**BALLYSGAGRT NOTES**

Hospitalised—We wish a speedy recovery to Mr. Patrick Troy at present in Ardkeen Hospital, Waterford.

**G.A.A.**—Sunday was a black day for Ballysgagrt hurlers, they travelled to Tallow to meet the Shamrocks. The game was very one-sided, the Shamrocks were far superior to the local boys, who never really got going. From the beginning the Shamrocks looked like winning and every man on the team hurried their hearts out and Ballysgagrt had no answer. Better luck next time boys.

We congratulate Brian Shanahan who was on the Waterford U-21 hurling panel for the past two Sundays.

**J.C. WORLD VICE-PRESIDENT IN DUNGARVAN**

At a mid-south regional meeting of Junior Chamber Ireland held in the Devonshire Arms Hotel, Dungarvan on Wednesday, April 16, the local Chapter were hosts to Gregorius Hoeg, assigned World Vice-President from Denmark.

Chapter Presidents and members from Clonmel, Carrick-On-Suir, Thurles, Youghal and Dungarvan heard local President Austin Hallahan introduce and welcome Vice-President Hoeg in Irish.

In his address, Mr. Hoeg covered all aspects of the Junior Chamber movement and said that it was the member who was prepared to participate in projects who would reap the benefits from experience in organising, public speaking, teamwork and from motivating others. He felt that younger members concerned with the future of the town would find sufficient challenge and satisfaction through participation in Junior Chamber.

On new membership, Mr. Hoeg said that the new member is the most important member in the Chapter as the Chapter depended on him rather than the other way round. He stressed the importance of the Chapter seminars, he said, were the best methods for the enrichment of new members.

Discussion groups were then formed under the chairmanship of Mr. Michael Mooney, Regional Vice-President and a very lively discussion followed.

At a dinner held subsequently, Mr. Hallahan, on behalf of the Dungarvan Chapter presented an inscribed Waterford Glass Ash Tray to Mr. Hoeg.

**CAMOGIE FINAL**

Tallow club was on 'Sunday next, play hosts to the camogie teams of Waterford and Cork, while the counties meet here in the final of the Munster secondary competition.

This will be a big attraction as far as camogie people are concerned and I am certain that a big crowd will turn up for the game.

**COLLEGES S.H. SHOULD PRODUCE A CLASSIC NORTH MON. FAVOURITES**

(By Commentator)

The All-Ireland senior hurling colleges final between North Monastery, Cork and Kilkenny C.H.S. overshadows all other events on the county on Sunday next and in the expectation that this game will produce a hurling classic, a crowd in the region of ten thousand people are expected at the venue.

The Fraher field, because of its location and suitability, has been selected for this big over-the-hill game and for some of the very old timers, it will recall memories of the days when championships All-Ireland were played at the venue.

The Harty Cup final, which is the Munster final of this competition attracted a crowd of nine thousand so the assumption that more than ten thousand will come here for Sunday's game, might prove to have been a conservative estimate. The circumstances elaborate arrangements made to handle the match and the public are asked to operate by obeying the stewards and to refrain taking their seats during the Shandon road. The game which will be refereed by All-Ireland referee Sean McInerney is being televised at night in Gaelic Radio.

The result of this game, is a matter that we must leave until Sunday, but in the reckoning of those who follow the progress of colleges games, the Harty Cup holders, North Mon are favourites to win and the news now that two of Kilkenny's prominent players are doubtful starters, would add support to this opinion.

Since the introduction of the Colleges Council, there will be no curtain raiser to this game so nothing will happen before 3 p.m. at the Fraher field on Sunday.

**GAELTACHT FINAL**

On Sunday evening, the local derby between neighbours, Ring and Old Parish, will take place at the Fraher field. The Gaeltacht championship at Gweedon in June, should attract a large number of enthusiasts to the Dungarvan venue.

Up until now, this area was represented by a combined team, but such an arrangement being in contrast with general rules it is not being permitted this year and one or other of the Gaeltacht clubs must go it alone.

With such a prize at stake, you can expect an all-out effort by both teams who will be at full strength, and the result should give us an exciting hour of football.

When the sides meet in the championship last year and in the Winter League, this year, Old Parish won on both occasions and will therefore be favourites to repeat the result, but in a game such as this, one never knows.

