

DEATH OF  
LADY CURATE  
WELL KNOWN IN  
WATERFORD

Patrick O'Reilly, C.G.,  
Waterford, who  
aged 52 and a native  
Waterford, was  
located at St. John's College,  
and, and ordained in June

served in Hexham and  
and, and was recalled in  
He served as chaplain at  
St. La Salle Scholaestica at  
Co. Waterford, and at  
Dunbarrow, and in  
Lockanore, Aglish, and St.  
Waterford, before being  
to Stradbally last year.  
is survived by a sister, Miss  
O'Reilly, Ballybricken.

ister Prepared To  
give Deputation  
Mr. O'Ryan stated at last  
meeting of the Co.  
Council of the Minis-  
r Local Government in  
recently and he had  
to receive a deputa-  
to the Waterford and  
County Councils to discuss  
the question of in-  
Road Grants.

### CRAZY INCREASES

The Waterford Health Authority had jumped the gun by deciding to give a man who already had a salary of £2,400 a year, an increase of an additional £600 a year. This was stated by Mr. Kieran O'Ryan at the quarterly meeting of Waterford County Council in Dungarvan last Monday and at the time he was referring to a decision made by a majority of 10 votes to 6 at a meeting of the Health Authority during the previous week to grant an increase in the salary of the Secretary, Mr. J. A. Hynds.

The Secretary's existing salary of £2,400 meant that he was earning at the rate of almost £48 a week. His new increase his weekly earnings will jump to £540 and on top of that he will receive a lump sum made up of arrears as the increase is to apply from April 1, 1968. At the Health Authority meeting, Mr. O'Ryan was prompted to explain that in his opinion, the increase was worth £60 a week. I am sure that there will be many people throughout the county—farmers, business people and others—who will wholeheartedly agree with him.

There is no doubt but the salaries in the public services are really going out of hand and out of all proportion to what the country can afford. Mr. Norman Walsh remarked at Monday's County Council meeting that since the fact became known that "this crazy increase" had been granted he had received a phone call from a business man who told him that he was absolutely appalled by the decision of the members of the Health Authority to grant such an increase. I am certain there are a great many people appalled by the decision.

There is only one aspect of the clamour for more and more money by those who are already well paid for the duties they have to perform; the Cumann na nAbanteoiri.—The County Engineers' Association—decided at its meeting held in Athlone last Sunday that they would press to the utmost to have their latest increases, awarded by arbitration but not yet sanctioned by the Minister, granted. The new rates would bring the salary of a County Engineer to about £80 a week. The Minister has tutored at the idea of approving of this new salary scale because it could well have repercussions in the ratepayers who will have to foot the bill and pay the back money as well, in this case going back probably to 1967!

Where all these upward trends are going to stop is hard to say but there is no doubt but that the gap between those who have and those who have not is widening every month. It is impossible to assess values when a man on a 9.30 to 5 job for a 5-day week receives £60 a week, while a Catholic Curate in a country parish on a 24 hour call 7 days a week on the average receives less than £12 a week—the amount of the last "increase" awarded to the Health Authority Secretary. Surely there is something wrong when the total income of one person is less than the increase another man, already earning almost £50 a week, receives.

It is these unwarranted, colossal increases at the top that have caused so much unrest among workers generally throughout the country. Who can blame workers earning £12 or £15 a week for fighting for more when they see money being shovelled out to this extent and who can say they are wrong if they strike to win their rights. But Ireland is ruled by a bureaucracy and it has become a paradise for the bureaucrats. However it may well be that they have flung an overbearing house to the extent that he is now about to drop and bring the whole fabric of the affluent society toppling down about them.

Incidentally in the light of decisions of this kind it will come as no surprise to the ratepayers of the county that for the coming year there is an increase of 12/- in the £ in the rate estimate which

## Coast Erosion Causing Serious Heavy Losses To Ardmore Farmers

### PROBLEM EXTENDS OVER ENTIRE COASTLINE

The speed at which the sea is eating away good arable land along the entire coastline of County Waterford was referred to at the quarterly meeting of Waterford County Council held in Dungarvan last Monday when a deputation of farmers, representing a number of landowners in the Ardmore district, were received by the Council and made a request that a scheme for the protection of the coastline be undertaken as a matter of urgency. It was stated during the discussion that during the past 40 years the farmers in the area were losing land at an average rate of 1 1/2 yards per year to the sea.

