death and injury which are of such frequent occurrence nowadays, there is a moral obligation on all road-users, pedestrians, cyclists, motorists and drivers of every class of motor vehicle, to do their best to prevent accidents. It is our duty to take every possible precaution to prevent accidents. It is very appropriate if on very busy Sunday, 28th November and 29th December, the clergy in the parishes of the Parish were to urge all road-users to be mindful of the needs of others and to themselves and towards others, everyone they have occasion to use the public roads in any way.

DISPENSATION
In accordance with the wish of the Holy See, a dispensation from the FAST and ABSTINENCE from 7th, 15th, 16th and 17th December (the FAST on 17th and 18th Dec.)

After a little more than three years' deliberations, the Council of the Holy See on December 8th called for the end of the fast and abstinence on 7th, 15th, 16th and 17th December. The Pope has directed that every Parish and Religious Community in the world should be notified of this dispensation. The circumstances of the times make it necessary for the Holy See to call for the end of the fast and abstinence on 7th, 15th, 16th and 17th December.

NEW BISHOP
On the 11th November 1965, the Holy See had appointed as our Bishop, Rev. Dr. Michael Barron, Vicar General of Waterford & Lismore. In your name and in my own I have tendered a cordial welcome to Dr. Barron and fully assured him of our hearty support of the wholehearted loyalty, co-operation and obedience of the clergy and people of the diocese. We pray for his long and fruitful episcopate.

MICHAEL BARRON, P.P.,
Vicar Capitulor
Bishop's House,
Waterford.

Freedom of Speech
Dear Sir. In last week's issue you quote Dr. Sean O'Casey, having stated that any Irishman who wishes to be a member of the British Party could find no better way of doing so than by wearing the Union Jack. This is a very good and timely contribution to the issue of freedom of speech. The right of freedom of speech is the right of every citizen to express his views and opinions on matters of public concern. It is a fundamental right which is essential for the functioning of a democratic society. We must therefore support the cause of freedom of speech and ensure that it is not restricted in any way.