**UNDER-21 CHAMPIONSHIP**

Sunday next, marks the opening of the under 21 hurling championship in the West and although the programme has been somewhat interrupted by the big colleges game and by the Ring v. Old Parish match, several of the fixtures will be played. Two of these go on at Lismore, where the proceedings will be marred by a clash between Lismore and Dungarvan. This game is of interest because of the inter-county men, Daly, McGrath and Ormond available to both teams who will be at their best. They play well against Tallow last year, and considered themselves unlucky to have lost to the club of the year as well as the hurler of the year in the previous season. Dungarvan, of course, gave their best performance in this grade last year and they too, were unlucky to have been without a number of their regulars when losing to Cappoquin in the quarter final. They will have improved since then and may prove to be a biggest obstacle than Lismore expect.

The second match here will see Cappoquin in opposition to Fourmilewater who are reportedly to have been weakened considerably by the abolition of the ground in the arrangements. They cannot now, play players

who will be assisting Slabhog in the junior grade this year. My information about Cappoquin, is that only one of last year's side is ineligible to play in the grade this year, and such being the case, they must have a powerful chance of going the distance in this championship. At full strength on Sunday, they must be body-faunted to win.

Abbeyside and Eire Oge, scheduled to meet in this championship on Sunday will not now play and this game gives way to the under 21 football clash between Ballinacult and Clashmore. The venue cannot be Dungarvan, so at the time of writing, we are unable to say where the game will be played. It is hoped and expected that the game can be played at a venue near Dungarvan in order to allow both clubs an opportunity of seeing the colleges match.

In this clash, Clashmore will be holding for the first time to the grade, so it is not possible to gauge their chances against the current champions, Ballinacult, who will have such players as the Fives brothers, Fitzgerald, Flynn, Hanrahan, etc. Included on their side, expected to see Ballinacult get through to the second round.

The other hurling game listed for the weekend, is a match between Oge, Stradbally and Forde, which will be a first round under 21 tie. Oge, Stradbally and Forde are favourites because of non-grouping this year, are expected to be weak and it is therefore unlikely that they will survive against Stradbally, who were fairly strong in the grade last year.

**TRIALS**

With minor championship time approaching, trials are being held in the order of the day and games in all grades are arranged for next week.

On Tuesday night next, Western clubs will send their best men to Dungarvan, where they will be seen by the selectors in a divisional trial. An Eastern trial is also arranged and on the following week a county trial will take place. Similar arrangements are in hand for the footballers and in the next few days, trials will be held under the aegis of the selectors. A football challenge in which the under 21 teams were to have played the seniors and which was arranged for Tuesday night, had to be cancelled because the venue became unavailable at the last moment.

On Wednesday night of this week an intermediate hurling trial was held at Eire Oge's training ground and later in the week a junior football trial will take place at a Dungarvan venue. Both the intermediate hurlers and junior footballers will play Kerry in the championships on next Sunday week. The very odd thing about these games is that both are on the same day, with one game at Tallow and the other at Dungarvan.

**PHLEAN CUP**

This competition was held up to see Shamrocks play Ballysgagrt in what was regarded as a vital league tie. For every man it was worth the effort, and what most was described as the best game of the competition was served up by the side, Shamrocks played their best ever hurling and they were forced to do this in order to survive against a top class Ballysgagrt team, whose only left no doubt about their own of winning the junior championship this year.

In the relaxed minor championship hurling game, Ballinacult defeated Collihan fairly comfortably at Abbeyside on Tuesday night last.

**PHELAN CUP**

For every man it was worth the effort, and what most was described as the best game of the competition was served up by the side, Shamrocks played their best ever hurling and they were forced to do this in order to survive against a top class Ballysgagrt team, whose only left no doubt about their own of winning the junior championship this year.

CLARE'S EASY WIN Waterford Unexpectedly Beaten

Clare 4-12; Waterford 4-5 Waterford's defeat at the hands of Clare in the first round of the 21 Munster hurling championship at Thurles on Sunday last, was as unexpected as it was decisive.

Waterford's exit from a championship in which they were expected to do well came as a blow to their supporters who were, before the match, talking in terms of an All-Ireland.

Yet Waterford never fulfilled the promise shown in training sessions and practice matches and looked ragged in comparison to a Clare side whose finishing margin in no way did justice to their overall dominance of the game.

