PENSMAN takes you Behind the Spotlight

I REMEMBER I record this week the qualifications now read as M.D., F.R.C.P. (C.L.M.R.C.P. Lond.), F.C.A.P. (C.L.F.C.A.P.). Among his many duties is that of teaching undergraduate students in the University with which he was attached in Toronto. One of my happiest days was when I was refreshed for me as one of the largest teaching children's hospitals in the English-speaking countries in it at 87 years old. Besides his actual practical and teaching assignments, Dr. Lynch is also the well-known author of several medical books and is now a recognized authority in several fields of medical science. His book on medical laboratory work is at present being prepared for the second edition, the first English edition having sold over 10,000 copies up to mid-1965. It was translated into Spanish in 1962 and into French in 1963. His present task is to have been asked to write a textbook on the Pathology of Diseases of Children and as if this was not enough he is also Chairman of the monthly magazine "Canada Month" which he founded over seven years ago. The Royal College of Physicians and Surgeons has also honoured him by requesting him to come an examiner for them to examine doctors taking the Fellowship of the Society. But despite all those successes and honours, Dr. Lynch, it appears, often years for the happy days of his youth as he writes in his letter to me, "I still seem like a success story boy but have got nothing like the simple happiness we had while going to the Christian Brothers School or making hay and digging spuds in Ballyduff."

There are others of that time who have gone to the top in their fields, though not necessarily with the same distinction. In the 1930's were vintage years at the Brothers in Dungarvan and the records are still there to prove it. Some scholars may have won, some may have tried hard to get and the boys who went through the school at that time have since gone to take their places many of them in great distinction to us ourselves. I am sure the 1930's were vintage years at the Brothers in Dungarvan and the records are still there to prove it. Some scholars may have won, some may have tried hard to get and the boys who went through the school at that time have since gone to take their places many of them in great distinction to us ourselves.

One in particular comes to mind as I write this because of a letter which has recently come from him to a mutual friend. He is Dr. Michael Hartnett who now resides in Toronto and who has gone to the very top in the medical profession as well as the service of Mankind and the Irish. Dr. Lynch and the late Fr. Lynch of Ballyduff, Dungarvan, was one of the most brilliant of that brilliant cohort of young men of the 1930's. Having through his parents and secondary schooling under the care of the Brothers, he went to University College, Cork, where he pursued a course in Medical Faculty. Since he failed he pursued for another time going to Canada but all the years he has never ceased to be a student and his last degree took him to a short course in dentistry, during which he gave lectures in First Aid to students of the Royal College of Physicians of Canada. As a Civil Defence Personnel had

A MATTER OF MONEY

During the recent Waterford County Council's Estimates meeting of Waterford County Council the allocation for Civil Defence came under fire. The amount sought was £5,360 towards which a grant of £4,640 came from the Department but this was £1,145 more than the sum approved last year. It was when a breakdown of the increase was asked for that the criticism began and strengthening the wonderful record of learning which is now part of their heritage.

* * * *

WHAT PEARSE SAID

"It has seemed right before we turn away from this place where we may have bid our final respects to O'Donnell and Rossa, that one name of us should, in the name of all, speak the praise of that valiant man, and endeavour to bring back to us, as far as possible, the spirit that surrounds him and stands around his grave. If there is anything that makes it fitting that I rather than some other than him, who were young with him and shared in his labour and in his suffering, should speak here, it is perhaps that I am the only one left standing on behalf of a new generation that has been re-baptised in the Fenian faith and that has accepted the responsibility of carrying out the general programme I propose to you, then that here by the grave of this unrepentant Fenian we renew our baptismal vows; that here we avow ourselves as he avowed himself in the dock of Dungarvan, as members of the Army of the Irish Volunteers, and you others who are associated with us in today's task and duty, are bound together and must stand together heedless of all other union for the achievement of the freedom of Ireland. And we know only one

FRICITION MARKS STRIKING OF COUNTY RATE

Country Living In Land Of Fantasy

In the main allocation there was a sum of £2,500 to pay fees and travelling expenses to instructors who were working with the Organisation who gave lectures to their colleagues in D.C. This prompted one member to remark that these people were just casting in on the streets for their own good. If this is so there is no need to put the claims of voluntary services.

The action of the Government during the week in granting a double week's pay for one week's training to F.C.A. personnel also puts this claim into perspective.

As a matter of economy the Department of Defence announced an cut in the F.C.A. annual training period.

F.C.A. Officers in D.C. and the Department apparently read the signals wrong and thinking that this had something to do with the cuts, they restored the double grants but retained the reduced training period.

It makes the whole F.C.A. effort as if money and not a desire to serve the Motherland and the country's welfare at the basis of service. This was last Friday the Acting County Manager Mr. J. C. Dowling

referred to the Council's decision to strike a rate and they eventually agreed to a figure of 6/- in the £, but only after a mammoth inside and outside tempos had been slightly raised. The new rate is an increase of 5/- for last year and 2/- less than the original estimate placed before the Council by the Estimates Committee.

