SHAMROCKS G.A.A. NOTES

Our senior hurlers line out against Abbeyside in the senior hurling league at Cappo-quin on Sunday next. The match itself is a play-off for the runners-up spot in our section of the league, but the most important outcome of the game is a place in the semi-final against Portlaw. Early in the year we played Abbey-side in Knockanore and were lucky to get away with a share of the points after being in a commanding lead of 11 points

at the interval
We will be looking for better
results from our lads on Sunday, and a win would be a great boost to the club after a somewhat lean year The score of fitness could be draw-back to some of our players who were not active since we were knocked out of the championship by Tallow, but determination seem more of a factor at this time of the year and if this

Dungaryan Urban Council hold their annual estimates meeting next Monday ment and will deal with a budget which indicates that a eneral rate of £929 in the be required to meet the Council's financial commitments for 1977 The rate shows an increase of £1 10 on the current year's note of The estimates provide for a

total experiditure for the year £248,395 will fall on the rates Of the 110p increase the County Council demand at £2.32, accounts for 35p while additional outlay on the scavenging services accounts for 64p of the increase, so between them these two items account for 99p of the total

The cost of scavenging has been going up from year to year but despite this, the overall appearance of the town within the urban bounds does very little to reflect the increasing cost Litter still abounds and at times, especrally at week-ends, the streets of Dungarvan and of Abbeyside ore covered with all kinds of disposed wrappers. papers, time and bottles Obviously we still have a lot to learn about keeping our town tidy despite the fact that it is costing in mint to do so!

OPEN DÂY AT ST JOHN'S SPECIAL SCHOOL

The people of West Water ford have been most generous in their support of the organkation-which was set up in the '60s with the object of providing educational facilities for those children in the region who require special education For a long period the organisation had to rely on the co-operation, goodwill and hospitality of the Presentation Order in Dungarva and latterly on the local Conference of St Vincent de Poul for making temporary prem-ises available for the children attending the school And for several years it was thanks to these and to the many worderful helpers that St John s Special School operated

However the very active Board of Management under Chairman Mr Norman Walsh, M.C.C., Cappoquin and School Manager Very Rev D. O'Byrne, P.P., Fourmilewater were all the time working hard at the project of getting a completely new school erected It took a great deal of persistent pressure but the efforts of all involved were eventually rewarded when the new school wa completed and occupied to the first time by the child e when they neturned from their Easter holidays earlier in

Why was there a need for such a school? Well for very mg reasons some children d not succeed at school. The often become unhappy themselves as a result an this can lead to further prolems. As the pupil grows olde it becomes more obvious the he needs special attention help him cope with school le and with adult life later

This special attention ma be given in such ways remedial help in school exti tuition of home, a speci class in a larger school or ful time education in a "spec a school New St John's Scho is a special school whe children who are limited their ability to learn ordinary schools are taugh Here they have the benefit small classes which allow mo Personal attention, they lea only one language, Englis there are extra facilities a services, the programme geored itowards a practical a social education rather tr theory and locademic stu with work troining in
