Waterford District

The recent snowstorm caused very extensive damage to ESB networks in Waterford City and County and South Tipperary, To our Customers in these areas I say a sincere thank you for your forbearance during the time when you were without electricity. Some people had no supply for a whole week.

In many cases our repairs are temporary because our first concern was to get supply back to you. There will be a great deal of maintenance to be done and we ask for your understanding if short term interruptions are necesary later on to do this work.

May I also say thank you to our local staff and to the men who came from other ES.B. Districts to help us. The dedication of all under difficult conditions is much appreciated.