Mr. M. Harty who introduced the deputation said that the coast erosion problem which the farmers in the Listigue area in Ardmore now faced was the most serious of its kind in the county for a long number of years. Already approximately one mile of Council road had been taken away by the tide while a good deal of very highly valued agricultural land had also disappeared into the sea. As a result the matter had now become a very serious one for the landowners concerned.

Mr. M. Harty who introduced the deputation said that the coast erosion problem which the farmers in the Listigue area in Ardmore now faced was the most serious of its kind in the county for a long number of years. Already approximately one mile of Council road had been taken away by the tide while a good deal of very highly valued agricultural land had also disappeared into the sea. As a result the matter had now become a very serious one for the landowners concerned.

Mr. E. Cunningham who acted as spokesman for the deputation of which Mr. E. Fitzgerald, Mr. Gerald Fitzgerald and Mr. Michael Terry were also members, said that according to measurements from the Ordnance Survey Map for the area, farmers in the area were losing land along the seashore at an average of about 1 1/2 yards per year over the past 40 years. Besides this a big juk of public road had also been swept away while there had been flooding on two other roads in recent years.

## Electricity Supply Board

IN ORDER to carry out essential repairs to E.S.B. networks the Board regrests to inform consumers that supply will be interrupted in the following Townlands on MONDAY, FEBRUARY 17th from 2 p.m. to 5.30 p.m.—KILNAGRANGE, FEWS, ASHTOWN, NEWTOWN, CUMMEEN, RATHMAIDEN, KILCANEV, KILCLOONEY, CURRABAHA, KNOCKROE, COOLNA, SMER, INCHINDRISLA, BALLYNOCK, KILGOBINET, GLIDDANE.

In the following Townlands on WEDNESDAY & THURSDAY, FEBRUARY 19th & 20th from 2 p.m. to 5 p.m.—COLLIGAN, BALLYCLOONEY, CURRABAHA, KNOCKROE, COOLNA, SMER, INCHINDRISLA, BALLYNOCK, KILGOBINET, GLIDDANE.

And in the following Townlands on SATURDAY, FEBRUARY 22nd from 2 p.m. to 5.30 p.m.—KILCLOCHER, ROCKFIELD, BALLYNAHEARY, CAPPAGH, WHITECHURCH, BALLYKENNEDY, BALLYNAMUNTRA, AIRDS, KILCANNON.

Consumers are warned that supply may be restored temporarily during this period for test purposes.  
Under no circumstances should consumers assume that their own installations will remain "dead" during this time.

## BALLINACOURTY WATER SCHEME TO COST £20,000 MORE

The cost of the proposed water supply scheme for the Magnesian industry at Ballinacourty, Dungarvan, has jumped to £120,220 or an increase of £20,220 in the original estimate. This was stated at a meeting of Waterford County Council last Monday when the Council was asked to approve of a supplementary loan to meet the increased cost.

Mr. C. Curran, Chairman, said that there was a considerable amount of concern throughout the county about the Council providing a water scheme for this multi-million pound concern.

Mr. T. Kynne, T.D., said that the money being put up by the Council was more in the nature of a loan than a grant as it would be paid back to the Council over the years. The industry would provide employment for over 100 men and it would be very foolish for the Council to do anything that might stop this.

Mr. A. Deasy said that while he was 100% behind the factory he thought this additional expenditure would have to be questioned.

Mr. J. D. Hally, County Engineer, pointed out that the reason for the increase was that the original estimate and the final figure was that the tenders submitted were higher than was anticipated.

When Mr. Dowling stated that an agreement was being drawn up at present by the solicitors of both sides, the Council decided to adjourn the matter pending the completion of the legal formalities.

### VANDALISM IN DUNGARVAN

We must deplore in the strongest possible manner, the action of the vandals which left the rope of a lifebuoy at the Quay, Dungarvan, cut to small sections. The malicious sense of humour of those concerned was displayed by the fact that the rope, normally wound round the lifebuoy and ready for instant use, was sliced in short lengths, apparently with a very sharp knife or blade, but left in position so that if the buoy was thrown to anyone in difficulties, only a short, three foot length of the safety rope would remain in the rescuer's hands.

Fortunately these lifebuoys are inspected regularly and members of the Dungarvan U.D.C. outdoor staff spotted the way in which the rope was cut during an inspection on Wednesday morning and reported it. To make matters worse, the lifebuoy which was interfered with, was located near the public toilet and jerry at the top of the quay, a place much frequented, where accidents are most likely to occur.