It was Clare's poor finishing which in Waterford evaded real trouncing. They had the chance but squandered too many of them and kept Waterford's hopes in the game alive when they should in fact have been completely shattered.

Waterford showed improvement after Martin Hickey's goal from a 21 yards free. Charlie McCabe and Jim Greene added points but a lack of thrust in a poor forward division negated some of their best efforts and they were extremely lucky to hold a 1-3 to 0-5 interval lead.

Clare were quick to avail of the wind after the change over and had a goal by Michael O'Connor within a minute of the restart. Derry Flynn kicked another goal seven minutes later to give Clare a lead they never looked like relinquishing, and despite a Waterford fight back the Banner county weathered the late storm magnificently to run out easy and deserving winners.

Clare's best were Jim McNamara, Tom Glenn, Billy Meehan, Joe Barry, Michael Moroney, Con O'Neill, Derry White, David Behan, Martin Hickey, Terry O'Connor, Jim Greene, Moasia Whelan and Jim Goulding, tried hardest in a disappointing Waterford side.

Waterford - D. Behan; J. Murphy, J. Heffernan, D. McGrath, J. Fleming, J. Greene, Goulding, M. Whelan, T. O'Connor, J. Flynn, M. Hickey, D. O'Meara, C. McCabe, M. Keary, T. O'Connell. Subs - G. Daly for Murphy; P. Morrissey for Doyle; P. Morrissey - P. Ryan, Tipperary.

FRIARY SHOCK LISTOWEL

St. Augustine's Friary, Dungarvan, created a major surprise last Wednesday week, when they beat Listowel C.B.S. Munster Colleges Grade B Competition.

This was a good game of football but was tough and rugged at times. The Friary were without three of their key players including the goalkeeper. Listowel had a surprising amount of the ball but could never get inside the high-flying Friary backs.

The Friary played against a strong wind in the first half but led by 1-2 to 3 points at the interval. The first half was played at a fast pace and D. O'Sullivan and Donal Keary had the edge at midfield for the Friary and gave the Dungarvan College forwards many scoring opportunities. Listowel could never get a grip on the game even when aided by a strong wind in the second period.

Michael O'Connor and Jim Green and Sean Treacy broke up many dangerous attacks by Listowel with their catching accuracy. The second half started well for the Friary with Aiden Barron scoring two points in succession. Jim Russell was in sparkling form for the Friary and scored a fine listed goal. Listowel made a succession of attacks mid-way through the second half and cut their arrears to one point, but Michael Flynn and Claude McCarthy held their heads and the Friary swept up fields, led by Don Hayes, who got injured shortly afterwards and had to be replaced by Liam McFadden, who proved himself well, while Tim Sullivan and Pat Tobin also played extremely well.

The Friary now go forward to meet Ennistymon in the Munster semi-final in this competition. Friary - P. Ryan, Claude McCarthy, M. Flynn, S. Treacy, M. O'Connor, J. Green, G. Sullivan, D. Keary, D. Hayes, T. Sullivan, P. Tobin, A. Barron, Russell, Subs - McFadden for D. Hayes, P. O'Leary. PAST PUPILS RETURN Last Sunday was the day the Friary was flung wide open once again to welcome back the past pupils. Little Hope Of Government Help For Dungarvan Quay Repairs

Up Against Stonewall Say Dail Deputies The three Dail Deputies for the constituency, Mr. W. Kenneally, Mr. P. Browne and Mr. E. Collins attended the monthly meeting of Dungarvan Urban Council last Monday night to discuss with the Council the problem of financing the cost of proposed repairs to the quay wall and the need for the upgrading of the status of the Post Office in the town.

Mr. T. Kyne, Chairman, welcomed the deputies and said that the Council wished them to raise the two problems with the appropriate Ministers. The most important matter was that of the quay as this means between £3,000 and £8,000 to the dockers discharging the boats that used it. If the quay had to be closed altogether to shipping this would be a great loss to these men.

The Chairman added that the Engineer had stated that he could not allow ships to dock at the quay until such time as the necessary repairs were carried out and it was estimated that these would cost £30,000. "To find that kind of money in this town," he said, "is almost impossible. We could provide about £10,000 which we will get for the sale of the Shamblies to the Department of Posts & Telegraphs but we would want you to try for a grant to cover the balance of the cost."

