The increased funds will provide the financial base for Murphys to raise by way of loans and State grants, the capital required for a £2.5 million expansion of the brewery over the next four years

After six months trading in the current financial year, the Murphys directors have confidently forecast distributable profits of not less than £400 000 profits of not less than £400 000
for the year ended 30 September 1976 as against £107,841 for the same period last year This is based on a forecast turnover of over £10 million in the current year, up from £63 million in 1975
The turnover figures assume that volume sales of the same period less than £400 000

H.B. RUNNING DOWN SERVICES IN DUNGARVAN

Dungarvan Urban Council unanimously approved a motion proposed by Senator Deasy at their meeting last Monday night expressing dissatisfaction to the South Eastern Health Board at the manner in which the dental services in St Joseph's Hospital, Dungarvan, were being run down Senator Deasy said that it

had been brought to his atten-tion that there was a tendency chroniclers assert, baptised to allow the services to be run down Up to the time of the death of the late Michael Mc-Carthy County Dental Surgeon there had been a staff of 4 employed but now there were only 2 The overall policy of the Board now appeared to be to direct the dental services to Waterford He pointed out that the physiotherapy clinic in Dungarvan had also been "If we don't make our voices heard" said the Sena-tor 'we will have no services here It is a general pattern to run them down and that pattern will continue if we don't protest against it"

Mr D Goode and Mr J A. Murphy supported the motion the latter stating that he was aware that the dental services had been allowed to be run down to a disastrous level Mr C O'Connor Co Mana ger said that the official information he had was that steps were being taken to appoint dental staff to fill vacancies which had occurred
