What Is It All About have been asked on a number of occasions lately what this cultural movement Moire Cois Bride is all about and I wish here to make a brief answer to that question The scheme of cultural development under An Foth Choiste Cultura of Colste Gairm Old-eachais Cho Portlairge is es-sentially an educational scheme on a local community basis It is now being tried out in the pilot area Cois Moire Cois Bride and the rethe Deise The scheme is flexible en-

all local organisations and individuals. The first and greatest objective of the cultural and educational scheme is to create an awareness of our cultural heritage to instil a spirit of self confidence into the local community to encourage two way communications and to involve all in the effort through projects of var-

ious kinds Functional bi-lingualism and and principles and a tape corres-bro- pondence course for homes

launched
An open forum for the discussion of all aspects of local Tommy Noonan Nicky be held from time to time in 1977 A week-end seminar on leadership will also be

The activities in Cois Moire Cois Brid are then of an edu-cational nature The aim however is not propaganda or brainwashing of any kind but to provide facilities for cultural development and give to the individual an incentive to think and to discuss his immediate surroundings things that immediately con-cern his everyday life

THE URBAN ESTIMATES

A few weeks ago following the adoption of the estimates for 1977 by Dungarvan Urban Council which will require a rate of £9 17 in the £, i made some brief comments and promised to return to the subrect at a later date. I have Been umoble to, do so until now is to refer to some of the major expenditures which make up

One of the biggest items or £34.317 was the amount allocated for the maintenof houses in the Council's housing estates. This shows ar encrease of £7,000 en current year. Next in Ini comes the cost of operating and maintaining the town water supply which, c £33,185 is a hefty sum an about £4,000 more than th amount budgetted for the year An income estimated a £19,500 from water charge

charge The cost of operation and maintaining the tow sewerage scheme for 1977 given as £14,742, an increas

One of the controverse items was the cost of collect ing domestic refuse or street cleaning, the combine charges for which at mo than £33,000 show an it crease of £10,000 on the year This figure includes the purchase price of a new re-u truck started to be somethic in the region of £18,000 is interesting to note that the past few weeks, Midlet

Urban Council also purchas a new refuse truck but t ane they opted for was pric at £7,500 A substant difference which would see to indicate that it's a case "do what you do do, wel where Dungarvan is co cemed

Similarly the inclusion £9,000 as one of five anni installments for the provis the new super lux Office accommodation on ground floor at the Town h is another indication when Dungorvan Urban Co cil does anything it does believe in doing it by halve no matter what the cost nor indeed the capacity of

ratepayers to pay The annual cost of town's public lighting next year will be £12 which is up by £2,000 have the name of being "Of the best lit towns in country certainly costs sure who cares about cost nowodays These should be enough to be g