Mr. J. P. Robinson, Town Clerk, said that the Council had already tried all the Departments for a grant for the quay. Mr. Kyne then pointed out that not only were the repairs affecting the shipping at the quay but there were also fears that if it collapsed the stores and business houses located along the quay would be in danger. "If the quay wall goes," he said, "it is quite possible that in a short time, say two weeks, all the front of the quay would collapse. This makes the matter pretty serious for everyone."

Mr. P. Walsh, Town Engineer, told the deputies that in his present condition he could not countenance any further shipping into the quay. He said that the further subsidence of the quaywall the roadway would be affected and could conceivably become impassable and if no repairs were done this would greatly reduce the value of the properties along the quay. It is quite a serious matter," he said, "and not only for the town in general but for the traders on the quay in particular. The Angling Centre on the quay would also be affected and this would interfere with the tourist development in the town. We have tried and tried for many years to get Government help to do this work but all to no avail."

A STONEWALL. Mr. W. Kenneally, T.D. said that following receipt of the letter from the Council on the matter he had approached the Minister for Transport and Power and was informed that the responsibility for the upkeep and maintenance of the harbour and the quay rested with the Urban Council as the harbour was not incorporated in the Harbour Act of 1946. He added that the Minister's Department had supplied him with statistics which showed that the main imports to Dungarvan were fertilisers and coal and that in recent years the number of ships and the total tonnage had dropped considerably. "It looks as if we are up against a stonewall in this," said Mr. Kenneally, "but while we will do all we can to get a grant it doesn't look good as the Department is not disposed to giving money for the upkeep and repair of harbour installations."

He added that they might take it from the road aspect and ask the Department for Local Government for an extra road grant to repair the quay to keep the road there from falling into the sea. Mr. E. Collins, T.D. said that he too had made representations to the Minister about the repairs and had received a letter stating that the matter had been examined and that it would not appear to qualify for a grant from any funds at the Minister's disposal. It looked as if there would be no Government help for the repairs, but he assured the Council that he would be prepared to continue to try further.

Mr. P. Browne, T.D. said that he would also do whatever he could to help. It was a very serious matter for the town and he felt that if the repairs were not done now they would cost far more than £30,000 in another few years. Mr. Kyne then told the deputies that the Council could go as

More about decimals Knowing that .5 means a half, how do we find the decimal for a quarter and for three quarters? A quarter is, of course, half of a half. Divide .5 by 2 and we find it. The answer is .25. Remember the point and the fact that you can add ciphers after any decimal. For instance .5 or 10/- can be written as .50 as it will be in our new money system - meaning fifty pence. Three quarters or 15/- can be got by multiplying .25 - a quarter - by three, i.e. 75. Thus £1.55 will be written £1.25 £1.10s. will be written £1.50 and £1.15s. £1.75 the 25 50 and 75 in each case standing respectively for 25, 50 and 75 new pence.

ANOTHER BIG CHARITY WALK FOR DUNGARVAN

The Catholic Boy Scouts of Ireland are organising another big charity walk on Sunday, May 18, and the Abbeydale Troop who so successfully organised last year's local effort will again arrange the walk for the Dungarvan area on this occasion.

HERE'S HOW IT WORKS: Walks will be arranged all over Ireland on Sunday, May 18th. The Walks will be along special routes with Checkpoints at regular stages. Each walker will get a Walker's Booklet and then finds people to sponsor him (or her) in the Walk. The Walk is not confined to Scouts—everyone can join in. The sponsors agree to pay a stated amount for each mile walked. The Walker steps out on May 17th and covers as much, or as little, as he wishes of the route. The number of miles he walks is recorded on his Booklet. After May 18th the Walker collects from his sponsors according to their promises. For example, if someone sponsors a Walker at 6d. per mile and he walks 15 miles they pay 7/6. When all the money has been collected the Walker returns it to the Walk Organisers.

WHAT HAPPENS THEN? The money is divided four ways—25% goes to National Charities, 25% to Local Charities named by the Local Walk Organisers, 25% to National Scouting and 25% to Local Scouting. The shares for Scouting will be allocated in accordance with the amount earned on the Booklets issued by each Association. Therefore, the more that's earned on the Booklets issued by your Group or Unit the more you get. The following local charities will benefit from the Walk:— 1.—St. Vincent de Paul (Abbey- and Dungarvan). 2.—Friends of St. Martin. 3.—St. John's School.

