The division of land needs to be speeded up Division of land sometimes takes many years and small farmers in need of land, find this most frustrating It is probably due to a severe shortage of staff and the fact that people who wish to acquire land have to be vetted in a pain-staking manner by Land Com-mission officials

To discuss shortly We will probably keep the Minister here for several weeks

The Minister has listed the figure of small farmers as being this list what happens Some businessmen buy land as an income tax evasion method viable The £20 million which he intends to make available through this Bill is badly needed Unfortunately that amount is in the form of land bonds which are not so attractive We appreciate and welcome his statement that he is trying to get more and more cash available for the purchase of land at cases where speculators have bought these estates and continue to retain them at the express of local smallholders bought these estates and con-tinue to retain them at the ex-pense of local smallholders

At the last monthly meeting of the Council, Supt M English who attended to discuss the parking laws with the Council members, was told cond particularly by Mr T Kyne, at S TD, that he should have no reason to be satisfied with the monner in which the parking oil laws were being observed. The Council unanimously agreed that the time for the softly, ever softly approach was over and the Supt was told to instruct very his men to adopt a tougher done approach

This has now happened and the streets are being cleared but the traders are "hopping mad" and protests are being Abbe made all over Parking tickets Patri have been handed out by the new time and I understand the i that even Councillors, Urban ing and County, have not escaped and the net and have had their there names jotted down in the prope little pocket books of the aardai

A notice of motion has gone in for next Monday night's strong Council meeting asking for the status quo to be observed and I would not be too surprised if the irate traders seek and to have their protests heard Dunde