The Urban Council authorities have reported the matter to the Garda Síochána and we hope that the vandals responsible for this act which could well have resulted in the loss of somebody's life will be caught and brought before the court where they should be shown no mercy.

### Our "SMALLS" Bring "BIG" Results

## ORDER OF PRIORITY

Mr. Hally said that if the Council put up £5,000 for protection works, his order of priority would be Ballyville first on which £1,000 could be spent, Tramore second with a further £1,000 and Listigue and Whiting Bay, Ardmore, third, on which the balance of £3,000 could be spent.

Mr. Harty then proposed and Mr. W. Dwyer seconded a resolution requesting the Board of Works to provide a grant of 80% towards a scheme for protection works at Listigue and Whiting Bay. Mr. T. Kynne, T.D., proposed and Mr. Shalloo seconded a similar resolution in respect of Clay Cliff, Tramore, in the region of Galway's Hill and the Ladies Bathing place. Both resolutions were passed. Mr. Hally informed Mr. A. Deasy that there was need for a resolution in regard to Ballyville as this was already before the Board of works.

### Macra Na Feirme National President Says Consent Not Confrontation Is Way To Farming Unity

#### ANNUAL DINNER OF DUNGARVAN MACRA CLUB

Politics was not a dirty word and there was nothing wrong in using Macra to prepare so as to be able to graduate in later life to politics stated Mr. George T. Frost, C.A.O., when he spoke at the annual dinner of the Waterford County Executive of Macra na Feirme, held at Lawlor's Hotel, Dungarvan, last Sunday night. Over 150 members from Macra Branches from all over the county attended the function at which Mr. T. Kiely, Chairman of the Co. Executive presided. The guests of honour included Most Rev. Dr. M. Russell, Bishop of Waterford and Lismore and Rt. Rev. Dr. John Ward Armstrong, Church of Ireland Bishop of Cashel, Emly, Waterford and Lismore, and Mrs. Armstrong.

Mr. T. P. Maher, President of the County Executive, in proposing the toast to "An Uachtarán" welcomed all the members and the guests to the dinner. Mr. Frost then proposed the toast to "Macra na Feirme" and said that young people in rural areas should join Macra as it was an organisation which would teach them to become good farmers. County Waterford was the best example of good farmers coming from Macra and the Macra organisation was an excellent preparation for young people in rural life to fit themselves for the future. He thought there was not a thing wrong in using Macra to prepare themselves to take part in politics later in their lives. Farmers could use a few good men to represent their interests and they would not have their rights placed until they were represented by people who had been properly prepared as farmers or were farmers.

Mr. J. Ryan, President of the National Executive of Macra, C.A.O. in his speech said that County Waterford were very fortunate in getting Mr. Frost as C.A.O. in the County. He said it was not sufficient just to live and do no harm. Young farmers would have to live to live in a positive way and that is what Macra would teach them. Macra must never become a refuge for people as they would have to learn to go on to full adult farming life later.

Referring to the present state of agriculture in the county, Mr. Ryan said that the biggest single problem facing them today was whether they were going to continue to stumble on disorganised without stabilising factors, confrontation after confrontation whether those confrontations were between government and farmers or between one farming organisation and another. He said that any responsible person would say that they were tired and frustrated by the decade of sterile discussion that had gone on. The solution of the problems would come by consent rather than by confrontation and the way to achieve farming unity was by building understanding and bridges to get over the differences that existed. The responsibility for carrying out this policy rested with all the organisations concerned and if the proposals which were now being put up did not become a reality soon, agriculture would continue to stagnate into the 1970's and no one could get far when stagnating.

Mr. G. Curran, Chairman of the County Council, stated an effort by Mr. K. O'Ryan at last Monday's meeting of Waterford County Council in Dungarvan to request an inquiry into the proposed road improvement at the level crossing between Ballymacmore, Dungarvan, and ruled that there could be no discussion of a final car crash on Thursday night, January 29, in which a young man lost his life. When Mr. O'Ryan referred to the matter, the Chairman warned the Council that they would have to move carefully as an inquiry would still have to be held and he felt it would be better not to make any comment until after that.

Mr. O'Ryan, the only member I want to make is that this matter was brought up here twelve months ago and if preventive measures were taken there would be no need to discuss the matter now. Mr. O'Ryan then asked when the Council might be allowed to discuss the matter and the Chairman said that it could be left on the agenda for the next meeting.

