election will be over by next week, but you will still be left with your television set Those of you living in Waterford county will be deciding by your votes whether or not you will ever be able to receive BBC and ITV services on your television sets By supporting **BILLY KIRWAN** and giving him Your No 1 Vote you will be telling the next Government that you want full Multi-Channel Television and

Our candidate, BILLY KIRWAN, is the man who founded the Waterford Multi-Channel TV Campaign Committee and who got multi-channel for the citizens

of Waterford city Our candidate believes in getting things done, not in talking about what should be done. The situation has now been repched where the people of Waterford county have their backs to the wall All the political parties—irrespective of 1973 election pledges—are now united in opposing the claims of the Waterford people (and others throughout the single-channel area) for TV equality

So now, on Electron Day, the decision about the future of the TV service rests in YOUR hands. You have the power to make the final decision. Once that decision is made there can be no going back We now have to tell you this If you do not give MASSIVE SUPPORT to our candidate this Committee will have ta reconsider whether or not they can continue with the campaign for multi-channel on your behalf They have been fighting this campaign for

The CIE representative wa

for any further reductions in Mr J Fahey T.D said that the attatude of C.I.E would have to be changed as the whole country was up in arms at what they were doing They were doing nothing to increase the number of passengers and their charges "were out of the way high" He said that CIE should encourage people to use their services by charging res good service otherwise the would have no public transpor service in the county at all.

COMMON KNOWLEDGE

Mr Leonard in putting the case for CIE said that it was common knowledge that the Company was in a very diffcult financial position and the management was under great pressure to economise. He pointed out that there had been an explosive increase in the ownership of private can and car ownership in Water ford was very high as a result of which there has been less and less a demand for the ser vices provided by CLE and the majority of the country bus services were running at a loss. Referring to the Waterfood Kilmac' 18 05 run Mr Leonard said that in one week in April there had been no cash taken at all and the average weekly return was about £20 which And we love you very much We'll never forget you Brenmeant that there were never more than five paying passer-gers on the bus on any one

In the case of the 0900 Dungarvan-Mallow service which was running on 6 days a week at present he said that to at present he said that be cause of the volume of traffic being handled and the demand for the service it was decided that 2 days a week would be sufficient in future. In the first lawes of this year the loss incurred on the loss in the loss i incurred on this run amounted to £1 925 It was also proposed to withdraw the Dungaryan-Waterford coast road service on Mondays

conclusion Mr Leonard said that in general it was the policy of C.I.E to provide services where there was sufficient demand by demand to justify them but where this could not be justified then they would be reduced or withdrawn

The CIE representative was James Leonard who ilanager Mr Tony O Coming Mr. Re ay told the Council and wider the proposed cuts he first service to go would the 18 to Wateriord to Khi-tacinomas He said that they exertioniss he said that they crepted this was hot paying is was but their two principal curries were the effect it would are on the travelling public ad also where their own memers were concerned

Mr Reids pointed out that hear CIE closed the rall ser-Ke in the county in the mides thet had given an under T a bus service which would work it He also said that the logic in the overnment providing free tavel for old age pensioners care CIE was cutting out

Mr Hogan supported Mr tedy and Mr Duces said that said from June 27 the daily ervice leaving Dungarvan at for Mailow would be an for Mailow would be educed to two days per week, londay and Thursday K ORyan said they

new the bus services were not aring but when CIE cosed he ra ways they gave an un-ertaking that they would prode a suitable alternative ser on the buses Now hid they were beginning to red . this was but the thir age of the wedge in a total andrawal of even the bus

Mr F King said that while were being compelled to cut-backs he felt that nis was a social service for the people and as they didn't ave one mile of passenger rack in the county CIE hould have a proper bus ser-ace. It is high time, he said that we stuck our heels in nd sar that we will not stand nes services."

Mr J Fahey, T.D said tha he attitude of C.I.E. ave to be changed as the those country was up in arms twhat they were doing They ere doing nothing to increase he number of passengers and heir charges "were out of the av high He said that CIE. hould encourage people to use heir services by charging rea-onable fares and providing a ood service otherwise they ould have no public transport ervice in the county at all

replay Again there was little difference in the abilities of either side But St Mary's had the key figure in centre back John Dalton whose commanding hurling negatived most of Killgobinets attacking power. The presence of Declan Fitzy patrick who missed the drawn also had a strong interest taking was superb and he got most of their scores from claced balls but otherwise his contribution to the game over the bowl was rather disappoint.

