This week we will depart from our usual practice of giving views and comments in this column and devote it instead to a story which we have been asked about over and over again down through the years the story of Sleady Castle, one of the strongholds of one of the leading families n Co Waterford for a long

Costle coula be seen where once it stood in grandeur commanding the local countryside It was built on the site about two miles north of Grath family had been long established in West Watertord in those times and were noted benefactors For several centuries they had endow ed many monasteries and churches, one of which was the church of the Canons' Abbeyside where the present Parish Church of that parish,

was fashionably known in his Sleady Castle own times as Pilib a 'tSioda because of the fine clothes ne wore He married Mary, the daughter of John de la Poer, Baron of Curraghmore, against the wishes of her father, but when he brought his bride back to the old ancestral mansion she was not at all impressed and with the perversity which has always been the prerogative of women she refused to enter it She returned to her father's she would remain there until had built a home which would be worthy of her She urther insisted that it should be built on lands which she held at Curroch na Slaodai

ccross from Farnane Philip held tough but his tenants, friends and relations seeing him left wifeless, hurled to his assistance and soon the Castle of Currach na Slaodai began to take It was built in the form of two crosses linked, and its eight wings were terminated each with a gable and high chimney The story goes that it took seven years to complete the construction of the castle but this in fact was now the castle came to be

Philip's wife then took up esidence at Sleady and they <sup>rod</sup> three daughters and a son Donal, who died in bovnood Philip died shortly afterwards and the lands of Sleedy then passed to his bothe Pierce McGrath How ever the widow and her doughters continued to reside n the Castle until the latter blossamed into three very ovely young women They were fond of society and much sought after by the young gentlemen of the locality

AN UNSETTLED PERIOD

At that time Clonmel was a strongly garrisioned town and the sisters visited it often to attends balls and parties Soon they were attracted to three young officers and eventually persuaded their mothe to invite them to the Cotto Things generally were insettled throughout the in those years and

attractions on which they entered the EEC were gone from them as far as agriculture was concerned and this effected them more than any other member country as Ireland depended so much on agriculture a cruel situation and if the Who he asked, could foresee farmers decided to go out on to the rules being broken to the who he asked, could foresee farmers declared to go out on the the rules being broken to the extent they had been with beef going along with them irrespections imported from non-member Countries in huge quantities while farmers in member agreed that the Government ties while farmers in member should be using its right to countries such as Iraland were countries such as Ireland were veto and said that while it wa being squeezed out of existence easy to criticise nobody had because of bad cattle prices offered any alternatives

but of being interested only ir Me Fein"

When the vote was taken at the finish Mr Fahey's resolution was carried by only eight votes to six the proposer failing to win the support of party colleagues Mr O'Ryan Chairman and Mr T Foley or the independent member, Mr P Crotty

In moving the resolution Mr Fahey s complained that it was ent Irish Government did not become involved in the independent of the independent member in jeopardy The herds that had been built up look of the accused some of the preventions at Dungarvan Committee of Agriculture should be made a political platform. He accused some of the preventions at Dungarvan in the mand that the accused some of the preventions at Dungarvan in the mand and their breeding stock was very disappointed that the was very disappointed that the was provided in the industry in the interpolation in the industry in the inustry in the interpolation in the industry in the interpolation i Fahey complained that it was ent Irish Government did not controversial issues that would obvious that farming was in appear to be opposing them in better be dealt with at national

any serious manner

It must be remembered he said that the Government still agriculture was taking a hamhad the right to veto they had mering at the present time and not used it or even threatened | what worried him was the huge to use it and he thought it was increases to everybody except time for them to be called upon the farmers. He suggested that to do so the covernment be asked to In saying that the present Government was more concerned with vote-catching in the densely populated cities and town Mr Fahey said he are Government to assess with cattle on their hands and town Mr Fahey said he

going on somewhere He Mr Crotty in defence of Mr T Coffey's Maleela (S Keane) that even the present Maher said that nobody would H and J Kyle's Mabestown Bov situation was getting more have thought twelve months (J Kyle) P serious because of the high ago that they would now be Skipper (owner) costs facing farmers and if in this situation DESTRUCTIVE

steps are not taken soon to curtail them they would be wiped out

He went on to say that a
neighbour of his had brought
a calf to the mart the previous Chairman Mr O Ryan not to accept Mr Fahey's resolution which he said was political He did not mind constructive criticism but Mr Fahey was any-£1 for it He would not sell and brought it back but it had thing but constructive and was being purely destructive
Mr Veale said that they cost him £2 worth of petrol to

go along to the mart in the first place There had been a had people in the Dail for the last twenty years but there was them and these same people were coming back down the county to Council and Committing State Something (owner) tee meetings and mouthing out of them The Dail was the place to introduce matters c (owner) (cup winner) would see an increase of twenty per cent in the income of place to introduce matters c this nature and not County Concluding Mr Fahey said that they must ask the Gov-Committees of Agriculture He ernment to take its responsibilities seriously because if the farmers went bankrupt the the farmers went bankrupt the in the Government to solve the Dackie (owner) (cup winner) rest of the country would also be bankrupt quickly They had all heard a lot about the econo