**INCREASE IN BUTTER QUOTA**  
The Minister for Agriculture, Mr. Blaney told the Dail that our butter quota in Britain for the coming year showed an increase of 4,000 tons over last year's figures. The quantity of cheese to be supplied by Ireland in the year 1970/71, he said, would be the same as the annual rate for the past two years, whereas the quantities to be supplied by the other major suppliers showed a reduction.

This news will be welcomed by the country's 110,000 dairy farmers—but we have still a long way to go before we get our proper and just share of the British market for our dairy produce.

It must be pointed out that even with a quota of 30,000 tons we are still only lying fourth behind New Zealand (170,000), Denmark (93,000 tons) and Australia (65,100 tons).

Our quota represents in fact only 8% of Britain's total imports of butter which run to 390,000 tons to 400,000 tons a year.

And it must be remembered too that we are one of Britain's biggest trading partners—a fact that is certainly not reflected in what they take from us in the way of dairy produce, which as is well known is selling today at merit and on quality on the British market.

The British housewife is looking for Kerrygold butter and Irish Cheddar cheese. She is looking for our butter and cheese because she knows she is getting the very best—yet we must fight every inch of the way for an increase in quotas.

The British market is vital to us in a period of great compression and difficulty in the international dairy market. The butter we sell to Britain is sold at 3/- a lb. whereas some of the butter we must sell on other markets has to go at 1/- a lb. This is a fact of life and Bord Baine loses no opportunity in trying to win new markets and in trying to get the very best deal possible for our produce.

At the recent pre-Budget talks, the N.F.A. delegation, headed by the President, Mr. T. J. Maher, pressed the Minister for Agriculture to seek greater access for Irish butter, cheese and other dairy produce on the British market. Mr. Blaney intimated that he accepted the N.F.A. point of view on this vital subject and promised that he would continue his efforts to achieve greater access than we have now.

able return is got for the taxpayer's money. There has been a lot of dissatisfaction amongst dairy farmers at the job the National Dairy Council has been doing and at its monthly meeting the Limerick Co. Executive passed a resolution that Bord Baine be entrusted with the promotion and the marketing of dairy produce on the home market. The job that the National Dairy Council has been entrusted with is a very vital one. It calls for a streamlined and continuously-active approach and nothing less than the best from this Council will now satisfy Irish dairy farmers.

**N.F.A. REPLES ON MARGARINE ISSUE**  
If less than 2,500 tons of margarine was directly competitive imagine how the margarine manufacturers could express the fear that a tax on even the entire margarine output would close down factories in Drogheda, Dublin and Cork, said the N.F.A. in a statement.

The N.F.A. was replying to statements made by the Margarine Manufacturers' Association at a press conference in Dublin.

The N.F.A. statement went on: "Mr. Peter Keehan, Chairman of the Margarine Manufacturers' Association talked about £30 million of state money being spent on supporting milk and butter production. But it is accepted by all those in whose touch with the agricultural industry that this is in effect an investment in the dairy- and livestock sectors, which realise over £100,000,000 in exports for the economy each year. This figure makes a very substantial contribution to the bolstering of our external payments position, with benefit not only to the agricultural sector but to the vast body of Irish workers as a whole."

"We make no apology for defending the interests of 110,000 Irish dairy farmers and their families, who depend for a substantial share of their income on milk production and whose income would be threatened by any reduction in butter consumption. We make no apology for defending the image of a purely native, Irish product against a product that is manufactured to a large extent from imported vegetable oils which on the margarine manufacturers' own admission cost this country £1,000,000 a year to import."

**FARMER MUST BE SEEN AS A PROFESSIONAL**  
"There is a new awareness of the need for and value of professionalism in our Irish Agricultural Industry today but in certain circles one finds an entirely wrong concept of the place and role of our greatest industry both in the economy and in society generally," said Mr. T. J. Maher, President of the N.F.A. speaking in Dublin.