Kalgobinet led by 2-2 to 0-7 at the interval thanks to goals five minutes from tune from Martin Walsh and Earnon
Burns However desprte creating some good chances in the second half the over all poor quality of their attack was highlighted by the fact that the only managed to score 0-2 a against 0-4 for St Mary's during this period during this period

Exchanges were rather robust at times during the game and one incident in particular sparked off a free for all in the second period in which a num-ber of players from each side became involved Reason prevailed however and order was restored and the game was played out without rancour A lemenc, of referee Mick White Fourmilewater for this St Mary's best were goalle Ned Power John Dalton, Tom

EIRE OGE G.A.A. NOTES

Our u-14 footballers take on Stradbally in the final of the Bord na nOg championship at Dungarvan on this coming Wednesday 15th June We are really up against it here as Stradbally looked impressive in their semi-final recently However if our lads can pro-

duce their best form then we could be in with a chance We will be looking for a big effort from all the lads to try and upset the favourites and bring an under age title to the club an under age title to the club for the first time

We would also like to urge our supporters to come along and give the lads that extra lift which is so important especially to juveniles contesting a

My proposals to the people of Ireland.

The Fianna Fáil Manifestoan action plan for national recovery.

The vision of this manifesto is an Ireland in which a successful strategy for national reconstruction offers real security for all. It has been carefully put together and costed for implementation in government by a team under Jack Lynch as Taoiseach. It is a blueprint for leadership which, by firm and just administration of law, esteem and enterprise, and concern for the individual, will bring back that sense of confidence and interdependence which is essential to the growth of peace and social progress, and of our cultural heritage and place among the nations of the world

The Economy &

The real threat to our future lies in the economy Four years of Coalition misrule have left the country in a sorry state Prices have gone up by almost 100% and the country's debts are costing £8 weekly in interest for every household

To raise employment and to lower prices, Fianna Fall proposes £160 million in tax cuts in 1977/78

Income Tax allowance for married couples raised to double the single

person's allowances 2 Increased personal allowance of £200

for single people and £400 for married couple 3 Rates abolished on all dwellings from

next January 4 Reducing the Social Welfare stamp by LI weekly for all workers earning under £50 weekly

5 Abolishing road tax on all cars up to These tax cuts, combined with 5% pay rises would cut inflation in half

We will provide 20,000 new jobs in 12 months by

 $1 \parallel \mathcal{L}$ 30 million in building and construction

2. £20 million on providing 5,000 jobs for young people 3 £50 million on extra gardai, teachers and other urgent needs

A campaign to boost Irish industry A comprehensive and effective programme which would switch 3p in the £ to spending on Irish products would yield 10,000 extra jobs

Prices DO

1 The Prices Commission will be thoroughly examined, and restructured and brought up-to-date

Government policy will be directed towards discouraging increased costs and prices wherever it can control or influence them

Investigate middle-men's margins where they appear to be excessive Publish weekly a list of comparative prices for the most frequently purchased donsumer goods in

different parts of the country Control by legislation, in the genera interest, of monopolies, takeovers and mergers

We will abolish the seven-day rule in respect of fuel price increases Investigate why N I prices are less (apart from tax reasons) than prices in the Republic for identical

products such as motor cars, spares, processed foods, clothing, etc. The Minister should be empowered to fix the prices at their N I level We will revert to the position where a government minister is responsible

for price control The accounting procedures of the ESB will be brought up to date, with a view to reducing the price of electricity

Industry

To achieve a volume growth of 15% in manufacturing output and 20% in exports, the following steps will be

State agencies set up to help industrial activities will be given a new sense of purpose by a Lemass-type Industrial Development Consortium, chaired by the Minister for Industry and Commerce A vigorous new export marketing

drive will be encouraged and a new Export Credit Finance Corporation will be considered The IDA will be given every support in their efforts to attract new industries, and the regional industrial development effort will be reviewed and intensified.

Mineral Resources A State-owned smelter could be

established here for £40m — £10m of this could further the equity capital, this is equivalent to the sum paid by the

Agriculture

A major objective of riational economic policy should be to make quality food Everything we produce must be processed and packaged through to the consumption stage, and every by-product must be fully

Livestock We will introduce a National Livestock Development programme to improve stock, the disease eradication programme will be accelerated and in cases of hardship full compensation will be paid Tillage: Higher grants will be given to provide on-farm storage and handling facilities A Grain Marketing and

Information Board will be established to develop home-grown wheat, and we will ensure that the national acreage and processing capacity will justify an increase in our EEC A-quota

development category Land Policy: We will establish a Land Development Authority responsible for structural reform, which will introduce long-term leasing to assist young farmers in acquiring land These

and health benefits Farm Modernisation and C A P We will demand the abolition of the present discriminatory transitional category, and we will provide uniform rates of grant on capital investment at 40% for land improvement and 20% for farm buildings and fixed equipment