COMMUNITY ADVANCEMENT IN VILIERSTOWN

CHILDERS PRAISES

On the occasion of his first official visit to County Water-

of Flowers at Villierstown on last Friday evening the President, Mr Erskine Childers, said that he always tried to accept invitations to speak to people living in the countryside particularly where an ecumenical bjective had been achieved or was being pursued In Dingle he had opened the estored Church of Ireland paid for largely from funds provided by Catholics and to be used as

a Community Cen re on week days by the people of Dingle The story of Villerstown Church was in some ways very unique The village was almost the only one of its kind in Ire-land where people had to travel elsewhere in order to worship, although the village did contain a church which was an archi-

tectural mastermere of the Georgian period, built in 1748 The people of Villerstown

were determined to have a church and Villierstown Church was handed over to the Cathol c authorities by the Church of Ireland in 1965 There was, however the problem of providing funds and clergy The committee had de-cided to inaugurate a Villierstown Church Appeal Fund as £3,000 had to be raised for restoration and for the provision

of furniture

As in the case of Dingle
Church of Ireland, the nave of

the church, with its splendid stained glass window would provide accommodation for the

# **ELECTRICITY PRICES**

Electricity bills are subject to a fuel cost variation which varies from month to month depending on the level of increased costs which the Board has to pay for its supplies of

The fuel cost variation for the July/August period (these bills will issue this month) is now fixed at an additional 0 472p on every unit of electricity used in that period This variation applies to all consumers with the exception of those on maximum demand rates who have taken supply at high tension

In the case of the latter the fuel cost variation for the July/August billing period is an additional 0 446p on every unit used in that

Group Accounts -

The rate of charge for Group Accounts (rode 138) - applying to premises incorporating flats and bed-sitting rooms in which electricity slot-meters are used - for the July/August billing period is equivalent to a total rate of 1 63p per unit inclusive of fuel cost variation and VAT

Details of the fuel cost variation which will apply to the August/September bills will be published early in October

## WATERFORD SENATOR'S VIEWS ON GOVERNMENT PROPOSALS TO TAX

**FARMERS** 

Speaking on the Finance Bill during the resumed Second Stage debate on the Bill in the Seanad on Friday July 26 Senator A Deasy stated From the beginning of time Governments which have level

Governments which have levied new taxes have brought upon themselves the displeasure en gendered by the distaste for such taxes Taxation is necessary it Dungarvan again stretched is, if you like a necessary evil It is designed to protect and aid the elderly, the poor and the less-able members of a community and to uphold community institutions

War
I do not believe farmers in the category of the well-to-do really object to paying taxation but unfortunately things have never been worse The price of young cattle and calves is extremely low The cost of feeding stuffs and fertilisers was never stuffs and fertilisers was never so high and, all in all it has been a very bad year, so bad that I imagine a great many people with a valuation of £100 will not have to pay any tax because they have not made any profit In fact some of them have suffered grave losses es-pecially those who invested last year in young cattle and calves

Where land is concerned The

It is peculiar that the Oppos-We would like to thank all ition should object to the fact those who subscribed to our that the system has not been days the collectors and changed because a commission Mr Tom Fitzgerald Main which reported on this seven Street who transferred his top player to us for the two days of land valuation was long Pantomime practice was well overdue and that it should be attended at the Mercy Convent carried out immediately That was seven years ago under the previous Government As yet

nothing has been done I would ask the Minister for something in motion to have these valuations revised I believe that it will take 11 years to revise the valuations throughout the whole country valuations If the job had been started seven years ago we would be years The negligence there does not lie with the present

The valuations are unfair especially in maritime countries because when they were levied credit was given for the fact hat farmers could use materials from the seashore such as sand, gravel and seaweed as fertilisers and for other purposes Those reasons are no longer valid Along the coast there is n many cases a prohibition on the removal of sand and gravel land is grossly unjust and needs the series takes place to be revised

Some land was valued on its merit for the growing of grain Again that is outdated and loes not have any great significance in this day and age I would therefore ask the Minister to initiate a programme whereby the land valuations would be revised

We have attitude show the town towa times in recen criticism and better commu keeping the environs clean deaf ears appeals directed to the and more esp traders and t of the town

For all the m being spent of scavenging servi are very poor T areas througho which have nev or cleaned and lighted at a i of the local L when a suggest that some system might b to give these some kind attention

The cumber the town throug with its atten concerned only lection of dor and the men completely ignor tion of the apparently is in Incidentally I f a better time sch collection of re truck could be w the principal st town Recently crawling along O'Connell Stree invariably opts street course). om with the

traffic going in tion was heavit along the entire Would it no to have the collected from before, say, 10 and before the

in traffic takes

Having said now again app traders and but and indeed to residents in particularly the How clean or the streets of the pends to a greathe attribute wh play towards The traders shou more by not refuse from thei the streets and and teenagers their civic spi throwing wrapp tainers on the Indeed motorists those who park d and adjoining also help by e their passenge young, who sit while they remai not dispose of so

> Indeed an these lines was t long ago by the who placed litte various points town in furtherd drive to "keep clean" and since very artistic ar <sup>ven</sup>ture, rather bins have been the Urbon erected at oth points The put to these appeals say the least, v
