THE EDITOR

Dear Sir—Ardmore is hitting the head lines and at long last is receiving recognition County

and National wise Consequently

the time is ripe (parish level) for the local councillors to ac-

company the County Engineer

urgently required first and fore-most Whenever a house or sate come on the market

a hundred genuine buyers are at the ready Planning

is a positive major stumb-ling block but that is another

days work Almost daily one can see locally major develop-

ments on the way—planning to follow Sorry to relate but it

seems the only way to get

As regards the question of sites for locals I suggest that ten or twelve council houses

could be built in the grove or

wood now a dump by simply

purchasing half acre at the rere of this plot Other sites

are thereabout also If the Land Commission have land near the

village there should be no prob

lem even for the burning ques-tion of a graveyard One way

to meet this requirement—re cycle the old To the numerous

objectors I say read local his-

tory and learn that the field with the tip-top sites at the foot of the Round Tower was a

graveyard The same could be said of most fields in Ireland

A final suggestion, by putting

the main sewer up the right way from Windyridge to the top road hey presto the Dysert

Plateau would solve our prob-lem for houses, houses houses!

ions that could and should be made re the Chiff Walk etc etc

Now is the tume to make them
