DEAR OLD DONEGAL

Our ballad choice this week is one which treats with the beauties scenic and otherwise.

Tho I may range in foreign lands, beyond a dreary sea, The home I leave in Ireland

shall still be dear to me And as the river seeks the

To rest on scenes I dearly loved in the days of long

sea my thoughts to it shall

ago or wheresoever my path shall lead and whatsoever shall befall

Ill ne'er forget the hills and dales of dear old Donegal

Let Italy boast its myrtle groves and skies of cloud less blue

The bogs of dear old Ireland

have got their myrtles, too, And tho her sky is often dark,

her sun is seldom seen ris the weeping skies of Erin that keep old Ireland green,

The sweetest breath that nature breathes the sweet-

Falls on the heath that clothes the hills of dear old

I hear them praise the glint that lights the Spanish

maiden's eye
I hear them praise the Saxon
maid and laud her loud and

high But there are girls in Ire land fair as the flowers in

spring With eyes as black as Irish

Wing You li find them in the rugged

By moor and lake and ien and brake in dear old

Oh how I loved to listen to granny's Irish song

Or when she told some legend of ancient Irish kings,

Or when the elfs in boisterous

fairy rings You offer books you offer

For the love songs and the legends of dear old Donegal

play Kerry champions in both hurling and football. Our hurling champions will have a home venue while our footballers will travel to the Kingdom for their meeting with the Kerry champions Many of our referees in the county have been in the news

recently and among these were Noel Dalton who splendidly handled the drawn match and replay of the Limerick versus Tipperary Munster champion-

CAPPING THE PIPE DREAM

The announcement last Friday by Marathon Petroleum be Ireland Ltd that a well re- gr cently re-entered 35 miles south of Ardmore Head and which showed encouraging signs of oil and gas last year had now been plugged and abandoned would seem to end any hopes which County Waterford might have had of cashing-in where the expected the oil and gas bonanza off the south coast was concerned

The well was the subject of a series of tests by the Glomar North Sea' drillship since it commenced operations there on June 21, but these only recovered noncommercial amounts of heavy, emulsified oil and natural aas The original drilling operations commenced last year but me these ceased and the hole was cased and sealed in December when bad weather was experienced by the drillship Initial reports that ex hydrocarbon signs were encouraging on the well provided considerable grounds for Du speculation but these have ser now been shattered

The latest report states that the "Glomar North Sea" |cer is moving to a new location Th which lies 36 miles east of the dre Old Head of Kinsale and I vid hope better results will be sw ound at this point It is of interest to note that vol

5 days before the "Glomar North Sea" moved into position off Ardmore, a group of in 24 public representatives and off afficials representing Water- ord County Council, Water- nur ford Corporation, Wexford and County Council and the Har- off bour Commissioners of Water- whe ford and New Ross flew to Glasgow on June 16 on a £30 6-day visit to tour centres concerned with oil development off Scotland The re-the presentation from Waterford pla County Council of four Coun- run cillors and two senior officials full occounted for 25 per cent of the the entire delegation and pres nebody has questioned who such took up the tab for the ex- and penses occurred in the trip it cu or what the total amount the involved came to

Just prior to the trip there inot was a great deal of euphoria Gra about the oil finds and the cons frantic need for plans which thin would have to be made to of beat the other fellow to the prov draw in cashing in on the more Now the dream has shou been shattered with the capping of the source from which the liquid gold was expected

What a great pity that the peop County Councillors did not arou wait a little longer before suffe took off on their vary Scottish trip, at least until Thes the drillship had come up led with something positive The compatepayers would then have they been saved the cost of what a we described at the time as "a tion turas en aisce" (freely translated as "a wild goose of ill chase") The cost from what related to a gather, included flight of flight tickets, transport, first class seem hotel accommodation and a least very generous allowance to local meet out-of-pocket expenses that and all this must have run which into a fair amount Was the troub venture worth it in the terms of value where the ratepayers becau of the county are concerned-people that is of course if it is the estimate county ratepayers who had to healt take up the tab for the tour are
