At a recent meeting held at the Ormende Rotel, Dungarvan under the chairmanship of Mr. James Ryan the R.G.C had the wonderful honour of having Mr. Oscar Merne, Warden of the Wexford Wildfowl reserve give a talk on the geese, swans and duck of Ireland.

Delegates representing clubs from every corner of the County were present to hear this internationally known speaker He covered a large range of items and gave us a wonderful insight into the invaluable conservation work he carries out at Wexford.

The wildfowl reserve is relationally along the football after scoreable chance, in a game which had excitement galore despite the mediocrity of the second half the Dungarvan side continued to dominate but they failed to get a much needed early score They collapsed entirely in the centre of the field then and by the doubtful if there was ever recorded over an hour's football in which so many misses were recorded over an hour's football in which so many misses were recorded over an hour's football in which so many misses were recorded over an hour's football in which so many misses were recorded over an hour's football in which so many misses were recorded over an hour's football in which so many misses were recorded over an hour's football in which so many misses were recorded over an hour's football in which so many misses were recorded over an hour's football in which so many misses were recorded over an hour's football in which so many misses were recorded over an hour's football in which so many misses were recorded over an hour's football in which so many misses were recorded over an hour's football in which so many misses were recorded over an hour's football in which so many misses were recorded over an hour's football in the was ever a duck they follower they collapsed entirely in the centre of the field then and by the but they football in a football in which so many misses were recorded over an hour's football in the was ever a much needed early score They collapsed entirely in the centre of the field

Mixed views were expressed of Dungarvan Urban Council on a request from Mr P O'Brien Strandside North Abbeyside for the lease of land at the Causeway for the provision of two tennis courts and dressing rooms

Mr P Walsh, Town Engineer, opposed the request and in a written report submitted to the meeting recommended that it.

neeting recommended that it be refused The report stated posed of and any development by way of amenity or otherwise should be undertaken by the Council and then only after an over-all plan has been finalised and approved for the reclaimed land. The plan for this area should be defined in the new Town Plan and any decision regarding its development must in prudence, be deferred until

Mr C O'Connor, Co Manager said that the area in question was that which was at present being reclaimed by the Council

being reclaimed by the Council and it was his view that this should remain under the control of the Council

Mr D Good said that the O'Brien family had proved a terrific asset to Dungarvan and Abbeyside and to the county in general and down the years they had built a great number of houses Consequently he feit that the Council should now give this application every consideration

Mr T Wade strongly objected to the application and said that for once he found himself in entire agreement with the

entire agreement with the views of the Town Engineer He said that the Council should hold on to this reclaimed land for small people who might be looking for it later on rather than give it to any big concern like the O'Briens He was totally

against the application Senator Deasy pointed out that this area had always been that this area had always been the home of tennis courts and he suggested that Mr O'Brien be asked for a plan of where he proposed to have the courts and the amount of land he required This was a facility which was badly needed in the locality and he thought that if a plan was submitted that the Council should consider the request request

NOT AN INCH

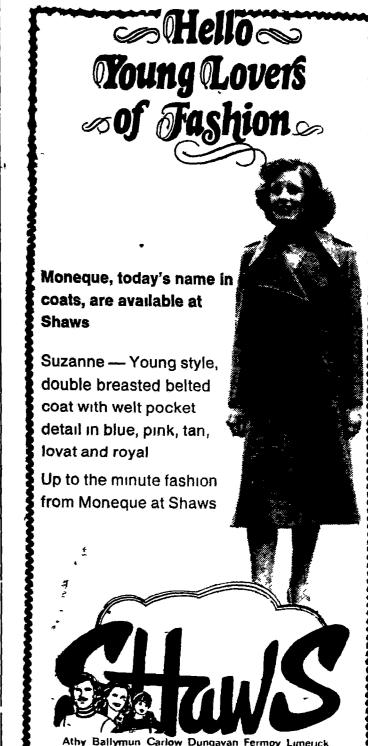

The Town Engineer said that the Council proposed to reclaim as large an area as possible at the Causeway and in time right up to the Old Hospital At present they needed all the space that was available there and in time it would become a great asset as it arranded if it and in time it would become a great asset as it expanded if it was properly planned I would not give away one square inch of it at the moment" he said.

Mr P Whelan said that there was a need for tennis courts in the town and he would give all credit to Mr O'Brien for planning some However he would like to know what amount of ground would be required before any decision was made

Mr J Murphy seconded the
suggestion made by Senator

Mr Wade again said that he

RESTORE SOIL FERTILITY

 Soil analyses have shown that phosphorus and potassium levels are falling

Now is the time to reverse this trend and prevent a drop in grassland production

 Apply phosphorus and potassium this Autumn.

They are cheaper now.

ment This survey showed that the most frequently recorded meces of litter were sweet wappers, ice-cream wrappers and sticks and metallic pieces either from cigarettes packets proon tops. The report stated that adults appeared to operate a peculiar doublestandard in that they would nution ice-cream wrapper or cigarette packet in a bin at would throw away the or cigarette without a second thought They also tended to nde their litter by throwing it over a wall, under a parked car or unto some convenient sight out of mind" attitude which was particularly apolicable to the kind of litter asso-

paper bags and drink cans in a section of the survey dealing with how seriously people felt about the problem t was shown that married people felt more strongly about litter than single people and that women generally felt more strongly about [

The report did not set out to criticise but rather to underline the problems of tter and illegal rubbish tumping and to attempt to influence opinion to become more aware and concerned The majority interviewed thought that they themselves were careful about not throwing their rubbish around "Other people" were the main couse of litter They also thought that the solution to the problem lay in education, particularly through schools while it was felt that local authorities should do more instructing and advertising It was also felt that the best

offence to cause litter -Unfortunately I believe that the real solution lies in the latter suggestion as past expersence has shown, not only in Dungarvan where the local Junior Chamber has mounted several anti-litter campaigns, but also in most other towns that appeals have had little or no affect. It is a sad commentary on the lack of civic spirit shown by the public in general that we should find t necessary to say that enopear to be the only way by which we corn rid ourselves ct itter and of the "drrty Ireand" epithet by which we have been dubbed by many of the foreign dounists, particul-
