To the Editor DUNGARVAN LEADER Rubbish From RTE

Dear Sir-What utter rubbish TE can produce, the latest addition to their long list can be seen on RTE on Fridays, namely, "The Lads" RTE must indeed have a very low opinion of Irish intellect and wit, if they regard this programme being entertaining. It's about time RTE woke up and began to entertain its viewers. Child-Stating that instead of a cut-ren are also important viewers and their needs should be back there was need for more catered for especially this time Garda in the country, Mr P of year when all are on holidays Cahill at the monthly meeting from school. The laying on of Waterford Country Council in special programmes for children Dungaryon last Monday propose. Dungaryan last Monday propos-ed-a resolution protesting to the Government against the recent parents. If RTE do succeed in cut-back in the payment of getting a second channel I do garda overtime

NOT GIVING THE LEAD

With the summer of 1975 all but a memory we are foc-<u>ing a grim winter ohead in</u> the economic field Forecasts of a big increase in the already colossal unemployment figures by the time Christmas comes (it's just four months) off) are by no means farfetched and even the most optimistic are beginning to feel that their optimism is being stretched beyond the limits

According to figures for the 12 months up to June this year which have just been released, the number of workers in this country on short time has increased by a massive 2,370 per cent In June 1974 there were only 230 Irish men and women working short time By June of this year the figure had leaped to 5,688

However despite these facts there seems to be no change]<sup>wt</sup> in the life-styles of the majority The good times are still with us if we are to take the ge week-end spending sprees in the lounge bars and such outings as the recent Golway Race Week where a sum stated to be in the region of £2 th million was spent as any indications. The public appear to want to run in blinkers which shield them from the cold facts of the looming

disaster But greatest culprits of all are the government who have allowed things to get com-pletely out of hand. They are sorgaving the lead which they should give and the policy of drift which they seem to have as adopted very early on is still being followed When signs of the approaching recession first began to show the government spokesmen talked to the workers and advised them to lessen their demands and defe tighten their belts for the good of the country But they pict were tolking with their tongues in their cheeks as at of N the same time they had ap- UP proved big increases for them- leav selves and for all the other nom TD's and Senators A Dail the Deputy now receives a salary their of £4,661 plus travelling and othe subsistence allowances and istan

The Constitution pro- as i vides for one representative is co for every 20,000 to 30,000 Fran people but for our population follo of 23 million we have 144 will TD's, not to mention Sena- alree tors By comparison, Holland major with a population of 10 mil. Thir lion has only 100 members i way in its parliament while our ration is four times higher than the number in Britain We could reduce our number | of TD's in this country by nearly 45 and still comply with the Constitution while the we could abolish the Senate entirely and be at no loss where the administration of the country is concerned But what a financial saving it would be over a period of 5 or 10 years!