Mr. Maher, addressing the U.C.D. Veterinary Society, regretted the tendency to view agriculture as something apart from the rest of industry and, even worse, to view the farming community as almost distinct from the rest of society. This tendency was also evident in other fields. Govern-

ment incentives to improve the earning power of agriculture were often looked out by people outside agriculture as "hand-outs" for farmers. But in fact agriculture brought in almost half of our total export earnings each year and apart from the 300,000 people directly employed in it, gave indirect employment to tens of thousands more. Furthermore, the value of these exports included a large net gain as most of the raw materials were produced at home.

"Farmers generally appreciate the need for an improvement in their professional abilities, to increase their incomes and play their full part in the life of the country," continued Mr. Maher. "It is they are just the same as any successful professional who wants to make the greatest possible contribution."

"We are preparing for Common Market entry negotiations and our success or failure in free trade conditions will depend to a large extent on the performance of agriculture. E.E.C. conditions will offer great opportunities for advancement in Irish agriculture. The place of agriculture and its importance must therefore be clearly defined and clearly seen by those in authority and those in a position to influence public opinion."

**THE POTATO QUESTION**  
The N.F.A. said in a reference to the present high price for potatoes obtained in the Dublin market, that the average under potatoes had been falling in recent years because of the uncertainty of the market.

Last October, a spokesman pointed out, the Association had taken steps to obtain an economic price for growers and efforts were continuing in this respect. An important aspect of this effort would be a suitable phasing of supplies on the market in an effort to avoid extreme fluctuations in prices that benefited neither the housewife nor the producer.

If prices in the Dublin market were high now, it must be remembered, said the spokesman, that producers were also paying very high prices for seed potatoes and they had no guarantee that there would be a stable market in the coming year. Furthermore, their costs of production had risen sharply in the past year and the Association felt it was imperative that every endeavour be made to rationalise the market position and stabilise prices at a level that would ensure a reasonable return to the producer.

## ALCOHOLISM DO YOU UNDERSTAND THE PROBLEM?

Though I shall deal with the male alcoholic throughout this article, the number of female alcoholics is alarmingly high, and the problem is identical for both male and female. "She" may be substituted for "He" throughout. Many of you reading this article know someone who is an alcoholic; a wife, a husband, a son, a daughter, perhaps a good friend. Whoever it may be, and alcoholism is no respecter of persons, you will have noticed very clearly: suffering, hardship, frustration, shame, a sense of utter hopelessness in the lives of the relatives of the alcoholic. The misery of the alcoholic himself is less apparent, as this is one of the keys to the problem. Drinking to excess is the most bitter, useless and destructive means anyone can take to ease the pain of worry, tension, anxiety or any other suffering whether mental or physical. Yet such means are used by many thousands of unhappy people who eventually come to be categorised as problem drinkers, compulsive drinkers, drink-addicts—alcoholics. The alcoholic is so dependent on alcohol, that, of himself, he cannot do without it; he has sunk as low as it is possible to sink, and that he is no longer worthy of respect. Yet he is powerless to do anything about it. Understanding the alcoholic may be difficult, but, without patient understanding, his problem is made much worse. Condemning, nagging, remonstrating with a person suffering from the disease of alcoholism is useless and even dangerous, because it tends to aggravate the mental suffering and thereby causes further bouts of drinking. Gossiping about him is positively sinful, and probably gravely sinful because of its sequencies for the alcoholic and for those trying to help him. Beginning irresponsible and uncharitable remarks by saying "I don't mean to be uncharitable, but..." or "I know you shouldn't say that, but..." does not make the remark any less malicious.

## Mr. Dick Waters

## TOO MANY DOING. ACADEMIC COURSES

"Our universities today are turning out thousands of graduates who cannot possibly be accommodated in this country, whilst at the same time we are crying out for technically trained people," said Mr. T. Buckley, the I.N.T.O. representative on the Co. Waterford Vocational Education Committee, at the monthly meeting in Dungarvan last Monday.

The Committee urged parents to take teacher advice on the type of schools for which their children were best fitted. The matter will also be discussed at a future meeting of representatives of the I.V.E.A. and Department inspectors.

Mr. A. Deasy said three-quarters of their children were doing academic subjects and that was far too high a percentage. The country was becoming more technically minded but unfortunately the schools were not.

Appointment—Mr. Donald Keller (43), B.Sc. (Econ.), Dorman, Newtown Road, Wexford, has been appointed Chief Educational Officer to the Committee. He will take up duty on September 1st next. This information was conveyed to the Committee in a letter from the Local Appointments Commissioners.
