success or failure of cable- housing development vision reception depends on thether or not there are

group who want to see the introduction of cablevision to the area made with the least possible delay My reason for witholding comment even to this point is that I know very little about this matter of cablevision

I know very little difficulty in staffing a new industry anywhere in the declare was the most neeting in Dungarvan, Mr C Curran said that West of the river Blackwater was the most neelected and disadvantaged area industrially, certainly in all of Munster A great mealittle about this matter of cablevision

I had be defined by those in which an industrial and conditions there would be catastrophe had occurred to was for industry anywhere in the declare west of the catastrophe had occurred a new industry anywhere in the designated area for industry was just not on, he said, be struction would, he added, be a struction would, he added, be a struction would, he added that on January to the country would be seeking the same.

I had be declare west was for industry anywhere in the country, he said that was just not on, he said, be cause if this kind of concession was to be given to west water for devery other comparable area industrially, certainly in a new industry anywhere in the declare west of meeting in Dungarvan, Mr Country, he said that west of the cause if this kind of concession was to be given to west water for each provent and another because in the country would be seeking the same. little about this matter of coblevision Association, which is most people who did oppear to know something obout the subject and their opinion, for what it is still rather premoture to be any way decisive in making a forecast as to whom people believe that the only thing which is keeping coblevision away not policy for mere process lake Cork and Galway is the following which is keeping and colored the same and the one major industrial after that an industrial after the matter to be a success or not making a forecast as to will be a success or not making a forecast as to would apply to Dungarvan as the life saver of West Waterford He and 250 women untrophing, for what it is still rather premoting the necessary capitol.

Mr. J. Cullinane referred to the apply the provision of the system of making a forecast as to would apply to Dungarvan as the life. Saver of West Waterford He and 250 women untrophing, for what it is worth to making a forecast as to would apply to Dungarvan as the life. Saver of West Waterford He and 250 women untrophing which is still rather was a total of 280 men and 250 women untrophing which is said that a trees when went on to to the same.

Mr. McCarthy went on to to describe Dungarvan as the life saver of West Waterford He and 250 women untrophing which is said that at present there were and the one major industry as the bacon factory in the country would be van and Waterford and the country would be van and Waterford He and the country would be van and the country wo

p'aces like Cork and Galway would apply to Dungarvan as However suitable trained per-is the failure of the Minister Galway as far as the Minister as a result the industrialists for Posts and Telegraphs to is concerned concerned lost interest

Lights:

ming a home

costs you too much

Here's how to cut down:

Try confining family activities to one or two rooms in the evening Use only what light you need, compatible with safety, of course high wattage for reading and knitting, lower for television viewing or fireside chatting Give children the switch-off habit all

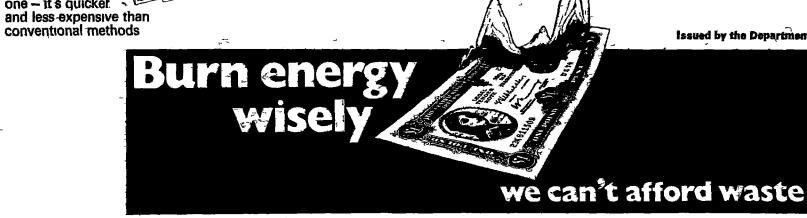

around the house And when vou re changing light fixtures, especially in the kitchen, consider fluorescent fittings - they burn only half the energy of ordinary filament

Appliances in General:

Televisions, record players, vacuum cleaners, tumbler dryers – they're all energy users So try to be more selective in your viewing and listening And don't use electrical appliances unnecessarily - especially when a manual operation would be just as

Another danger point on which I was asked to focus the spotlight is at Mitchel Street at the entrance to the Christian Brothers Schools 1 have been told that when the vanious classes, especially those in the junior grades, are being left out it becomes a night-mare for the teachers in charge who try to see that they get safely across the roadway Traffic sweeps around the bend at a fast pace from the Youghal road a couple of hundred yards away and there have been a number of miraculous escapes there from time to time Signs do not seem to convey

any strong signals to some motorists and I do not think that a further sign such as "children crossing," added to the forest of signs which are already dotting the roadside would have the desired effect at these points However something will, as I say, have to be done to see that children crossing the arterial highway at those points con do so with some degree of safety Perhaps someone m the Council's Roads Deportment could come up with some solution to the problem which is bound to become more and more ocute as the volume of traffic passing through the town increases NOT ALL GAS