On the first occasion a fortnight previously the Council after a three-hour struggle to find the right rate agreed to a further 7/- When the additional meeting got under way last Friday the Acting County Manager Mr. J. C. Dowling

referred to the Council's decision to strike a rate and they eventually agreed to a figure of 6/- in the £, but only after a mammoth inside and outside tempos had been slightly raised. The new rate is an increase of 5/- for last year and 2/- less than the original estimate placed before the Council by the Estimates Committee.

Mr. T. Curran, Chairman, said that this was all very fine but the question was one of the availability of money.

"It's not available," he said, "but we got a sense of responsibility and cut our cloth according to our measure. We have been living in a land of fantasy."

Mr. T. Lannen remarked yes, it would be grand to have castles if you could afford them.

Mr. Michael Hartnett said that the Council had not enough money to carry out essential works like housing. "We can't give the people what they want because of this lack of money," he said.

Mr. T. Curran, Chairman, said that the Government wants us to spend money on schemes we can't afford."

Mr. T. Kyne, T.D., pointed out that this was a bad example to set for the State.

He agreed that the provision of a planning authority was a good idea but the Government wants us to spend money on schemes we can't afford."

Mr. P. Gahill then proposed and Mr. Kyne seconded that the Council adopt the Act and provide £7,000.

Mr. Lannen — Are you sure that if we adopt this that it won't go to another £7,000 or £8,000?

Mr. Hally — There's no reason to think so.

Mr. N. Walsh said that he was inclined to agree with Mr. Lannen that eventually if the Act was adopted the sky would be the limit.

Mr. Lannen — Figures have been given before about certain Acts that were brought in and one was only going to cost £2. In the £ on the rates but now it had gone to 24-

This thing here now could what is very high too.

AN INTRUSION

Details of the Statute requirements to set up the Authority in the County were then given by Col. John O'Farrell, Engineer (max. salary £2,320), 1 Assistant Engineer (£1,880).

Draughtsman (£1,125), 1 Stenographer (£1,445); 1 Clerk, Other (£1,125); 1 Clerk Typist (£920).

Mr. K. O'Ryan said "I think we should scrap this whole idea because in 50 years time we'll all look ridiculous."

Mr. Lannen — Travelling expenses on top of all those salaries as well as £4,000 or more, £50 or £100 thousand.

Mr. R. Walsh said that it would be better for the Council to find out what they had on the books and then to stop throwing money away on something fresh. "Our housing programme is a bad state," he said, "and it could be included when we have our housing plan solved."

Mr. Norman Walsh thought that the new Act was an improvement and that it would fit in with the privacy of the lives of the people. He believed the Council already had adequate powers.

Mr. T. Curran — We didn't hear what he did say, "not for a moment but as a matter of courtesy I think the Council should hear him."

The proposal was approved by Mr. O'Mahony who will attend the Council's next monthly meeting on next Monday to make his case.

Mr. Curran — Were fed up in tend to Minister's orders? The Minister's proposal was put forward by Mr. T. Curran, Chairman, who said that Mr. O'Farrell had a good proposal.

Mr. Curran — We didn't employ one last year and we got on fine!

Mr. Curran — That there was no need for a County Manager.

Before the vote on Mr. Curran's proposal was taken, Mr. Dowling warned Mr. Curran that the Council would be in a difficult position if it was found that it was failing to meet its financial obligations.

Mr. Dowling — It is my duty to point this out to you.

MEMBERS' EXPENSES

A proposal by Mr. T. Lannen, seconded by Mr. O'Ryan, to provide £1,000 to cover members' travelling expenses to meetings was put to a vote.

Mr. Dowling — It was defeated by 14 votes to 3.

Mr. Curran — The result means that there is no decision.

FIRST AID STATIONS

Existing an increase in the expenditure on Fire Brigades of £3,370 from £1,330 to £14,700.

Capt. M. Maguire, Fire Officer, said that as previously discussed the Council had agreed to set up First Aid Stations in the following villages: Ring, Ballinagh, Ballydehob, Ballymaghera, Ballyduff, Upper, Stradbally, Bonmahon and Passage East.

A proposal by Mr. H. Dowd, seconded by Mr. T. Kyne, to provide £1,000 for liability insurance and £100 running costs.

A proposal by Mr. H. Dowd, seconded by Mr. T. Kyne, to provide £1,000 for liability insurance and £100 running costs.

Mr. Dowling — An amendment was carried by 14 votes to 7.

An amendment that the increase be halved made by Mr. T. Kyne was carried and the proposal was defeated by 14 votes to 3.

Mr. Dowling — It was defeated by 14 votes to 3.

Mr. Curran — The result means that the proposal was defeated by a similar margin.

TOURISM

An appeal for an increase in the allocation of the Region 1 Tourism Development Fund from £500 to £1,000 made by Mr. T. Curran.

Mr. Dowling — Are you sure that if we adopt this that it won't go to another £7,000 or £8,000?

Mr. Hally — There's no reason to think so.

Mr. N. Walsh said that he was inclined to agree with Mr. Lannen that eventually if the Act was adopted the sky would be the limit.