Co-Ops We will repeal the taxation Policy on Farm Tax A farmer can opt for assessment by submitted accounts, with the option of arranging his profits over a 3-year period, or by the notional system Our notional system will encourage re-investment in farming by

1 On wages paid to farm workers,

2 On Contractor fees, saving farmers 7.50m grain import bill

Fisheries \tag

Fianna Fail considers a 50-mile and factory ships to be an urgent necessity We will co-ordinate a fishing fleet, the expansion and marketing of the fish processing industry, harbour expansion, and the monitoring and preservation of the fishing stock

We will maintain the living standards of social welfare recipients by regular adjustments of the level of payments at least in line with the cost of living

3 Bring in a Supplementary of the present outdated home assistance scheme

social life of modern communities Some people seem to think in a general election Why shouldn't in be? Television costs people a great deal of money and is likely to cost a lot more There are licence fees, rentals cablevision fees, repairs up-keep etc., all of which must come out of the family budget People are paying for a good service so why shouldn't they he able to choose their own programmes on whatever channel they wish without imterference from people who think they

know what is good for others What sort of a country is this, where a minority of people with vested interests claim the right to deprive a major part of the population of the right to choose television programmes should not allow this to happen because it creates bitterness and discontent among the

people
This is a case of one section
of a population inflicting an inustice on another section and we have seen in other parts of result from unfair practices of this nature People tend to lose who allow this to happen particularly for politicians who promised that they wouldn't allow it to happen, and then went back on their word Its now obvious that Water

FAHEY, Jackie KENNEALLY, Wm. O'BRIEN, Ria WHELAN, Sean

Get this country moving again with Fianna Fail Issued by the Director of Elections

The Coalition's Shameful Record

In Waterford as in every other constituency throughout the country the issues in this general election are very much the same job creation (or more specifically the lack of it over the past four years) spiralling prices worsening unemployment, decreased health services. How does the Coalition's record stand up to close scrutny on all of these issues in this four-sea Waterford

constituency In just two simple words—it doesn't.

The unemployment figures for Waterford city and county now stand at an all-time high future job prospects for many more especially the young are virtually nil The country is crying out for a return to the days when Fianna Fail made the industrial estate in Waterford city hum with working activity and to the days when Jack Lynch officially opened Dungarvan Crystal and George Colley

opened the grant pfizer plant at Ballmacourty
Under the heading of "amenties" the Coalition's record
as equially deplorable West Waterford's much sought after town, has never got off the ground simply because a bankrupt Government hasn't got a penny in the knty timance it. The same can be said of the entire city and

And prices Every housewife now knows how lamentaby thus Coalition Government has failed them on an essue which probably more than any other brought them to

The Coalition now asks the people of Waterford and indeed the country at large, to judge them on their record We in Flanna Fail ask likewise because it is a record so shameful and dismal that voters cannot be left in any doubt as to where their votes should go on June 16th | In asking then for your support for the four France Fail candidates in the Waterford constituency, we ask you to join with our party in getting this constituency and thus country moving again Twice previously we did so after dusastrous terms of Coalition Government We are ready, willing and able to do so for a third time

peratures tumbling down Tidy Towns Competition
The painting of houses in
different areas of the town in
preparation for the Tidy Towns ably commented on as has the voluntary efforts by members of Tallow Development Asso-

However, there are still some areas in the town where a voluntary effort by residents is still required if Tallow is to continue its good marking of 1976.

Still the greatest problem the carelessness of some peo-ple when disposing of litter on the streets good example by all senior citizens could reduce this prob-

rem to a minimum
Tallow Footballers Bow Out Having shown good promise up the first half Tallow senior ootballers were defeated by Affane at Lismore on Sunday evening last in the champion-ship by 1-7 to 05. Short regulars Billy Ryan

Tom Doyle and Pat Daly (all out through various reasons) Tallow played exceptionally well in the first half and looked in a strong position at the interval when trailing by a having played against

the wind. However as the second half progressed Affane proved the fitter side and stuck the pace better to register a good win. As the majority of the senior football players form the back-bone of the senior hurling panel Tallow must immediately put in a greater effort (if the will is there) to advance beyond the next hurdle in the hurling championship

Senior Hurling League Relegation Play Off On this com-ing Sunday the senior hurling league relegation play off between Tallow and St Mollerans will be played at Dungarvan at 3 30 pm This game is vital for Tallow to win as the losers will be relegated to the intermediate

Tallow players and officials are requested to be at the Square Tallow at 2.15 pm Muintir Na Tire Notes — (Knockanore Watermoy)—This year's annual Gala Day "Fete 77" will be held on Sunday July 10th in J F Kennedy Park Knockanore San advertisement on
