MANAGER'S STATEMENT

Mr C O Connor, Co Mannith the position and additional and add bers He said that TASS sought recognition by the City and would be subject to the County Managers Association proviso that no undue difficult in 1972. The latter then consulted the Staff Panel as they were obliged to do and in March 1973 the Staff Panel stated that it was not prepared to give its consent for this recognition He felt that they

had been influenced in this by the decision of Congress (The Irish Congress of Trade Unions) The Manager went on to say that both the unions concerned were affiliated to Congress and Co Managers Association had not taken a final decision on the question of recognition Congress was still deciding as to which union should represent the local authority engineers. He said that Congress was attempting to reach an amicable solution and he understood that the attitude of

resorted to industrial action tion He said that he could see an analogy between the position and the bus strike in Dublin in that whether they turned left or turned right it would result in industrial

The Manager concluded his statement by saying that a continuation of the engineers strike would affect the continuation of the public services in the county and he suggested that the Council might bring the matter to the notice of the Minister A solution to the dispute would have to be reached he said but it was a complex situation which would not be solved by a "yes" or "no" from the Managers Association and would require some ad hoc machinery to be set up to deal

with it
Mr T A Kyne TD said
that while he regretted that the local engineers had found it necessary to take this action it was their right to do so However he pointed out that Congress felt that such action of the congress of the c jeopardised any chances of solving the dispute and the only hope he now saw was the intervention of the Minister to try to reach some interim settlement He thought there should be some way of bringing this about and he felt that if an offer to intervene was made

TASS should accept it Senator A Deasy said that this strike had now lingered on for 14 months and he felt that Congress should have found a solution to it by now A similar strike by the engineers had cost upwards of £1 million in Co Cork and he

matter was not an inter-union pay the overseers and other dispute workers if they came out in

Coffey, the Council also passed a resolution calling on the Minister for Labour to intervene in the engineers strike as a matter machinery to deal with the situation

A further resolution proposed by Mr J Quirke and seconded by Mr P Cahill calling on the matter of the reinstatement of Mr Gerry Murphy as a member of the Council's engineering staff was also carried by 14 votes

feature game Games in this WATERFORD V CORK Waterford meet Cork in the senior and minor hurling first rounds of the Munster championships at Walsh Park on Sunday next and elaborate presented by the product of the senior and many been very close the advantage of course being with Cork Our side has had several outgood to side has had several outgood. Novice Artistry in the Home Competition This will be held method the County Committee of Agriculture offices in Dungary and The girls are Bridie Daly Mary Lyons and Dodo Lyons A team is also entering in the National Competition for Artistry in the home this team will be known next week

On Sunday 5th May, a team travelled to a field evening in Ballylooby The team was John Ballylooby The tea is difficult to understand why he is replaced by a compara ed Cork side when literally destroying the All-Ireland champions, Limerick, that many be-neve that they have ruined the tive newcomer Several interesting champion, ship games are down for decision over the week-end including the meeting between Mitchels and Ballinacourty in the first round of the senior for

Munster championship I do not agree with this opinion nor do I believe that the league final properly reflected the hurling capabilities of either of the sides Looking at the game on Telly, I thought that Limerick's defence leaked like a seive in front of a wounded goalkeeper who stopped nothing goalkeeper who stopped nothing that was hit at him from thirty yards out All the news-papers and the majority of those who attended the match were agreed that Limerick completely fell to pieces
In writing this I am not

attempting to make the case that Cork are not a very good side I am merely expressing the opinion that Cork are not good as the score in the as good as the score in the Cappoquin where Geraldines to be Sunday will prove this and Affane meet in their sec even though they are likely to ond round game in the losers win again here Waterford selectors came up

day He is a newcomer to the county side and satisfied the selectors with his debut against Wexford over the week-end He replaces Mossy Whelan who is out because of a shoulder inthis game jury which he received in a SENIOR TEAMS tournament game which he should not rave played Andy Heffernan has been brought to centre-field to partner John Galvin Pat O Grady is back at left half forward and John Kirwan is in at full-forward where he replaces Liam Canning who is now among the subs Michael Ormonde is back on the side and is at right full where he effectively operates Martin Geary is in the other corner

The Cork team shows just one change from the side which finished in the league final against Limerick Brian Murphy coming on for John Buckley at centre-half back The team shows four changes from the side which beat Waterford by two points in the league game at Dungarvan in March Taking all factors into con-

Taking all factors into consideration one must row in with the chances of Cork and give them the vote but my pergive them. sonal opinion is that there is very little difference between the teams if both hit their best form and I will not feel in the Street, Dungarvan, on least shocked if we beat the monday next, May 20th made the hottest favourites for a game in a decade Incidentally when the sides met at Walsh Park in 1967 Waterford won decisively even though again on that occasion Cork were hot favourites

CALL TO REPLACE TOWN **COMMISSIONERS** BY COMMUNITY COUNCIL IN LISMORE

A call for the establishment a community council to replace the town commissioners was made by Mr P Vaughan at the monthly meeting of Lismore Town Commissioners

Putting forward his proposal Mr Vaughan said that if, as seemed likely, no additional nominations were received for the forthcoming elections, the Commissioners should consider ence and vesting their functions in an area community council the residents of each street electing two representa-

Such a council would have the great advantage that it could be entirely divorced from political place whatever in local affairs
Mr Vaughan's proposal met
with a mixed reception The with a mixed reception. The chairman, Mr Tom Murphy said that the community would have a greater voice in such a council but he doubted if such a body could be freed from politica pressures Also, he feared that such a proposal at this stage might infringe on the rights of intending candidates

Mr K Fenton and Mr A.

Drohan disagreed when the
Clerk, Mr M Pollard told the meeting that the Commissioners did have authority to dissolve themselves Mr Drohan also took the view that politics could not

When the County Registrar Mr J F Kenny informed Judge Fawsitt at the Easter Sittings of Dungarvan Circuit Court last week that the only solicitor on the free legal and panel from Waterford City and County was Mr E P King Solicitor Dungarvan the Judge complimented Mr King for making himself

The matter came to when a defendant at the court applied for free legal aid and Mr King agreed to act for him

Judge Fawsitt said that the defendant was very fortunate that Mr King had made himself available to conduct his case, but" said the Judge "it seems surprising that there is only one member of the legal profession on the panel between the city and county

Mr King who is President of the Waterford Law Society, said that he personally would very much welcome a decision by some of his colleagues to join him on the panel

It was at this point at Question Time that Mr Noel Davern, TD, drew attention to the position in West Water ford when he asked whether would be located in the area and if not whether the Minis ter would consider West Waterford as an area of very high priority because of the high unemployment and the

lack of competition in regard to unemployment in the area He got an assurance that the attention of the Minister for Industry and Commerce ago and as usual nothing more has happened

While on this matter of ndustries, my attention was drawn to the fact last Monday that during the previous week planning notice appeared in daily paper notifying the Co Council that permission was being sought for the erection vick I naturally became curious and sought informa tion from a number of sources which I expected might be in a position to supply it My quest however proved unsuccessful and the best that came up were a few conjectures

The first of these inclined to the belief that the plant referred to was the ice plant which has been sought on bereave- behalf of the fishermen at Helvick for a considerable time past but somehow or other I was not too inclined to go along with this The only other conjecture was that the plant could possibly be a food processing plant which at one stage was sup posed to be in the pipeline for the Gaeltacht The name "Le Gourmet" was mentioned in this regard but it was felt that this might have been reallo