Mr. O'Ryan, Chairman of the County Council, said that he had been asked to discuss the matter with the County Council in Dungarvan. He said that he had been asked to discuss the matter with the County Council in Dungarvan. He said that he had been asked to discuss the matter with the County Council in Dungarvan.

### NFA WEEKLY BULLETIN

#### THE BOARD BAINNE ELECTIONS

Suddenly now the Bord Bainne elections loom again and the dominant question of concern to every one of the 110,000 dairy farmers in the country is the issue of 'one man, one vote'.

The election must be held before the end of September and there are four producer seats. The Chairman of the N.F.A. Dairy Committee, Mr. Michael Howard represents 20,000 Dairy Disposal Company producers on the Board.

Under the existing system only 20,000 dairy farmers have the individual vote. These are the suppliers to the Dairy Disposal Company creameries. But the remaining 90,000 creamery milk suppliers do not have the individual vote.

Mr. Bergin, a member of the N.F.A. National Council and National Dairy Committee, who was speaking at a North Tipperary N.F.A. Regional dinner said that all the 90,000 suppliers paid a levy to Bord Bainne and they should also be entitled to vote individually for the candidates of their choice. Democracy demands that everyone who pays a levy must in justice be entitled to have a direct say in choosing the producer representatives on the Board.

Mr. Bergin said that the process of amalgamation has become more evident each day and which has the full support of the N.F.A. because of the benefits it can bring to the supplier in better prices and services means that a number of societies have surrendered their voting strength for the good of the dairying industry as a whole.

### MEASURES NEEDED TO INCREASE SHEEP NUMBERS

For three hours the N.F.A. National Sheep Committee, with delegates present from all the trading areas, discussed the immediate measures needed to halt the drop in the sheep population and to maintain confidence in the lamb trade.

Concern was expressed at the fact that sheep numbers had dropped from a total of 5,000,000 in 1965 to around 4,000,000 at present. It was agreed that a long-term National Sheep Policy for the entire country was an urgent necessity and that all interests should get together to work out the plan to accelerate production and to investigate market trends and the strength of export outlets.

The feeling of the Committee was that one of the major handicaps to increased production was that producers feared there might be a recurrence of what happened some years ago when prices fell alarmingly through failure of the marketing system.

It was stressed that the most pressing measures needed to give producers the confidence needed to meet targets set them was to establish a floor price, thus guaranteeing prices at an economic level over a twelve-month period. Policy was the dominating theme of the Committee's discussions and the members were unanimous that the following measures must be implemented by the Government as early as possible to give the sheep industry the boost it needs.

### MORE MONEY NEEDED FOR RESEARCH

The President of the N.F.A., Mr. T. J. Maher said in Cork that the resources available at present for the investigation and development of new dairy products were entirely inadequate, particularly in light of the ever-growing competition that had to be faced on the world market for dairying products.

Mr. Maher, who was addressing the inaugural meeting of the Dairy Science Society in U.D.C., said that it was absolutely vital that through research be carried out to try and discover new means of ensuring the maximum utilisation of all component parts of milk and success in this direction could greatly relieve the present problems attached to the marketing of dairy products.

Tallow and Round About Notes

West Waterford Flanna Fall... The 19th annual West Waterford Flanna Fall Social was held at the Adelphi Hotel, Duncannon, on Thursday night, February 6th. Upwards of 250 attended and it was the most successful social to date...

Armore and District Notes

Appointment - Miss Ann Keaveys, daughter of Mr. and Mrs. James Keaveys, Ballinacorney, Armore, has now been transferred from Killybegs Post Office to Dungarvan, where she takes up duty as telephoneist.

Cappoquin News

Club News - The news from the G.A.A. scene this week is the news that Cappoquin and Armore clubs will retain their separate entities but will field a combined team in hurling and football in 1969.

NEWS FROM LISMORE

Whist Results - Top prize in the weekly whist drive held in St. Charles' Hall on Tuesday night was won by Mrs. L. Ryan, New Street, with a score of 148. Second and third prizes were shared between the following: Mrs. M. Whelan, Park Road, and Mr. M. V. Gough, Chapel Street, all with scores of 141.

SCOUT NOTES

11th Waterford St. Mary's, Dungarvan. Troop Chairman - Yes, everyone has a part to play in Scouting and our Troop Chairman is a vital cog in the machine. The 4th Quarter does not organise the ordinary activities of the Troop, he leaves that to the Scout Leaders. However he is in constant touch. Names of parish duties prevent him going to meetings, but you can be certain that the Chairman is your friend and he is really interested in you as an individual.
