I never feared an Englishman

or Yankee in the ring, But I tell you true, I will subdue the English bully, King 'Tis not for the sake of money or any other wealth, Nor meither is it for the sake

of the English Belt, But for the honour of old Ireland as you may plainly I'll fight or die all in the ring or gain the victory

Now to conclude those verse I have no more to say, That courage may not fail him and may he gain the day, Come fill the glasses to the top until they do flow o's.

The economists have pointed out again and again since the present financial crisis nit the country that one of the main factors contributing to the galloping inflation which we are suffering from is the continued heavy expenditure by the public services sector

Last week we saw yet another example of this type of expenditure with the presentation of the annual estimates of the County Committee of Agriculture The estimate which totalled £145,336 showed an increase of over £37,500 in the amount allocated for the current year and will require a whi rate of 28p in the £, 8p more be than this year

The increase is accounted for mainly by higher salaries, additional appointments and or the upward trend in the cost of administration This money has to be provided by the taxpayers of the country and too, the ratepayers of the county to to but can they afford it?

The demands of the subsidiary bodies in the County, once they have been approved, become mondatory on the cate County Council to pay How-ever the parent body is itself in dire financial straits at the for present time and matters look | colu bleaker than ever for the coming year The overall county Sinc estimate is at present being ing prepared and from what I Vint have heard, the ratepayers of t are in for a big shock Stand- which ing at over £6 at present it und is well within the cards that Ition there could be a jump of as much as thirty-three and one third per cent in the county

rate for 19761 When you ask the reason for all these increases you will ! be told that they are due to inflation But who or what is Drin

causing the inflation?

GOVERNMENT IN EXILE Last week and up to the tune time of writing this week we have been passing through an l obnormal situation in the the country mainly due to the been kidnapping of the Dutch in Feder dustrialist, Dr Herrema The the ormy and gardor have been vers out in full force combing the tion countryside in an effort to beha capture the abductors and Trac some type of negotiations beca have been proceeding for the ister

safe return of the kidnopped mere While all his was going on we find that eight members of the government were out of the country These includet the Taoiseach who left for Rome for the canonisation are of St Oliver the previous Cour Tuesday and was away the ister entire week, the Ministers for Agriculture and Local Government, Mr Clinton and Mr Tully who joined the Taois- sprea each in Rome over the week- well end, the Ministers for Indus- deck try and Commerce and Foreign Affairs, Mr Keating and could Mr Fitzgerald who were in any the US, the Minister for point Posts and Telegraphs, Mr O'Brien, who was in Israel, the Minister for Education, Mr Burke, who was in France side and the Attorney-General, Mr wher Costello who was also in Eureach

-Under normal circumstances it should be a matter for concern to have the Taoiseach out of the country at any time for more than a week and while the canonisation of St Oliver was understandably a great occasion it surely did not warrant such a prolonged absence on his part That so many Ministers probl Were obsent at the same time once again displays the leisurely attitude which the government has adopted towards even the most critical situations which have ansen since they took office It is not sufficient excuse lute to say that wherever they this were around the world each mas in close touch with the
