**CLAIMS THAT** WHOLE CONCEPT OF EEC HAS **BROKEN DOWN** 

Provision for the operation of the 15th round salary and wage increases for members of the staff of the County Water ford Committee of Agriculture sparked off a discussion at a meeting of the Committee in Dungarvan last Monday during which one of the members claimed that the whole concept of the EEC had now broken

that the increase would cost an additional £3 700 which had not been provided for and in reply to Mr Curran he said that they would have to face a debit balance at the end of the

year Mr Curran then remarked that it was a very unhealthy position for the Committee when they were running headlong into debt like this but it was a trend which was opera ting in every sector of public administration in the country If it continued he said that they would be heading for a

Mr D Ahearne referred to the present position in regard to agriculture in the country and said that many small farmers were in a distressed state The farmers he said were throwing the blame for their plight on the agricultural advisers who had gone around telling them to increase their cattle numbers Those who had done so now found that they could not sell them Mr K O Ryan Chairman— What happened all the pie in the sky we were promised when

we entered the Common Mar-ket? Mr P Crotty said that from what he could see the whole concept of the EEC had broken down completely just because the Italians were allowed to break all the rules He thought that the Minister for Agriculture and the Minister for Foreign Affairs should adopt tougher attitudes in their negotiations in Brussels, "Either we have an EEC or we don't" he said

Mr J Cullmane said that with matters as they stood at present small farmers were facing a desperate situation
Mr M Veale—It's a case of small man small stick big man, big stick The Germans the French and the Italians can do what they like in the Common Market but we can't!
On the proposal of Mr P
Cahill seconded by Mr Veale the Committee approved of the money required to pay

#### I LOVE THE LEE

When it comes to lauding the river Lee Corkmen invariably opt for The Banks but 20th and 21st July-18 Holes here is a song which does it

> I love the Lee as I recall the When first I parted with its lovely shore, O'er oceans wide with throbbing heart I pray That I might see its soft

green banks once more I love the Lee as it entranc ing winds
Thro Inniscarra's sweet and lovely vale At every curve its flowing pathway finds

Enchanted spots from out some fairy tale met my dear. Her tender smiles they still enchant the scene The years have passed yet her sweet voice I hear And words of love my heart

holds ever green I love the Lee when flowers loom again, And when in fancy thro the glens I roam In childhood days oh I was happy then fondest mem ries ever call me home

I love the Lee at night and noon and morn At every hour from rise to ebb of tide Its verdant banks the trees and woods' adorn Where lonely cot and stately mansion hide

love the Lee where at its journey's end Ring out with welcome peal the bells of Cobb A longing exiles tears with gladness blend For this the grand old river
