DEPUTY COLLINS ON GROUND RENT DEBATE IN DAIL

During the debate on the Landing the Dail last weak the past vear the Franna Fall Party gave a clear impression that it he poke mainly to condem the sheer and utter hypo crisy expressed in the Bill on the basis of what Franna Fall said or gave the impression they were going to do in relation to good doubt outside the Dail about the impression Franna Fall gave in their public state ments and by their candidates during the leiction campaign or what was said in private to such people as ACRA and in trivate to such people as ACRA and the in the meantains as sociations. It was the intended the population of Franna Fall to abolish to of Franna Fall to abolish to of Franna Fall to abolish the population of Franna Fall to abolish the population of Franna Fall to abolish the population of Franna Fall to abolish to of Franna Fall to abolish the population of Franna Fall to abolish the population of Franna Fall to abolish to the to the frann

to me that the Constitution was there and could not be flouted I accepted that I also accepted the expensive for any Government to take on the task of baying out, existing residential ground rents. It would take unknown millions I am not a legal person by any means I am not well read in the small print of the basic reason why I want to reasonably well and I accepted the Bill introduced by Senator.

the law It was explained to me reasonably well and I accepted this as being very difficult to achieve In my own constituency I beame so annoyed that I decided to speak today There is no doubt the Minister is splittion clear and I did so I said that socially evil though the ground rent structure is I would recommend to tenants that they should read the provider a should read the provider and the recommend to tenants that they scheme which will lead to the should pay their ground rent abolition of existing ground

un'til such time as the law is rents changed I said I would support any change in the law if some legal means were found whereby the State could bear the charge of abolishing them That was my personal position before during and since the election when I was called to a meeting of a residential as sociation in Waterfo

Mr Collins went to say "Over

Today the Minister reiterated that statement He said That statement is perfectly clear It has always been clear to me It is not clear, because this Bull does not lead to the about tion of existing residential ground rents There is nothing in it which states specifically that existing residential ground rents will be aboushed It is a

measure, as was the National Coalition's measure, designed to facilitate tenants purchasing existing ground rents This Bill changes the approach slightly

A modest boast from Erin

This has been a satisfying year at Erin Foods Not only because our soups have been so successful, our Hot Cup chosen as the best new product of the year, our new Sauces doing extremely well

but also begause we have turned in a profit in a year of very tough competition. The Irish housewife likes our products,

which we make to the very highest standards at our command, from the finest Irish raw materials

We are determined to pursue ever higher standards, and to introduce wholesome new products to partner our soups, our vegetables, our sauces, our desserts.

so that the faith placed in us by the Irish people shall be constantly renewed.
